DECONCENTRATION POLICY

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.
2. Actions: To accomplish the deconcentration goals, the

housing authority will take the following actions:

- (1) At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
- (2) To accomplish the goals of:
 - (3) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - (4) Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

At this time the most serious drug problem in Guntersville public housing appears to be cocaine. We have joined with the Guntersville Police Department and the Marshall County Sheriff's Department by contract to try to gain control of the influx of drugs being brought into public housing. We have a contract with Mountain Lakes Behavioral Health Care to operate the Learning Center in Crain Court. Other agencies are also working with us in areas of prevention. The prevention programs have strengthened the anti drug resistance of our youth and adults as well. By having the Mountain Lakes Behavioral Health Care on site we are better able to serve our community.
