[24 CFR Part 903.7 9 (a)]

**This HA has determined that the housing needs for low-income, very-low income, and extremely-low income families (including elderly families and families with disabilities) in the municipality and on the HA waiting list:**

**The housing needs for this jurisdiction including the HA waiting list is represented mainly by extremely low-income families with children needing large units to eliminate overcrowding problems.**

### **A. Housing Needs of Families in the Jurisdiction/s Served by the PHA**

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

**NOTE:** According to the Comprehensive Housing Affordability Strategy (CHAS) Databook of Alabama using 1990 data, the following information is available for families already renting a unit in the entire Bibb county in which Brent Housing Authority is located. The jurisdiction of Brent Housing Authority does not consume the entire county. In 1990, there were 1235 renter occupied units and 73 vacant renter units. 646 of these have an annual gross rent <= 30% of the HUD Adjusted Median Family Income (HAMFI). Of the current renters, 30% are elderly, 45% are small households, 15% are large households. Of the large households, 100% of those with 0 - 30% HAMFI have experienced overcrowded housing problems. No emergency shelters are available in the Brent Housing Authority jurisdiction or Bibb county. The CHAS report does not give any information about how much impact the assorted factors have to different family types such as supply, quality, accessibility or location.

What sources of information did the PHA use to conduct this analysis? (Check all that apply; all materials must be made available for public inspection.)

### **C. Strategy for Addressing Needs**

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

**The HA will effectively manage and maintain the public housing units in order to minimize the number of days a public housing unit is vacant by reducing the make-ready time and lease-up time, then targeting assistance to families by adopting rent policies and renovations that meet their needs. In the event the funds are available for Section 8 Program, and the application is approved, there will be more affordable units available.**

#### **(1) Strategies**

**Need: Shortage of affordable housing for all eligible populations**

**Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:**

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources

- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

**Continue to maximize the number of affordable units available.**

**Strategy 2: Increase the number of affordable housing units by:**

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

**Need: Specific Family Types: Families at or below 30% of median**

**Strategy 1: Target available assistance to families at or below 30 % of AMI**

**Strategy 1: Target available assistance to families at or below 50% of AMI**

Select all that apply

- Employ admissions preferences aimed at families who are working

**Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:**

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

**Strategy 2: Conduct activities to affirmatively further fair housing**

Select all that apply

**In the ACOP, the PHA has adopted a deconcentration policy in order to be compliant and it is as follows:**

#### **DECONCENTRATION RULE**

1. Objective:      Objective The objective of the Deconcentration Rule for public housing units is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of the housing authority is to house no less than 40 percent of its public housing inventory with families that have income at or below 30% of the area median income by public housing development. Also the housing authority will take actions to insure that no individual development has a concentration of higher income families in one or more of the developments. To insure that the housing authority does not concentrate families with higher income levels, it is the goal of the housing authority not to house more than 60% of its units in any one development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income, by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.
2. Actions:      Actions To accomplish the deconcentration goals, the housing authority will take the following actions:
  - A. At the beginning of each housing authority fiscal year, the housing authority will establish a goal for housing 40% of its new admissions with families whose incomes are at or below the area median income. The annual goal will be calculated by taking 40% of the total number of move-ins from the previous housing authority fiscal year.
  - B. To accomplish the goals of:
    - (1) Housing not less than 40% of its public housing inventory on an annual basis with families that have incomes at or below 30% of area median income, and
    - (2) Not housing families with incomes that exceed 30% of the area median income in developments that have 60% or more of the total household living in the development with incomes that exceed 30% of the area median income, the housing authority's Tenant Selection and Assignment Plan, which is a part of this policy, provides for skipping families on the waiting list to accomplish these goals.
