Police Officers are assigned to various areas of the city for a specific period of time, which gives them an opportunity to become more familiar with the neighborhood and its citizens creating more time for patrols. This plan has already decreased crime in this neighborhood.

The Housing Authority has receive favorable comments from residents on these Officers. This shall continue through September 30, 2004. We also have weekend patrols of apartment complex by Police Officers of Springdale.

### Attachment A

#### J. DECONCENTRATION OF POVERTY AND INCOME-MIXING

The PHA's admission policy is designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects.

Gross annual income is used for income limits at admission and for income-mixing purposes.

Skipping of a family on the waiting list specifically to reach another family with a lower or higher income is not to be considered an adverse action to the family. Such skipping will be uniformly applied until the target threshold is met.

The PHA will gather data and analyze, at least biannually, the tenant characteristics of its public housing stock, including information regarding tenant incomes, to assist in the PHA's deconcentration efforts.

The PHA will use the gathered tenant incomes information in its assessment of its public housing developments to determine the appropriate designation to be assigned to the project for the purpose of assisting the PHA in its deconcentration goals.

If the PHA's annual review of tenant incomes indicates that there has been a significant change in the tenant income characteristics of a particular project, the PHA will evaluate the changes to determine whether, based on the PHA methodology of choice, the project needs to be redesignated as a higher or lower income project or whether the PHA has met the deconcentration goals and the project needs no particular designation.

#### Aggregate Average

The PHA will review the annual resident income of all of its sites and using the incomes of all families in all developments as a baseline, determine the average income of all of its resident families.

The PHA will designate higher income developments those with average income above the aggregate average.

The PHA will designate lower income developments those with average income below the aggregate average.
