**Streamlined Plan:**

**ii. Executive Summary of the Annual PHA Plan**

[24 CFR Part 903.7 9 (r)]

The Housing Authority of the City of Magnolia, Arkansas, has taken the new Quality of Housing and Work Responsibility Act of 1998 as an exceptional event requiring an exceptional response. For the first time in sixty years, the Congress has seen fit to make substantial alterations to the Housing Act of 1937.

In order to assure that the Magnolia Housing Authority (MHA) makes a proper response to this new planning requirement in section 511 of the QHWRA, the MHA appealed to Arkansas NAHRO for assistance. That organization obtained professional technical assistance and training for Arkansas member PHA interested in joining together to approach the QHWRA Agency Plan requirement. As a result of that effort, and after discussions with Arkansas NAHRO, with other housing agencies, and after reviewing material supplied by the Little Rock HUD field office, the MHA believes it has adopted a planning approach that meets both the needs of the Authority's residents and the new federal review standards.

In preparing its plan, the MHA had to balance two conflicting demands. On the one hand, with a December 1, 1999 submission deadline, and the need for a draft plan for public review, the Authority felt the demand for a speedy, pointed plan that met the HUD requirements with as little fuss as possible. On the other hand, it recognized the need to explore possibilities and plan for the improvement of its operations, and more importantly, to modernize for successful functioning and achievements in the twenty-first century. The MHA believes it has found such a balance.

The MHA has developed a plan that is consistent with HUD's stated mission and goals. It has also developed a plan that provides for measurable standards against which plan

objectives can be measured. As a step towards its own improved management, the MHA has keyed these standards to the requirements in the Public Housing Management Assessment Program.

The MHA has established its fundamental goals. These are to assure good quality housing for its residents, to encourage resident responsibility for their living space, to provide self-sufficiency opportunities for residents, to assure equal opportunity for its housing, and to provide current, sound management policies and practices to its operations.

Although the MHA has made a streamlined submission, it is mindful that the requirements for a shortened submission do not exclude it from having to meet all requirements of the QHWRA; therefore, it has made clear where and when items not submitted with its plan may be viewed by the public.

The MHA met with its residents to gain their assistance first in performing a needs assessment for Authority operations, then for additional input on developing parts of the Annual Plan. The MHA has documented those meetings, and it has shown how it will address resident suggestions for its plan.

The MHA has a small staff. This has made it difficult for the Authority to amend all of its policies, practices, lease, etc. to conform to the requirements QHWRA in time for this submission. The Authority is aware that it needs to make changes to these items. It has made that a primary operational goal. The Authority is working hard to comply with the details of the new law as quickly as it can, consistent with its limited resources.

### **C. Strategy for Addressing Needs**

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

#### **Means by which the HA plans to address its housing needs**

#### **Housing Needs Statement**

The housing needs of the low, very low and extremely low-income families on our waiting list consist of two main issues, affordability and supply. With regards to affordability the Housing Authority low income housing program has made it possible for these families to rent units that they could not otherwise have afforded.

The supply of rental housing is adequate at this time to meet the needs of our applicants as they come off the waiting list. Since there is an adequate supply of rental housing in our jurisdiction, and since we have a short waiting list with only 16 families and 15 elderly on that list, the need here is sufficiently met.

The quality of the Housing Authority's housing stock far exceeds the housing stock in the private sector. We also have adequate handicapped accessible units to meet our current local need. Additionally, unit sizes are currently sufficient for the needs of families in our jurisdiction.

The needs of residents in our two elderly developments are primarily maintenance social or transportation, which the housing authority addresses through programs such as hot meals, chore services, sponsored trips, and public transportation.

There is an entirely different need in our family development where we are working to help break the cycle of dependency through the programs sponsored by the PHDEP and various community outreach programs, such as educational and training programs with children and adults alike with assistance from the adult education center, several local churches, and other civic organizations.

**(1) Strategies**

This represents the approach of the Magnolia Housing Authority to reducing the influence of the drug culture on our residents. We use an aggressive, coordinated program involving as many community, government and civic/service agencies as possible to educate our residents, especially the children, of the pitfalls and hazards of drug use and the violence it engenders. Our after-school tutoring program works to help break the cycle of ignorance so prevalent in our youthful residents while teaching them the value of self-respect. Drug prevention activities center on special speakers, recreational, sports and cultural activities necessary to inform our residents that there is a better life available to those who will work to achieve it.

## Section 2: PHDEP Plan Goals and Budget

### A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

Our drug program centers on education for the residents and their children and active involvement by our local police through our live-in police officer. The Drug Grant Coordinator works closely with our city government to raze abandoned residences (crack houses) in the vicinity of our family development. We encourage participation in community sports leagues for our young people as well as assist with home-work through our after-school tutoring program. We have separate monthly meeting "after hours" for the young people and the adults to educate and advise them of known area problems as well as upcoming changes or programs which will affect them. We judge our success by the improvements on our young people's report cards; by their improving attitudes and dress, by the continued lower numbers of police "blotter" reports from our developments; and, by the peaceful environment we are able to maintain in our developments.
