**D. Other Information Required by HUD**

Deconcentration Policy (approved by Board of Commissioners on 6/19/2000)

It is the Sylvester Housing Authority's policy to provide when possible for Deconcentration of poverty and encourages income mixing by bringing higher income families into lower income developments and lower income families into higher income developments.

Toward this end, if possible, we will skip families on the waiting list to reach families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Sylvester Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and Deconcentration incentives to implement.

#### Deconcentration Incentives

The Sylvester Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and non-discriminatory manner.
