### **DECONCENTRATION POLICY**

#### **PUBLIC HOUSING:**

In an ongoing effort for The Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been adopted by the Housing Authority of the City of Cullman (HA) in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

**INCOME MIX TARGETING:** To meet the requirements of the Act, and subsequent HUD regulations, at least 40 percent of families admitted to public housing by the HA must have incomes that do not exceed 30% of the area median. If 40% or more of the housing authority units are occupied by families whose incomes do not exceed 30% of the area median income, this requirement shall be considered as being met.

Additionally, to meet this goal, the housing authority will use the provisions of fungibility to the extent that the housing authority has provided more than seventy-five percent of newly available vouchers in its Section 8 program, including those resulting from turnover, to very poor families. The number of fungible housing credits used to drop the annual requirement for housing very poor families below 40 percent of the newly available units in public housing is limited to the lowest of the following:

1. The number of units equivalent to ten (10) percent of the number of newly available vouchers.
2. The number of public housing units that (i) are in public housing projects located in census tracts having a poverty rate of 30% or more, and (ii) are made available for occupancy by, and actually occupied in that year by, families other than very poor families, or
3. The number of units that cause the housing authority's overall requirement for housing very poor families to drop to 30% of its newly available units.

**PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES:** The HA will not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain projects or certain buildings. The Housing Authority of the City of Cullman will review the income and occupancy characteristics of each project to ensure that a low-income concentration does not occur.

**DECONCENTRATION:** The Housing Authority of the City of Cullman shall make every effort to deconcentrate families of certain income characteristics within the HA complexes. To achieve this, the Housing Authority of the City of Cullman may offer incentives for eligible

families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the agency may not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list. Selection will be made based on a combination of the local preferences and an income target mix. Any eligible family who qualifies as a higher income family may accept a dwelling unit assignment and be placed randomly into a vacant housing unit.

The Housing Authority of the City of Cullman will track the income mix within each project in an effort to avoid a concentration of higher or lower income families in any one project.

Thirty (30) percent of the Median Income per number in a household is as follows:

Number of Persons	1	2	3	4	5	6	7	8
Amount	7350	8400	9500	10550	11350	12200	13050	13900

The Housing Authority of the City of Cullman has 326 units of Low Rent housing available. Per the QHWRA of 1998, forty (40) percent of the leased units will be housed with families with incomes 30% or less of the median income, or 130 units. A breakdown of units leased on May 8, 2000 showed that 174 units, 59% of the families residing in our units have incomes at, or below, thirty (30) percent of median income, which surpasses the QHWRA of 1998 requirements by 19 percent.

The percentage of families leased with incomes under thirty (30) percent of median income per project are:

AL 52-1	62%
AL 52-2	61%
AL 52-3	57%
AL 52-4	58%

Each project has greater than forty (40) percent of the families with thirty (30) percent or less of the median income.

Monitoring will be conducted to confirm that at least forty (40) percent of all leased units will be within thirty (30) percent of median income. The calculations listed above exclude vacant units and were averaged by occupied units.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than thirty (30) percent of median income in the projects noted above in order

to avoid concentrations of very low-income families in the projects as per the requirements of the QHWRA of 1998.
