We will continue to keep our apartments available for low income and elderly tenants. 11. (f) Resident Advisory Board comments.

Our Resident's met on Oct. 5th to discuss their needs and to review the 5-year plan for No Lo Villa. They were happy to have the items listed on the plan and wanted to know if there were any plans to have washer & dryers available in the apartments. (They are currently available in a commons area of the community room). There is no way at this time to expand the soze of the apartments to accommodate such a request. It could be a plan for any new buildings constructed the future. There was a request for making a larger concrete step at the back door of the apartments and we had already considered this in our 2011 plan. They were happy to know it was planned for.

(g) Challenged Elements.

There were no challenged elements to resolve.

We are aware that we will need to do more detailed planning and budget submission for the solar and wind energy project for 2014. The REA is starting conversations about using alternative energy projects to conserve our energy use so we are in the beginning stages of thinking through our options for this development. We may find that it is not feasible for a development of this size, but we were hoping to have a proposal by 2014. This will definitely be done with full detail submitted to HUD before anything is begun.

COMMENT:

The NLHA is aware that our designation is not only for elderly. We currently have a good mix of residents. Seven tenants out of the 17 are currently over 65. We do provide housing for low income and elderly tenants.
