THE CLINTON HOUSING AUTHORITY DECONCENTRATION POLICY

The Clinton Housing Authority's policy to provide for deconcentration of poverty will consist of the following:

A. Targeting: The income levels of families on the waiting list will be analyzed so that not less than 40% of admissions in any fiscal year will be families whose income does not exceed 30% of median income for the area.

B. Income Mixing: Prior to the beginning of each fiscal year the CHA will analyze the income levels of families residing in each development to bring higher income families into lower income developments and lower income families into higher income developments.

The CHA will strive to insure that no individual development has a concentration of higher or lower income families. The CHA may skip families on the waiting list to reach other families with a lower or higher income. This will be accomplished in a uniform and non-discriminatory manner.

The CHA will affirmatively market public housing to all eligible income groups. If necessary, the CHA will determine the level of additional marketing strategies and deconcentration incentives to implement the objective of this policy.
