C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

At the present time the HA has no housing needs. This is due to an over abundance of units and a large number of vacancies. Since our last units were constructed in 1981, there have been approximately 211 new units built in the private sector in our city. This has contributed greatly to our vacancy problem. We are and will be trying to alleviate this condition through the following steps:

1. Reduce time to renovate our units and make them more comparable to private sector units.
2. Advertise through local media sources.

Target available assistance for elderly, families at or below 30% of AMI, Races/Ethincities.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development

- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing

SECTION XXVI. DECONCENTRATION RULE

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Actions: To accomplish the deconcentration goals, the housing authority will take the following actions:
 - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.

 - B. To accomplish the goals of:
 - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - (2) Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.
