Admissions Policy for Deconcentration

Public Housing Deconcentration Policy from ACOP

1. Objective: The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the

housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

2. Actions: To accomplish the deconcentration goals, the housing authority will take the following actions:
- A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
 - B. To accomplish the goals of:
 - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
 - H. Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.

Section 8 Deconcentration Policy from Section 8 Administrative Plan

The objective of the deconcentration rule for section 8 tenant-based assistance is to admit no less than 75% of its new admissions to the program to families that have income at or below 30% of the area median income. The HA will track the status of all new admissions monthly by utilizing income reports generated by the HA's computer system. The goal will be tracked monthly and if the HA is not reaching its goal, families will be skipped on the waiting list to admit a family that has income that is at or below 30% of area median income. The practice will continue until the HA achieves its goal. The HA's section 8 applicant selection process, which is contained in the Section 8 administrative plan provides for the skipping of families on the waiting list to accomplish this goal.

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

Three separate charts have been provided (one each for the three counties that the Lineville Housing Authority serves for its Public Housing and Section 8 programs). All needs have been determined to be the same as statistically the three counties are very similar.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

Goals and Objectives: To provide two full-time investigators to deter and eliminate drug related crime and subsequent activities, and to supply positive role models and alternative activities to PHA youth in order to steer them away from the drug lifestyle by way of educational, youth sports and other cultural and tutorial programs offered.

Role of Partners: All plan partners, both in-direct and direct, with their respective agencies, will work in conjunction with the Housing Authority to provide their services where warranted. These partnerships will promote positive role models for persons at risk and develop personal responsibility and family self-sufficiency.

Monitoring Evaluation: Provided through quarterly meetings of the Joint Drug Elimination Advisory Committee composed of members of the Lineville Police Department, City of Lineville representatives, Lineville Housing Authority management and resident representatives.
