

Wisconsin Healthy Homes Initiative
Home Inspection Questionnaire—Bath Room

What time is it right now? _____ (They will have to enter the time)

What is the subject code? _____ (they will have to enter this in)

What is your interviewer code? _____ (they will have to enter this in)

First, you will visually inspect the room for lead hazards by looking for deteriorated paint. If necessary, you will proceed with the injury hazards and asthma hazards. You will be asked to detail your observations for the windows in the next block of questions. (put this on a separate screen)

L1a. Indicate the location of deteriorated paint on SIDE A (front side of building) of the bathroom. (choose all that apply)

Wall

Ceiling

Floor

Doors

Windows

Trim

Closets

No deteriorated paint visible (if endorsed, can we make this selection clear out any others?)

L1b. Indicate the location of deteriorated paint on SIDE B (left side of building) of the bathroom. (choose all that apply)

Walls

Ceiling

Floor

Doors

Windows

Trim

Closets

No deteriorated paint visible (if endorsed, can we make this selection clear out any others?)

L1c. Indicate the location of deteriorated paint on SIDE C (back side of building) of the bathroom. (choose all that apply)

Walls

Ceiling

Floor

Doors

Windows

Trim

Closets

No deteriorated paint visible (if endorsed, can we make this selection clear out any others?)

L1d. Indicate the location of deteriorated paint on SIDE D (right side of building) of the bathroom. (choose all that apply)

Walls

Ceiling

Floor

Doors

Windows

Trim

Closets

No deteriorated paint visible (if endorsed, can we make this selection clear out any others?)

W1. Are there windows in the bathroom?

Yes (if endorsed then have all the questions prefixed with a 'W' available to the interviewer)

No (if this is endorsed then skip all the questions prefixed with a 'W')

W1a. How many windows in the enrolled bathroom?

1 (if endorsed, ultimately skip W1f thru j then continue)

2 (if endorsed, ultimately skip WL1g thru j then continue)

3 (if endorsed, ultimately skip WL1i, and j then continue)

4 (if endorsed, will have to do questions WL1c – WL1j then continue)

W1b. What style of window is in the bathroom? (check all that apply)

Single hung

Double hung

Slider

Casement

Awning style

W1c. Does any window in the bathroom contain deteriorated paint?

Yes (if endorsed, go to the next question)

No (if endorsed, skip all W prefixed questions and continue with the room survey)

W1d. Indicate the specific location(s) on window #1 that has deteriorated paint
(choose all that apply)

Window sashes

Window jams

Window casings

Interior window sill

Exterior window sill

Window trough

Exterior of window sash

W1e. Is there another window in the same room that has deteriorated paint?

Yes (if endorsed then go to the next question)

No (if endorsed then skip to the rest of the W questions)

W1f. Indicate the specific location(s) on window #2 that has deteriorated paint
(choose all that apply)

Window sashes

Window jams

Window casings

Interior window sill

Exterior window sill

Window trough

Exterior of window sash

W1g. Is there another window in the same room that has deteriorated paint?

Yes (if this is endorsed than go to the next question)

No (if this is answered skip the rest of the W questions)

W1h. Indicate the specific location(s) on window #3 that has deteriorated paint

(choose all that apply)

Window sashes

Window jams

Window casings

Interior window sill

Exterior window sill

Window trough

Exterior of window sash

W1i. Is there another window in the same room that has deteriorated paint?

Yes (if this is endorsed than go to the next question)

No (if this is answered skip the rest of the W questions)

W1j. Indicate the specific location(s) on window #4 that has deteriorated paint

(choose all that apply)

Window sashes

Window jams

Window casings

Interior window sill

Exterior window sill

Window trough

Exterior of window sash

Wisconsin Healthy Homes Initiative
Home Inspection Questionnaire—Bath Room

2. Is the Child enrolled in the Home Hazard component of the study?

Yes (if endorsed, then ask all questions prefixed with a "I" and continue with the inspection)

No (if endorsed, then skip all "I" prefixed questions and continue with the rest of the inspection)

I2a. Are medicines or vitamins present in the bathroom?

Yes (if endorsed, ask questions I2b thru I2e then continue)

No (if endorsed, skip questions I2b thru I2e then continue)

I2b. Are medicines and vitamins stored out of the child's reach or in a locked cabinet?

Yes

No

I2c. Do all medicine and vitamin containers have child-resistant caps?

Yes

No

I2d. Are medicines and vitamins stored in the original containers?

Yes

No

I2e. Are there any expired medications?

Yes

No

I2f. Do low cabinets and drawers have safety latches?

Yes

No

I2g. Are sharp items like razors stored out of the child's reach or in locked cabinets?

Yes

No

I2h. Are shampoos and cosmetics stored out of the child's reach?

Yes

No

I2i. Are there electrical appliances in the bathroom?

Yes (if endorsed, ask questions I2j and I2k then continue)

No (if endorsed, skip questions I2j and I2k then continue)

I2j. Are they unplugged?

Yes

No

I2k. Are they stored away from the bathtub, sink, and toilet?

Yes

No

Wisconsin Healthy Homes Initiative
Home Inspection Questionnaire—Bath Room

I2l. Are there any unused electrical outlets?

- Yes
- No

I2m. Are there plug protectors or outlet covers on unused outlets?

- Yes
- No
- No unused outlets

I2n. Is there a ground fault circuit interrupter installed?

- Yes
- No

I2o. Is there an arcing fault interrupter installed?

- Yes
- No

I2p. Is there a thermometer in the house (candy or meat thermometer) that can be used to test hot tap water temperature? (ask parent if you can see it)

- Yes
- No

I2q. Does the bottom of the bathtub have a non-skid surface or a bath mat?

- Yes
- No

I2r. Is there protective padding on the bathtub faucet?

- Yes
- No

I2s. Is there an anti-scald device installed in the tub faucet and showerhead?

- Yes
- No

I2t. Are all rugs secured to the floor with non-skid backing?

- Yes
- No

I2u. Can the bathroom door be opened from the outside if it is locked on the inside?

- Yes
- No

I2v. Are there children in the home two years old or under?

- Yes
- No

I2w. Is there a safety lock on the toilet seat?

- Yes
- No

I2x. Is there a doorknob cover on the bathroom door?

- Yes
- No

I2y. Are there any window blind cords present?

- Yes (if endorsed, ask questions I2z, I2za, and I2zb then continue)
- No (if endorsed, skip questions I2z, I2za, and I2zb then continue)

I2z. Do window blind cords have a tie down device?

- Yes
- No

I2za. Do window blind cords have breakaway tassels?

- Yes
- No

I2zb. Do window blind cords have two tassels?

- Yes
- No

I2aa. Is there a space heater present?

- Yes (if endorsed, ask question I2ab then continue)
- No (if endorsed, skip question I2ab then continue)

I2ab. Is there a barrier around it?

- Yes
- No

3. Is the Child enrolled in the environmental asthma component of the study?

- Yes (if endorsed, ask all questions that are prefixed with an "A" then continue)
- No (if endorsed, skip all questions that are prefixed with an "A" then continue)

A3a. What type of flooring is in the bathroom?

- Wall-to-wall carpeting (if endorsed, ask question A3b then continue)
- Hardwood floor no area rugs (if endorsed, skip question A3b then continue)
- Hardwood floor with area rugs (if endorsed, ask question A3b then continue)
- Ceramic tile floor (if endorsed, skip question A3b then continue)
- Vinyl flooring (if endorsed, skip question A3b then continue)

A3b. If wall-to-wall carpeting, would you consider the carpet pile to be (choose one)

- Low
- Medium
- High

Wisconsin Healthy Homes Initiative
Home Inspection Questionnaire—Bath Room

A3h. Is there visible mold growth in the bathroom?

Yes (if endorsed, ask question A3i then continue)

No (if endorsed, skip question A3i then continue)

A3i. Indicate the location (choose all that apply)

Corner of outside walls

Around windows

Corner of floor and walls

Corner of ceiling and outside walls

Corner of ceiling and inside walls

Where bathtub meets walls

Corner of bathtub

A3j. Indicate location of water damage, if any in the bathroom (choose all that apply)

Walls

Ceiling

Floor

Closet

No water damage visible

A3n. Are there any visible signs of food or crumbs on the floor?

Yes

No

A3o. Are there visible signs of cockroaches (cockroach parts, feces, live cockroaches)?

Yes (if endorsed, ask question A3s then continue)

No (if endorsed, skip question A3s then continue)

A3p. Indicate locations where evidence of cockroaches seen (choose all that apply)

Underneath the sink or inside cabinets

On floor

Behind toilet

On sink counter-top

On toilet

In bathtub /shower

A3q. What is the primary source of HEAT for the bathroom?

Forced air ducts

Water radiators

Electric radiators

Space heater (gas, electric)

No source of heat visible

A3r. What is the source of COOLING for the bathroom?

Central air conditioning (ducts present)

Window air conditioner in Living Room

Electric fan

None, ceiling fan

None present at all

Wisconsin Healthy Homes Initiative
Home Inspection Questionnaire—Bath Room

A3ss. Is there a window in the bathroom?

Yes (if endorsed, ask questions A3s, A3t, and A3u then continue)

No (if endorsed, skip questions A3s, A3t, and A3u then continue)

A3s. Indicate the type of window covering in the bathroom?

Curtains

Aluminum or vinyl horizontal blinds

Aluminum or vinyl vertical blinds

Fabric window blinds

No window covering

A3t. Is the bathroom window currently open?

Yes

No

A3u. How often is the bathroom window open?

Every day when it is not cold, raining, or snowing

Only when the sun is out

Only when bath/ shower is taken

Never

Once in a while

A3v. Is there an operable exhaust fan in the bathroom?

Yes

No

No exhaust fan installed

4. What time is it right now? _____ (they will enter this in)

Remember to conduct your vacuum dust sampling before you leave the home

(make this the last screen they see if enrolled in the asthma study component, yes to the question)
