### DECONCENTRATION POLICY

It is the Housing Authority of Red Bay's policy to deconcentration of poverty and encourage income mixing by bring higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority of Red Bay will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.
