**DESCRIPTIONS/SERVICES**

**PO.1. SERVICES**

The contractor shall perform on-site interior and exterior field review of appraisals for the U.S. Department of Housing and Urban Development (HUD) Santa Ana Homeownership Center (SAHOC).

**PO.2. GEOGRAPHIC AREA:** State of California, Central Coastal, consisting of the following counties: Alameda, Alpine, Calaveras, Contra Costa, Fresno, Inyo, Kings, Madera, Mariposa, Merced, Mono, Stanislaus, Tuolumne and Tulare.

### PO.3. STATEMENT OF WORK

- A. The contractor shall be responsible for the management and administration of all tasks assigned under the contract and shall furnish the necessary personnel, materials, labor, services (including all transportation that may be needed), equipment to include but not limited to digital photographic capability, and Broadband Connection, i.e. DSL Cable Modem, facilities, required computer software (presently Excel, Word, Access and Acrobat Reader) and otherwise to do all things necessary or incident to the performance of the work specified herein. Appraisal review assignments will be delivered to the contractor, via Federal Express or by such other methods the Santa Ana HOC deems acceptable.
- B. The contractor shall perform, as assigned by the HOC, on-site field review of appraisals completed by appraisers on the FHA roster. For each case assigned, the contractor shall inspect the interior and exterior of the subject property and return a completed Appraisal Review Report (ARR), to the HOC. The completed ARR shall be returned to the HOC via FHA Connection Web Based System, which is accessed via the Internet. All transmissions must be followed by a mailed hard copy of the complete review, signed by the contractor containing all supporting documents, unless otherwise directed by the HOC. The hard copy is to be received by the HOC no later than 20 calendar days from the date of receipt. NOTE: The 20 day performance period officially begins with the first business day after the date received. (For example, the contractor receives the assignment on Tuesday, June 5, 2007; the performance period begins on Wednesday, June 6, 2007, and ends at the close of business on Monday, June 25, 2007.) In the event the 20<sup>th</sup> day falls on a non-business day, the next business day will be considered the date the performance period ends.

Each review shall determine the accuracy and quality of the appraisal by ensuring that:

1. The factual information on the appraisal report is correctly reported and supported. If the contractor determines the factual information on the original appraisal report is not correctly reported, the contractor shall identify the incorrect information and provide the correct information supported by a copy of the contractor's data source for each review. Example: For a square footage error, data may be a plat, survey or the contractor's actual measurements with a tape measurer or some other acceptable method.
2. Conclusions in the appraisal report are based on data presented. Example, if the data is old or not comparable to the subject, the contractor shall supply more appropriate data on the subject and comparables to justify a different value conclusion.
3. The property's location is acceptable and the physical structure is eligible for FHA mortgage insurance, as reported.
4. Repair requirements made by the roster appraiser are appropriate, not excessive and adequate to preserve the property and protect the health and safety of the occupants. If not, the contractor shall furnish supporting documentation as part of the ARR. Examples of acceptable documentation are photos of defects, home inspection report, termite report, reviewer's first hand report, report from fire/police authorities, structural engineer report, letter from contractor (such as roofer), plus any additional photos to support other findings.
5. The roster appraiser adequately addressed the requirements of the flood insurance program. If not, the contractor shall furnish supporting documentation such as a copy of the FEMA flood map or a copy of the elevation certification from an engineer.
6. The roster appraiser correctly identified properties with defective paint surfaces for which mitigation is required.
7. Sales dates of comparables are within six months of the effective date of the appraisal or a satisfactory explanation is provided that justifies their use.
8. Adjustments for location, site/view, design/appeal, and age/condition, are reasonable and appropriate.

9. The value by the sales comparison approach is supported. If it is not, the contractor shall provide additional comparables to support his/her conclusion, including a copy of the data source and photos of all additional comparables. A new or revised sales grid is required to support a different value. Example: If the appraiser overvalued the property, the contractor shall furnish/document better comparable sales, a more accurate description of the property's condition, which reflects a change in value and/or better market supported adjustments.
  10. When applicable, the replacement cost is supported by the square foot method. If not, the contractor shall furnish a different value using the square foot methodology including a copy of the two pages from the Marshall & Swift (M&S) Residential Cost Handbook where the figures were obtained. The reporting of said figures/computations will be reported via Marshall & Swift form 1007.
  11. The income approach to value for income producing properties is supported by a Gross Rent Multiplier (GRM) analysis. If not, the contractor shall furnish a revised GRM analysis. If the GRM is not supplied the contractor is required to note this in his report but is not required to create and provide one.
  12. The FHA roster appraiser has applied standard appraisal principles per the Uniform Standards of Professional Appraisal Practice (USPAP) and complied with HUD guidelines found in all applicable HUD Handbooks, the HUD Homeownership Center (HOC) Reference Guide and mortgagee letters.
  13. Manufactured homes meet HUD requirements and eligibility criteria.
  14. If the property is located on a private road, it's location and accessibility were considered in the appraisal report and compliance with HUD guidelines were required.
  15. The description of the neighborhood is complete and accurate. If not, the contractor will furnish MLS data and/or information from the local jurisdiction (city/county) on school district, zoning, etc.
  16. Significant physical characteristics are correctly reported. If not, the contractor shall furnish documentation such as a plat showing easements, power lines, deck, etc. The contractor shall compare the property condition noted in the appraisal to actual conditions, and support any discrepancies with photographs.
  17. Utilities are correctly reported. Example: If the subject property's utility services are incorrectly reported, the contractor shall furnish documentation such as a letter from the county or public utilities/Department of Water and Sewer to support the finding and any photos that support the finding(s).
  18. The housing type is correctly identified. If not, the contractor shall furnish additional documentation such as photos showing all sides of the house, property tax record/plat, a new sketch, etc.
  19. Sales concessions are correctly reported, and opinion of market value is properly qualified given the sales concessions. If the comparables had special or creative financing or sales concessions other than costs which are normally paid by the sellers in virtually all sales transactions, the appraiser should make a negative (-) adjustment to reflect these sales concessions.
  20. An analysis of the sales contract is correctly reported per USPAP Standards Rule 1-5(a) and 1-5(b). A copy of the Real Estate Sales Contract or its equivalent will be provided to the contractor for sales data information.
- C. The contractor shall perform an interior and exterior property review. It is anticipated that HUD will ask the contractor to perform interior property reviews of 100% of the subject properties assigned. The interior review shall include examination for any unusual items or serious oversights by the FHA roster appraiser of noticeable defects in the property, which could adversely affect the health and safety of the occupants or the continued marketability of the property. The review shall include, as appropriate, an inspection of the crawl space and the attic.

When access to the property is denied for the interior review, the contractor must fully document attempts made

to obtain access, and contact the HOC GTM/GTR. The contractor will then proceed as directed by the HOC GTM/GTR. The exterior review shall include all items mentioned in item B above. For exterior reviews only, the contractor will receive 60% of the price/fee.

- D. The contractor shall perform an exterior inspection of each of the comparable sales.
- E. The contractor's field review findings for each property inspected shall be documented on the ARR. The form shall be fully completed and a hardcopy signed by the contractor. The review comments shall be specific and limited to violation items presented in a constructive manner so that the roster appraiser understands those areas of the report which are unacceptable and which need improvement. The ARR and attachments shall be returned to the Santa Ana HOC via FHA Connection Web Based System and followed by a mailed (signed) hard copy, via a traceable and trackable overnight mail method (Federal Express, Express Mail, etc.).
- F. Digital photographs are required from the contractor and shall include: the interior, as necessary to substantiate adverse findings, exterior (photographs to show the front, rear, and sides) of the subject and all the appurtenant structures, missed repair conditions for the subject, and exterior (front only) of the comparable sales, including the contractor's new comparables. If the rear of the subject property cannot be accessed for safety reasons, contractor shall fully document the file.
- G. The ARR information shall be clear, legible and provide substantiated findings limited to violation specific comments. When recommending "better comparable" properties on the ARR, the contractor shall assure the recommended comparable properties fully support that statement and were available to the appraiser at the time the appraisal report was completed.
- H. Line adjustments exceeding 10 percent, net adjustments exceeding 15 percent, and gross adjustments exceeding 25 percent should be justified in writing by the appraiser. The reviewer shall determine the reasonableness of the adjustments and the validity of the justification, and shall also determine if better comparable properties were available.
- I. The contractor shall submit to training, (two separate trainings, not to exceed two days each) conducted by HUD staff at the HOC, or as directed by the Santa Ana HOC this training may be accomplished by means of telephonic or PIC-TEL means, on HUD's Appraisal Review Process field review procedures, use, and completion of the ARR, Appraiser Violations Matrix, and the electronic transmission of reports.
- J. In the event the contractor or subcontractor is needed to provide expert testimony and/or give depositions or otherwise participate in litigation with HUD, a separate purchase order will be issued to cover the contractor's cost.

#### **PO.4. QUALIFICATIONS AND RESTRICTIONS**

- A. The Field Review Appraiser performing field reviews of appraisals under this contract shall possess an appraiser's license or certification for the state, in which the subject property is located. The licensing requirement may be met through reciprocity only to the extent permitted by State law. The license or certification must meet the minimum criteria as established by the Appraiser Qualifications Board of the Appraisal Foundation for performing appraisals in conjunction with federally related transactions.
- B. Upon contract award, and throughout the award period, the contractor must be, or, have on staff, at least one (1) licensed appraiser who is an active FHA Roster Appraiser.
- C. All Field Review Appraisers must be active appraisers on the FHA Appraiser Roster. Field reviews performed by a registered/trainee appraiser will not be accepted.

- E. Bidders shall submit a Quality Control/Technical and Management Plan to the Contracting Officer. The Quality Control/Technical and Management Plan shall contain:
- A detailed description of the bidder's strategy for the timely completion of all work assignments within the prescribed 20-day performance period, as described in PO.3.B.
  - A detailed description of the bidder's strategy for the training of staff (including all subcontracted appraisers). The plan must outline the measures the bidder will take to ensure that employees and subcontractors are/will be knowledgeable of HUD's Web Based System, and this Statement of Work.
  - Evidence that adequate resources (particularly, Field Appraisers) are in place to cover the geographic area(s) sought.
  - The proposed method the bidder shall use to review all completed Appraisal Review Reports (ARR), submitted by their subcontractor(s) and/or staff, performing said ARRs, that ensures compliance with this Statement of Work, HUD rules & regulations, and the Uniform Standards of Professional Appraisal Practice.

These guidelines are to ensure that electronic media are readable by the users. The intended recipient must approve any exceptions in advance. Additional specifications or exceptions may be required in individual projects and will be included in the statement of work for the project. These guidelines apply to both data files from data gathering, analysis or presentations projects (which may use statistical, database, or geographic information applications) as well as smaller, written projects (which may use word processing, spreadsheet, internet based, or presentation applications).

Potential users will include agency staff, trade or interest groups, other organizations, and the public (if data are not confidential).

#### **ELECTRONIC FORMATS FOR LARGE DATA FILES**

If a file is delimited by commas and quotes, no field may be entirely blank, so, " ", or 0, are acceptable (some spreadsheets and other software skip blank fields in comma-delimited files). The internet (via e-mail or any other method) may not be used for final versions, nor for private data, since it may introduce unnoticed errors, and is not wholly private.
- d. For Mainframe (9-track): ASCII or EBCDIC files. No compression is allowed. Each record type must be fixed format. Blocks must be less than 32,768 characters per block so a variety of systems. No multi-reel files are allowed unless they are ASCII labeled.

- b. Title page, with the same items as the sticker, plus: Company name, project director, Contract number, Stage of processing (preliminary, final, revised, etc.), 150-250 word abstract, Weighted and unweighted control totals (so users know the size, and can check their own runs), and Table of Contents for the rest of the documentation. All should be understandable by members of the public who are not familiar with the project. This page will usually become a "README" file for the public.
- c. Bibliography of reports produced by the project.
- d. For each field: name (up to six characters, beginning with a letter, since some users may use FORTRAN or other software with a limit of six characters), position, definition or explanation if needed, meaning of any codes, presence of any errors or mis-codes if known.

In addition, raw footage will be provided both on Beta SP (or digital Beta) cassettes and on time coded, window burned VHS cassettes.
- b. Videodisk: Standard commercial (ISO 9660) format.

## **DOCUMENTATION FOR AUDIO-VISUAL FILES**

Videotapes and disks will be labeled with the title of the production, run time, the project name, contact person, contractor, contract number, and date. (h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

- (1) Are/are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (2) Have/have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;
- (3) Are/are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and
- (4) Have/have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

- (A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
- (B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

- (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR 22.1003-4(c)(1). The offeror does/does not certify that—

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Act wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) Taxpayer Identification Number (TIN) (26 U.S.C. 6109, 31 U.S.C. 7701). (Not applicable if the offeror is required to provide this information to a central contractor registration database to be eligible for award.)
