## **1 M2M SYSTEM RELEASE 5.7 INTRODUCTION**

Mark-to-Market (M2M) Release 5.7 is a secured online HUD web application developed by the Department of Housing and Urban Development's (HUD) Office of Multifamily Housing Assistance Restructuring (OMHAR) to support OMHAR and its Participating Administrative Entities (PAE) in the collection and tracking of data relative to expiring Section 8 contracts within the Mark-to-Market Program.

### **1.1 M2M Program Goals and Objectives**

M2M Release 5.7 introduces modifications to the existing system modules and properties going through the M2M Program processes by facilitating data collection and report generation of the following:

- ◆ Critical dates tracking for M2M processes assigned to PAEs
- ◆ Deal restructure plans submission and closing data
- ◆ Reporting for PAE management
- ◆ Monitoring and auditing tools for OMHAR
- ◆ Other information relevant to the M2M Program

### **1.2 Business Functions**

Release 5.7 is designed to support M2M Program objectives by performing and centralizing the following functions:

- ◆ Tracking of assigned properties through the process or "pipeline" (tracking properties, assessment, due diligence, dates, etc.);
- ◆ Providing PAEs an online system to submit restructuring plan forms to OMHAR; and
- ◆ Reporting on the progress and performance of PAEs and their assigned properties.

Users of the M2M system include OMHAR (Headquarters (HQ) and regional office (RO) levels); OMHAR's PAEs, with whom OMHAR has executed agreements; and OMHAR's support contractors.

### **1.3 System Requirements**

Release 5.7 uses browser-based technology to provide access via the World Wide Web. To access the system, a user must have access to the Internet using

an Internet Service Provider (ISP) and advanced browser software. Netscape Navigator 3.x browser software or higher, or Internet Explorer 4.0 or higher is recommended.

As M2M Release 5.7 is a secure, web-based system that contains sensitive information, security registration is required prior to gaining access. Only after a user is successfully registered, added to the system, has received a User ID, assigned to a system group, and assigned property, can they access the system as a user. Further information on the M2M system's security may be found in **Section 2, M2M System Security**.

Working within a browser-based application, submission data will be transferred and processed through a modem. Higher speed modems and central processing units (CPUs) load data and graphics more quickly on a user's screen.

OMHAR requires the following hardware and software to access and operate M2M Release 5.7 and do business with OMHAR:

- ◆ Windows 95 or higher
- ◆ Netscape Navigator 3.x or higher, or Internet Explorer 4.0 or higher
- ◆ MS Word, MS Excel
- ◆ Adobe Acrobat Reader
- ◆ 486 processor or higher
- ◆ 16 megabyte memory or higher
- ◆ Hard Drive: 60MB Recommended;
- ◆ Video/Screen Resolution of 480x640 with 16 colors Display: SVGA;
- ◆ Internet Service Provider (ISP) connection with minimum modem speed of 28.8K bps (bits per second)

It is also expected that users of the M2M system have a basic understanding and proficiency in the use of computers, Windows, and web browsers.

## **1.4 Tips for Using the System (Before Getting Started)**

Functions that are standard throughout the M2M system are explained in more detail in the following subsections.

### **1.4.1 Case-Sensitivity Sign-On**

When signing onto the M2M system, it is necessary to note that user names and passwords are case-sensitive (i.e., whatever uppercase/lowercase convention is used to create User IDs and passwords, must be used to sign into the system).

### 1.4.2 Set Browser to Accept “Cookies”

Users must ensure that their browsers are set to “Accept All Cookies.” The following paragraphs provide instructions for Netscape and Internet Explorer users to set this feature:

Netscape 4.5 users: select “Edit” on Netscape’s tool bar; select “Preferences;” select “Advanced;” and in the Cookie section, click the radio button that reads “Accept All Cookies.”

Internet Explorer 4.0 users: select “View” on the top tool bar; select “Internet Options”, select “Advanced”, scroll down below “Security” to “Cookies” and ensure “Always Accept Cookies” is checked.

For all other browsers, go through the “Help” section to ensure the browser is set to accept all cookies.

### 1.4.3 Saving Changes

After adding or updating data on any screen, follow the directions on that screen to retain any changes made before proceeding to another screen. In browser-based applications, data will be lost when navigating to other pages if not saved.

If the data entered was accepted, a confirmation message will be displayed. For example, if data is added/updated on the Critical Dates Tracking screen and the user clicks the Save button, a confirmation message will appear (as seen below, in Figure 1-1, Confirmation Screen):

Figure 1-1, Confirmation Screen

### 1.4.4 Date Format

All dates must be entered in the **MM/DD/YYYY** format (as shown below in Figure 1-2, Date Format).

Enter all dates in **mm/dd/yyyy** format.  
Click the **Save** button at the bottom of this screen to save all updates/changes.

Figure 1-2, Date Format

### 1.4.5 Error Messages

If an error message is encountered anywhere in the M2M system when navigating from one screen to the next, follow the instructions presented in the M2M Information/Error screen. If that does not resolve the problem, click the **“Reload”** button on Netscape’s toolbar to reload the page (as shown below in Figure 1-3, Netscape Reload Button), or review the information last entered on the screen for accuracy.

Figure 1-3, Netscape Reload Button

If further technical assistance is needed, return to the Home screen and send an **e-mail** message through the link (located on the **M2M home screen**). Describe the question or problem in detail, and include a reply e-mail address (if different than the sender’s), and name and telephone number of the contact person. A reply will be sent promptly.

## **2 M2M SYSTEM SECURITY**

M2M is part of HUD's Secure Systems. The M2M database contains sensitive data concerning HUD's portfolios and program participants. To access and use the M2M system, a PAE representative must have a valid User ID and password. Detailed instructions for registering to use the M2M system were provided by OMHAR HQ representatives, when the business agreement was executed.

There are two types of PAE users that are referenced in this document: PAE Coordinator and PAE User. Each user type will be further defined in **Section 2.1, PAE Coordinator** and **Section 2.2, PAE User**, respectively.

### **2.1 PAE Coordinator**

Each PAE organization must assign one or more of its representatives to serve as a "Coordinator" (property assignor) to control which users have access to the M2M system and which of the PAE's assigned properties they may access. Each PAE Coordinator will assign users, as required, to perform the work contracted with OMHAR.

♪ **Note:** To avoid potential conflicts of interest, the M2M coordinator **MAY NOT** be a coordinator for another business entity or property owner.

The PAE Coordinator is responsible for assigning properties to its PAE Users in Secured Systems, as needed. The Secured Systems web site address is: [https://hudapps.hud.gov/HUD\\_systems](https://hudapps.hud.gov/HUD_systems).

### **2.2 PAE User**

A PAE User (User), once assigned rights to properties (as assigned by the PAE Coordinator) can perform the required functions to enter data, review status and run reports. A User has no rights to assign User access to the M2M system. A User depends on its PAE Coordinator to provide access to the system and assign rights to access the M2M system and the assigned properties.

After PAE Users have registered to use the M2M system, User sign-on IDs will be mailed to the director of the PAE agency at its HUD-registered address. User IDs should be received within two weeks. If the IDs are not received, have your Coordinator send an e-mail detailing which User IDs were not received and the name of your PAE organization. The e-mail address is: [m2minfo@hud.gov](mailto:m2minfo@hud.gov).

If Users need additional security-related assistance, send a detailed e-mail and a reply will be returned.

### **3 ACCESS TO THE M2M LOGIN SCREEN**

The M2M home screen may be accessed by registered system users via the Internet. Each User must have their own valid User ID and password. The Internet URL is: [https://hudapps.hud.gov/HUD\\_Systems/](https://hudapps.hud.gov/HUD_Systems/).

♪ **Note:** M2M Release 5.7 utilizes a secured connection within HUD.

#### **3.1 Login Procedures**

Each User is prompted with a request for their User ID and password. Reminder: both the User ID and password are case-sensitive. Click the underlined Mark-to-Market (M2M) link on the list of HUD System Projects.

Any User that is unsuccessful in signing onto the system after several attempts may need to have their password reset. Send a password reset request to the System Administrator via e-mail at: [m2minfo@hud.gov](mailto:m2minfo@hud.gov). This is not an immediate process, but will be addressed as soon as possible. Remember to include contact information (name, User ID, e-mail address (if different than sender's) and a brief explanation of the problem.

#### **3.2 Log Off Procedure**

Because M2M Release 5.7 contains sensitive financial data, Users are requested to use the Log Off button  feature when exiting the system or when leaving your computer running for an extended period of time. If the log off button is not used, another User may be able to reopen your web browser and access system pages.

#### **3.3 Time Out Feature**

M2M Release 5.7 has a “time-out” feature. After a period of 2 hours of inactivity, the User will be logged off the system and must go back to the Secured Systems log-in page to sign-in again.

## 4 M2M SYSTEM HOME SCREEN

Upon authentication from the server, the following home screen appears (Figure 4-1, M2M Home Screen):

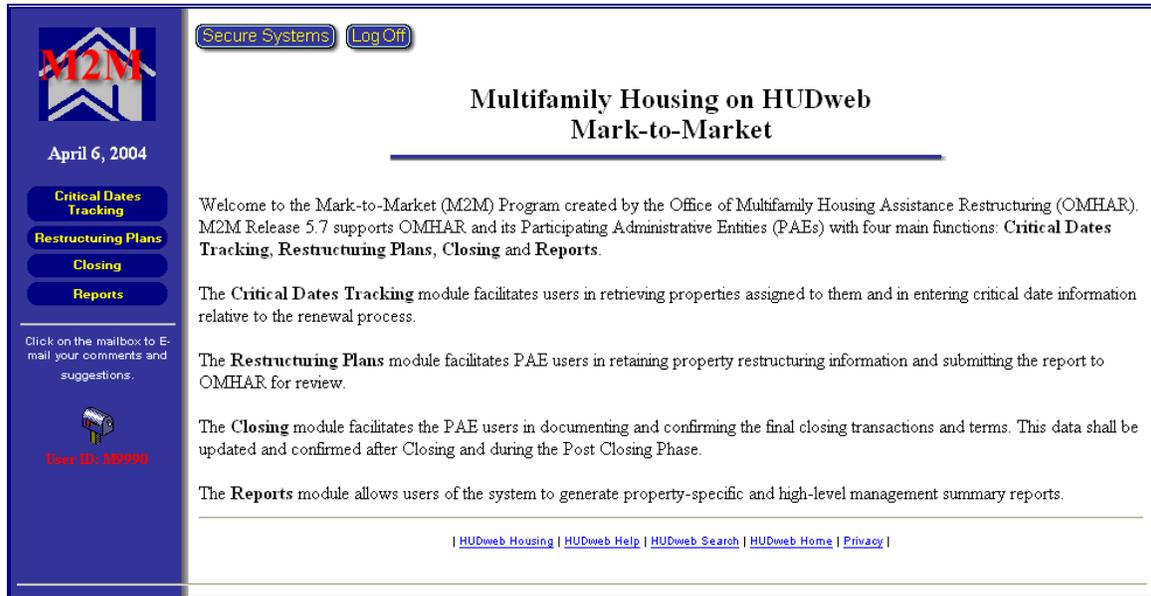

Figure 4-1, M2M Home Screen

### 4.1 Critical Dates Tracking Module Button

The **Critical Dates Tracking** button provides access to the M2M properties assigned to a PAE User. Within this module, PAEs and OMHAR Users enter critical dates data in accordance with the predetermined M2M Program timeline for **Mortgage Restructuring**, **Rent Reduction Only without Mortgage Restructuring (Rent Reduction Only)**, **Rent Comparability Review (Comp Review)** and **Mark-Up-To-Market Comp Review** properties.

### 4.2 Restructuring Plans Module Button

The **Restructuring Plans** button provides Users with access to restructuring plan forms for M2M Program properties. Online forms are provided for properties going through the **Mortgage Restructuring** (Form 5.2 of the Operating Procedures Guide) and the **Rent Reduction Only** (Form 10.2) M2M Program options and may be submitted via the M2M system to OMHAR.

### **4.3 Closing Module Button**

The **Closing** button gives Users a facility for tracking and updating select restructuring plan information and to retain the actual closing figures.

### **4.4 Reports Module Button**

The **Reports** button gives Users access to the **Property Status** and **Management Tracking Reports** generated from the data entered in the Critical Dates Tracking module.

### **4.5 E-Mail Link**

The M2M system provides an **E-Mail** link on the home screen for Users of the system to send any questions or comments regarding the M2M system and problems or suggestions via Netscape's Messenger's e-mail format. Please be sure to include your name, a detailed narrative (if sending a question or if there is a problem), return e-mail address (if different from the sending address), contact name, and telephone number (including area code) to receive a timely reply.

♪ **Note:** Use Netscape's **Back** button to return to the M2M system after sending your e-mail message.

### **4.6 Other HUDweb sites**

Other useful HUDweb sites (such as HUD's home screen) are listed at the bottom of the screen. Click on an underlined link to visit a HUDweb site.

♪ **Note:** You will be exiting the M2M system if you click one of the external HUD links. Use Netscape's **Back** button on the toolbar to return to the M2M system.

## **5 GENERAL INFORMATION ABOUT THE M2M PROCESS AND DATA ENTRY**

M2M Release 5.7 allows Users to input and record dates critical to the M2M Program process, to input and submit restructuring plan forms data, and to perform other functions pertinent to the M2M Program. Property and management reports summarize the status and progress for M2M Program properties in order to assist in the management of assigned portfolios.

A data entry screen is included within the **Critical Dates Tracking** module to record critical dates for each property in the M2M system. Each of these data entry screens were designed to reflect the actual dates within the execution of a M2M Program process. A M2M renewal option is one of three types:

1. **Mortgage Restructuring**—Mortgage restructuring with rent reduction
2. **Rent Reduction Only**—Rent reduction without debt restructuring (also referred to as OMHAR Lite)
3. **Comp Review**—An owner declares its rents are below market and HUD's hub office has requested a third party rent comparability review to determine market rents
4. **MU2M Comp Review**—Mark-Up-To-Market rent comparability review

It is imperative that attention to detail be paid the when entering data in the **Critical Dates Tracking** and the **Restructuring Plans** modules.

♪ **Note:** **Inaccurate or incomplete data may misrepresent the progress (or lack thereof) of a property and associated contract throughout the M2M program.**

If there are missing dates in, or prior to, the **Assignment/Assessment Phase** (e.g., **Field Office Refers to OMHAR**) please contact your OMHAR regional office to have them enter or update these data fields.

Attention to detail must also be paid when entering, saving, and submitting Restructuring Plans Forms data. Data in certain fields in the **Restructuring Plans** module are **read-only** from HUD's Real Estate Management System (REMS) or are **system-calculated**. PAE Users will have an opportunity to enter any necessary corrections or fill-in missing data in **Data Entry/ PAE Corrections** fields next to the read-only fields. Users **will not** be able to update read-only data. Again, comment boxes are available to record any pertinent information related.

Additional detailed information concerning the **Critical Dates Tracking** and **Restructuring Plans** modules may be found in **Section 6, Critical Dates Tracking Module** and in **Section 7, Restructuring Plans Module**, respectively.

## 6 CRITICAL DATES TRACKING MODULE

The Critical Dates Tracking module is accessed by clicking the **Critical Dates Tracking** button on M2M's home screen.

### 6.1 Assigned Properties Screen

The **Assigned Properties** screen (Figure 6-2, Assigned Properties) will be returned once the search is performed (based on the criteria on the Select Search page).

The screenshot shows a web interface with navigation buttons (Home, Back, Log Off) at the top left. The main heading is "Assigned Properties". Below the heading, a message states: "The following 2 out of 2 properties met your **Active, Mortgage Restructuring** search criteria." A note below says: "To view/update a contract's critical dates, click its underlined **Contract Number**." Below this is a table with the following data:

Status	Property Name	Sec & Contract Number	Sec & Contract Renewal Type	Expiration Date	Property City	State
A	MT VERNON PLAZA II	<u><a href="#">OH160001001</a></u>	Mortgage Restructuring	09/13/1999	COLUMBUS	OH

At the bottom of the page, there are links: | [HUDweb Housing](#) | [HUDweb Help](#) | [HUDweb Search](#) | [HUDweb Home](#) | [Privacy](#) |

Figure 6-2, Assigned Properties

Each PAE User will see a list of all of the properties assigned to them (based on the criteria used to retrieve property). If a PAE User has been assigned a property which is not included in the search results (again, depending upon the search criteria), **the PAE User should check with its PAE Coordinator** to ensure the assignment has been made in Secured Systems. If the Coordinator does not have access to the property to assign it, the Coordinator should notify its OMHAR regional office or OMHAR HQ of the discrepancy to obtain a resolution.

## 6.2 Contract Number Link

The **Assigned Properties** screen displays all assigned properties and associated contracts. It also contains the highlighted **contract number** [FL29M000113](#) as a link to access the **Critical Dates Tracking** module.

Select and click the underlined contract link to retrieve a Critical Dates Tracking screen to enter or view the critical dates related to that property. The contract highlighted will be the first expiring contract for the property. The resulting screen is the **Critical Dates Tracking** screen (discussed in the next section).

## 6.3 Critical Dates Tracking Screen

After a contract link is selected, a Critical Dates Tracking screen is retrieved (based on the property's M2M renewal option type). Figure 6-3-1, Mortgage

Page 16

The **Critical Dates Tracking** screens vary depending upon the M2M renewal type.

### **6.3.1 Critical Dates Data Entry**

All **Critical Date** data entry boxes applicable to the PAE or OMHAR User may only be entered or updated by the applicable user type. For example, PAE Users have the ability to enter or update PAE-related date fields, such as **PAE's Appraisal Complete**. OMHAR Users only have the ability to **read** the data the PAE entered. The same holds true in reverse for the PAE User. i.e., PAEs may only **read** OMHAR fields, but not update or edit them.

Comments relative to tasks/dates may be recorded in the M2M system and are encouraged. Click on the "C" button next to a critical date to enter comments (in a pop-up box) related to a specific date or phase. Generally, only the User allowed to enter that date field may update the associated comment boxes; however, comments may be viewed by all. Figure 6-4, Comment Fields, below is an excerpt of a **Mortgage Restructuring Critical Dates Tracking** screen with highlighted comment boxes.

The screenshot shows a section titled "Phase: Data Collection/Due Diligence" with a yellow background. Below it is a "Data Collection:" section containing a list of tasks, each with a date input field and a "C\*" button. A red arrow points to the "C\*" button for the first task.

Task	Date	Action

Tenant Meeting - #1:	05/05/2000	C*
Owner Submits Data Collection Report:	06/03/2000	C*

Figure 6-4, Comment Fields

On the **Mortgage Restructuring Critical Dates Tracking** screen (only) there is a yellow timeline that shows at a glance, the guidelines for completing phases and tasks (in accordance to the timeframes in the M2M Operating Procedures Guide).

All dates must be entered in the **MM/DD/YYYY** format. The **Save** button must be selected once the updates or changes are verified.

### **6.3.2 Critical Dates Reporting**

Data entered in the Critical Dates Tracking module is used to generate the following reports:

- ◆ **Assigned Active Property Report**
- ◆ **Submitted Plans Awaiting Decision**

- ◆ Property Status Report
- ◆ Overview of the Portfolio Status Report
- ◆ Partial Assignments Report
- ◆ Rent Comparability Review Progress Report
- ◆ Rent Reduction Only Progress Report
- ◆ Mortgage Restructuring Progress Report

♪ **Note:** Careful attention to detail must be paid when entering dates on the Critical Dates Tracking screen. Updates are made to the system's database once the User saves the changes. It is strongly suggested you review the Critical Dates Tracking data for accuracy before **and** after selecting the Save button.

A message is displayed confirming changes were saved if the data was entered in the correct format.

There are additional comment buttons at the bottom of the screen for use by the PAE and OMHAR Users, respectively.

If an action other than a closing occurred on a Mortgage Restructuring contract, there is a date and comment box available at the bottom of the screen. There are also radio button options below this date that should be selected.

## 7 RESTRUCTURING PLANS MODULE

The Restructuring Plans module is accessed by selecting the **Restructuring Plans** button from M2M's home screen. There are also links at the bottom of the **Mortgage Restructuring** and **Rent Reduction Only Critical Dates Tracking** screens to the associated property's restructuring plan form. These restructuring plan forms are only one part of the final Restructuring Plan that must be submitted to OMHAR.

Within this module are data entry screens on which PAE Users may enter data to calculate and populate the restructuring plan forms that must be electronically submitted (via M2M) to OMHAR for review and approval.

Each type of restructuring plan form (**Form 5.2** and **Form 10.2**) has its own menu selections, specific to the data that must be collected to generate a form.

Additional detail may be found in **Section 7.2 Mortgage Restructuring Plan Forms** and **Section 7.3 Rent Reduction Only Plan Forms**, respectively. Figure 7-1, Restructuring Plans Screen, provides an example of the screen that will be retrieved when the Restructuring Plans module button is clicked. The button may be found on M2M's home page and on the menu bar within other modules.

## How to Upload Extract and Model to M2M System

The M2M system has been upgraded to allow for PAEs to

1. upload data from the M2M Excel Underwriting Model v4 automatically, (without having to perform data entry into the M2M Form 5.2). This new feature only works with the **version 4** of the model. Also,
2. the M2M Excel Underwriting model being submitted for review and approval must be uploaded and saved on this centralized, protected server.

### Steps to Perform the Two Tasks:

To prepare the Model for uploading into the M2M system Form 5.2 online:

1. Complete the data entry in the Underwriting Model v4 and save as the name - REMS Property Id.xls (e.g., 800000000.xls). It is very important to note the location where the model is saved and the REMS #.
2. Go to the last Worksheet Tab in the model named: "Create MIS Upload Worksheet."
3. Click on the Button "Create Extract File."
4. An "extract" file is created automatically and saved in the SAME folder or location as the current Model.
5. The extract file is automatically named the REMS property id.txt (e.g., 800000000.txt).
6. Print a copy of the worksheet called "Form 5.2 Data" – to use in the validation of the uploaded data.

To Upload the Extracted Data in order to populate the Form 5.2 online:

1. Log into the M2M system and go to the Restructuring Plans Module.
2. Search for the property associated with the model to be uploaded.
3. Select the property.
4. From the Restructuring Plans screen, select the option: Upload extracted data into the online Form 5.2
5. Either type in the path or location of the extract file (txt file) or click on Browse to find it on the workstation.(It will be in the same folder as the model).
6. Click on the button "Upload the File."
  - If the filename or type of file is incorrect there will be an error displayed.
  - If the filename matches the REMS property id and is the correct file, the data will be extracted and populate the Form 5.2 automatically.
7. First, a screen with data will appear. The PAE should review the data by comparing the printout from the Model "Form 5.2 Data" worksheet.
8. Click on Save if the data is valid.
9. If there were errors in the data and the PAE doesn't want to save the data into the system, cancel by clicking the Back button.
10. If there were errors, review the model and make corrections in the model. Save the corrections and start over by creating a new extract file as described above.

To upload and save a copy of the M2M Excel Underwriting Model on the centralized server:

1. Go to the Restructuring Plans Module in M2M system.
2. Select the property.
3. From the Restructuring Plans screen select the option: Upload a copy of the Model for centralized storage
4. Either type in the path or location of the Model (excel) file or click on Browse to find it on the workstation.
5. Click on the Button "Upload the File."
6. An error will display if there are problems, otherwise, click on Continue.
7. The model is now saved on the server.
8. If the PAE is ready to submit the restructuring plan to OHMAR, click on Submit after uploading the model and extracted data to the M2M system.

For the PAE or OMHAR to view or download to a workstation:

1. Go to the Restructuring plans screen.
2. Select the Property.
3. Select the option: Open or Download Model
4. If there is an error, it is most likely that the browser is not set up to view Excel and "xls" needs to be added to the browser's list of applications.
5. Otherwise, choose "save" or "open" – depending on your need.

♪ **Note:** Restructuring Plan Forms data may be entered and edited as often as necessary up until the plan is submitted for review and approval. PAE Users may view, but not update plan data after it has been submitted to OMHAR. Returned for Revision restructuring plan forms will be “unlocked” and available for updating by PAE Users. Once a plan form has been approved by OMHAR, it is considered a Final Restructuring Plan and no data may be changed by PAE Users. An e-mail will be sent to the PAE by OMHAR HQ informing them of its decision on the submitted restructuring plan form.

### 8.2.1.1 Instructions for uploading the Model v4 and the Model data (Closing)

## How to Upload Extract and Model to M2M System

The M2M system has been upgraded to allow for PAEs to

1. upload data from the M2M Excel Underwriting Model v4 automatically into the Closing, (without having to perform data entry into the Closing Module). This new feature only works with the **version 4** of the model. Also,
2. the final post-closing M2M Excel Underwriting model must be uploaded and saved on this centralized, protected server.

There are several steps outlined below to perform these two tasks:

To prepare the Model for uploading into the Closing Module online:

1. Complete the data entry in the Underwriting Model v4 and save as the name - REMS Property Id.xls (e.g., 800000000.xls). It is very important to note the location where the model is saved and the REMS #.
2. Go to the last Worksheet Tab in the model named: "Create MIS Upload Worksheet."
3. Click on the Button "Create Extract File."
4. An "extract" file is created automatically and saved in the SAME folder or location as the current Model.
5. The extract file is automatically named the REMS property id.txt (e.g., 800000000.txt).
6. Print a copy of the worksheets called "Form 5.2 Data" and "Closing and Post Closing Data" – to use in the validation of the uploaded data.

To Upload the Extracted Data in order to populate the Closing Module online:

1. Log into the M2M system and go to the Closing Module.
2. Search for the property associated with the model to be uploaded.
3. Select the property.
4. From the Mortgage Restructuring Closing screen, select the option: Upload extracted data into the online Closing Module
5. Either type in the path or location of the extract file (txt file) or click on Browse to find it on the workstation. (It will be in the same folder as the model).
6. Click on the button "Upload the File."
  - If the filename or type of file is incorrect there will be an error displayed.
  - If the filename matches the REMS property id and is the correct file, the data will be extracted and populate the Closing Module automatically.
7. First, a screen with data will appear. The PAE should review the data by comparing the printout from the Model "Form 5.2 Data" and the "Closing and Post Closing Data" worksheets.
8. Click on Save if the data is valid.
9. Click on Continue to make any addition updates to the Closing Module or click on Menu to return to the Mortgage Restructuring Closing screen.
10. If there were errors in the data and the PAE doesn't want to save the data into the system, cancel by clicking the Back button.
11. If there were errors, review the model and make corrections in the model. Save the corrections and start over by creating a new extract file as described above.

To upload and save a copy of the M2M Excel Underwriting Model on the centralized server from the Closing Module:

1. Go to the Closing Module in M2M system.
2. Select the property.
3. From the Mortgage Restructuring Closing screen select the option: Upload a copy of the Model for centralized storage
4. Either type in the path or location of the Model (excel) file or click on Browse to find it on the workstation.
5. Click on the Button "Upload the File."
6. An error will display if there are problems, otherwise, click on Continue.
7. The model is now saved on the server.

For the PAE or OMHAR to view or download to a workstation:

1. Go to the Closing Module screen.
2. Select the Property.
3. From the Mortgage Restructuring Closing screen select the option: Open or Download Model
4. If there is an error, it is most likely that the browser is not set up to view Excel and "xls" needs to be added to the browser's list of applications.
5. Otherwise, choose "save" or "open" – depending on your need.

## **9 REPORTS MODULE**

The **Reports** module is accessed by selecting the **Reports** button from M2M's home screen. The reports within the module are a summarization of the data entered in the **Critical Dates Tracking** screens and are management tracking tools to view the overall status of where the assigned properties are in the restructuring process. In addition, there are internal management level reports to assist OMHAR and its business partners in the management of its M2M Program assets.

Generally, only **active** properties in the M2M Program that are assigned to and accepted by a PAE appear in M2M's Reports, though some reports include **completed** properties and allow the User to choose what to be selected. In addition, there is specific criteria for each report, e.g., for the **Property Status Report**, only properties that have at least **one critical date** entered into the system are included on the report. The **Property and Report Selection** page is shown below as Figure 9-1, Property and Report Selection Screen:

## 10 GLOSSARY AND ACRONYMS

### 10.1 Glossary

The following are three terms used in the M2M Release 5.5.1. These terms are the three possible options that the PAE is contracted to perform on a property for OMHAR:

**Comp Review (Rent Comparability Review)**—One of the three scopes of work possible for assets that are sent to OMHAR by the HUD Program Centers or Regional Offices. The owner has determined that current contract rents on the project are below market and submits a request to renew the Section 8 contract at the current rent (Option 1 on the 98-34 form). The HUD Program Center or Regional Office may refer this property for a rent comparability review to OMHAR to have a third party market rent determination. The PAE conducts the comparability review to confirm whether current rents are actually below market.

**Mortgage Restructuring**—One of the three scopes of work possible for assets that are sent to OMHAR by the HUD Program Centers or Regional Offices. The owner has determined that contract rents are above market and that the reduction in rents will necessitate restructuring of the project debt. The owner, therefore, requests renewal of the Section 8 contract at market rates, and requests a mortgage restructuring (Option 2 on the 98-34 form). The PAE develops a Restructuring Plan for the assigned property including a reduction in contract rents and restructuring of the mortgage. This level of scope is also referred to as an OMHAR-Full.

**Rent Reduction Only (Rent Reduction Only without Debt Restructuring)**—One of the three scopes of work possible for assets that are sent to OMHAR by the HUD Program Centers or Regional Offices. In this scope, the owner requests renewal of the Section 8 contract with rents reduced to market. However, the owner does not request a mortgage restructuring (Option 1 on the 98-34 form). The PAE develops a Subsidy Restructuring Recommendation, which it submits to OMHAR. This level of scope is also referred to as an OMHAR-Lite.
