These reviews are a Departmental priority for the purpose of removal of unsatisfactory performing appraisers as expeditiously as possible. To facilitate this requirement, the Atlanta HOC utilizes State Certified Appraisers to perform the on-site field reviews of properties and/or appraisals. The performance of the contractor is a vital link in the process. Providing these services in a timely manner is critical to this process and to HUD's mission. It is essential that the contractor meet the time frames/deadlines established in the resulting purchase order.

C.5.3. A Field Review of Appraisal is accomplished by the field reviewer contacting the homeowner by telephone and scheduling an appointment no later than 48 hours after receiving the Appraisal Review Package from the GTM. If the homeowner grants permission, the field reviewer shall complete the interior and exterior review. To assist in this effort, HOC staff will send an advance introduction letter to the homeowner alerting them that a field reviewer will be contacting them shortly to schedule an appointment. When access to the property is denied for the Field Appraisal Review, the contractor shall fully document attempts made to obtain access to the property and complete an exterior review.

C.5.4. Field Review of Appraisal: The contractor shall conduct an interior and exterior review whenever possible. Each interior/exterior review shall determine the accuracy and quality of the appraisal by ensuring that the factual information on the appraisal report is correctly reported and supported. If the contractor determines the factual information on the original appraisal report is not correctly reported, the contractor shall identify the incorrect information and provide the correct information supported by a copy of the contractor's data source for each review. The contractor shall inspect the subject's interior whenever possible. This inspection shall be completed in a way that allows the reporting of any readily observable defective conditions that do not meet HUD Minimum Property Standards (MPS) or Minimum Property Requirements (MPR). When adjustments affect value, the Field Reviewer is required to re-grid the comparables. C.5.8. Digital photographs are required of the contractor and shall include: the interior, as necessary to substantiate findings; exterior (photographs to show the front, rear, and sides) of the subject and all the appurtenant structures; missed repair conditions for the subject; and exterior (front only) of the comparable sales, including any new comparables the contractor used. The photographs shall be in focus with adequate lighting to permit the viewer to identify the property and the deficiency items. Third party photographs are unacceptable. If the rear of the property cannot be accessed for safety reasons, the contractor shall fully document the file. (d) *Inspection/Acceptance*. The Contractor shall tender for acceptance only those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. The Government must exercise its postacceptance rights—

(1) Within a reasonable period of time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

(f) *Termination for the Government's convenience.* The Government reserves the right to terminate this contract, or any part hereof, for its sole convenience. The Contractor shall not be required to comply with the cost accounting standards or contract cost principles for this purpose. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred that reasonably could have been avoided.

(g) *Termination for cause.* The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(h) *Warranty.* The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

(a) Definitions. As used in this clause—

“Central Contractor Registration (CCR) database” means the primary Government repository for Contractor information required for the conduct of business with the Government.

“Data Universal Numbering System (DUNS) number” means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

“Data Universal Numbering System +4 (DUNS+4) number” means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same concern.

“Registered in the CCR database” means that—

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and

(2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record “Active”. The Contractor will be required to provide consent for TIN validation to the Government as a part of the CCR registration process.

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through

final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The offeror should indicate that it is an offeror for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

(i) Company legal business.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company Physical Street Address, City, State, and ZIP Code.

(iv) Company Mailing Address, City, State and ZIP Code (if separate from physical).

(v) Company Telephone Number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current,

accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)

(1)

(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling 1-888-227-2423, or 269-961-5757.

SCHEDULE M – EVALUATION FACTORS FOR AWARD.

BASIS FOR AWARD.

The Government will award a single contract to the offeror whose quote is evaluated as “technically acceptable” with the lowest reasonable price. Source Selection shall be in accordance with applicable provisions of FAR Part 15.

EVALUATION APPROACH.

- a. The Government will evaluate each quote using a lowest price technically acceptable (LPTA) informal source selection approach.
- b. All quotes will be subjected to an initial screening by the Contracting Officer to determine whether the information is complete and provided in accordance with the instructions of the solicitation, and whether they warrant further consideration. Each offeror’s quote will be screened to ascertain whether the offeror has provided a written technical approach, and a price proposal in accordance with the requirements of the solicitation. Quotes that are considered incomplete after the initial screening process shall be rejected and offerors notified in writing they are no longer eligible for further consideration. A quote determined to be unreasonable, unrealistic, grossly inaccurate, and negligently incomplete in terms of cost and price will not be considered for award.
- c. In accordance with FAR 52.215-1, the Government reserves the right to make award without discussions based solely upon initial offers, and without providing the opportunity for offerors to submit revised proposals. Therefore, the offeror’s initial proposal should contain the offeror’s best terms from a technical and price standpoint.

EVALUATION CRITERIA.

The quotes will be evaluated based on two major evaluation factors: Technical and Price. The successful offeror’s quote must receive no less than a subjective rating of “Technically Acceptable” in the major non-cost factor area identified below in order to be considered for award. Once proposals are deemed “technically acceptable,” price becomes the deciding factor in the award decision. There will be no ranking or scoring of proposals. There will be no trade-offs between Price and Non-Price factors.

FACTORS FOR AWARD.

A. TECHNICAL EVALUATION (Prior Relevant Experience/ Past Performance/ Personnel Qualifications, and Quality Control Plan):

The Government’s evaluation team will evaluate quotes to determine technical acceptability (price excluded). The following factors will be used to evaluate the offeror’s technical acceptability:

1. Prior Relevant Experience. The offeror shall provide documented evidence of at least three (3) years of prior relevant experience similar with appraising 1-4 unit properties and FHA insured properties similar in nature to those required under this RFQ. The offeror must identify the predominant product or service provided, and the names, title, addresses, telephone numbers, fax numbers, and e-mail addresses (if available) of at least two people familiar with the offeror's experience.

2. Past Performance. The offeror shall provide documented evidence of past performance information regarding the three most recent contracts held by the contractor whether Government or private sector, similar to the work required under this RFQ. The information shall include the names, title, addresses, telephone numbers, fax numbers, and e-mail addresses (if available) of the customers for each contract including a brief description of the services performed and the total contract value.

3. Personnel Qualifications. The offeror must identify all Key Personnel and any persons proposed to conduct field review of appraisals under the resulting contract. The offeror must include in their quote documented proof that they are "*State Certified Residential Appraiser*" in the state where the appraisals will be performed and in addition to this requirement, the offeror must be on the FHA Approved Appraiser Roster at the time of contract award. **The only acceptable proof of certification is a copy of the state certification.**

4. Quality Control Plan. Offeror shall submit a quality control plan that at a minimum addresses how they will ensure Appraisal Review Reports (ARR) are 100% complete, accurate, error free, and returned within the time frames established in section C.5.2 of this statement of work.

B. PRICE EVALUATION: The Government will evaluate the offeror's total price using price analysis techniques identified in FAR 15.404-1. As total compensation for all on-site field review of appraisals assigned under the resulting contract HUD will pay the contractor a fixed-unit price per field review of appraisal. The unit price per field review of appraisals shall include all cost associated with performing all the tasks required under the statement of work (i.e., postage, shipping, and travel). Price will be assessed for completeness and reasonableness as follows:

1. Completeness. To be complete, the offeror must provide all pricing information for the established Contract Line Item set forth in Schedule B of the of the RFQ and supports the technical approach. The Government will assess the extent to which the price proposal complies with the content and format requirements set forth in the RFQ.

2. Price Reasonableness. The offeror's proposed pricing information will be evaluated to determine whether they are unreasonably high or low in relation to proposed pricing information received from other offerors. In the event adequate price competition is not received, the Government may use previous contract prices to determine price reasonableness. Comparison to the market value pricing for similar services being currently performed and the Independent Government Cost Estimate (IGCE) may also be used in determining reasonableness.

WORKLOAD ESTIMATES.

The workload estimates listed below reflect HUD's best estimates for the number of reviews required during the contract period. Offerors are cautioned that these quantities are provided strictly for the purpose of estimating contract prices and evaluating offers. HUD does not guarantee that these estimated quantities will be ordered under any purchase order resulting from this solicitation. The estimated maximum number of reviews is 30 per year.

EVALUATION RATING/ DEFINITION.

The following evaluation ratings/definitions will be used in the Government's evaluation of offers:

"Technically Acceptable" is defined as any evaluated proposal that meets the Government's minimum needs as defined in the statement of work, and the Government is confident that the offeror's proposed technical approach represents minimal or no risk in the performance of the services.

"Technically Unacceptable" is defined as any offeror's proposal that fails to provide and or include sufficient information in their proposal to determine that the acceptability criteria have been met for all of the requirements of the statement of work.
