Dear HUD/FHA Community Partner:

You are cordially invited to attend a half day briefing to discuss ***FHASecure***. The intent of this meeting is to increase awareness of ***FHASecure***; the Department's refinancing option that allows homeowners with non-FHA mortgages the opportunity to refinance into a FHA insured mortgage.

Key staff from the FHA Homeownership Centers and the local HUD office will provide an overview of ***FHASecure***. This overview will include instructions on how to navigate through our website (www.fha.gov), and discuss local initiatives that may be available to homeowners experiencing difficulties with their current mortgages. If you have printed information that can be shared, we ask that you bring handouts (100) for distribution to the attendees.

Briefings will be held at the following two locations. Online registration is required (see link below for the session that you would like to attend). Please limit registration to two (2) persons per organization.
