**DECONCENTRATION RULE**

1. **OBJECTIVE;** The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40% of its public housing inventory with families that have income at or below 30% of the area median income by public housing dev. Also the HA will take actions to insure that no individual dev. Has a concentration of higher income Families in one or more of the developments. To insure that the HA does not concentrate Families with higher income levels, it is the goal of the HA not to house more than 60% of its Units in any one development with families whose income exceeds 30% of the area median Income. The HA will track the status of family income by development, on a monthly basis by Utilizing income reports generated by the housing authority’s computer system..
2. **ACTIONS:** To accomplish the deconcentration goals, the HA will take the following actions:
  - A. At the beginning of each HA fiscal year, the HA will establish a goal for housing 40% of its new Admissions with families whose incomes are at or below the area median income. The annual Goal will be calculated by taking 40% of the total number of move-ins from the previous HA Fiscal year.
  - B. To accomplish the goals of:
    - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, &
    - (2.) Not housing families with incomes that exceed 30% of the area median income in dev. that have 60% or more of the total household living in the dev. With incomes that exceed 30% of the area med. Income. The HA Tenant Selection & Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.
