

Guide for Review of Homebuyer Projects			
Participating Jurisdiction (PJ):		Subrecipient:	
Staff Consulted:			
Owner/Project Address:		HOME /ADDI Amount:	
Name(s) of Reviewer(s)		Date	

**NOTE:** All questions that address requirements contain the citation for the source of the requirement (statute, regulation, NOFA, or grant agreement). If the requirement is not met, HUD must make a finding of noncompliance. All other questions (questions that do not contain the citation for the requirement) do not address requirements, but are included to assist the reviewer in understanding the participant's program more fully and/or to identify issues that, if not properly addressed, could result in deficient performance. Negative conclusions to these questions may result in a "concern" being raised, but not a "**finding.**"

**Instructions:** These questions are to be used to review individual project and unit records for both HOME- and ADDI-funded homebuyer projects. Nearly all HOME requirements apply to ADDI-funded homebuyer projects (match and Uniform Relocation Act requirements differ), so all of the HOME-related questions in this Exhibit also apply to ADDI-funded projects. Note, however, that additional requirements apply to ADDI; separate ADDI questions are included to cover those requirements. In reviewing ADDI projects, monitors must keep in mind that, due to limitations within IDIS with respect to designation of ADDI projects, the units that a PJ has designated as ADDI units may not be the same units that the Department has designated as ADDI units. Consequently, monitors should only assess the compliance of units that the PJ has designated as ADDI units with the ADDI requirements. All other units should be treated as HOME units, irrespective of whether HUD has counted them as ADDI units. One Exhibit is to be completed for each individual project reviewed. This Exhibit is divided into nine sections: Participant Eligibility; Property Eligibility; Recapture/Resale Provisions; Eligible Costs; Property Standards; On-Site Inspection; Contractor Selection; Construction Management; and Project Documentation. If an area or question is not examined, make a note to this effect in the "Describe Basis for Conclusion" section of the applicable question.
