Project Description: This award will allow for the construction of an addition to Mason Manor Retirement Community to add an elevator and storage space for the residents. It will improve the quality of life for the residents by providing a larger elevator to accommodate move-ins and move-outs as well as ease of use and improved care during emergency situations which would require the use of a gurney. The additional storage space will eliminate clutter in the units which could become a fire hazard, and will improve the quality of the living environment for the residents.
