Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

***Overview***

*Since the passage of the National Housing Act in 1934, no legislation has impacted the administrative functions of HUD and Public Housing Agencies (PHAs) more than the **Quality Housing and Work Responsibility Act of 1998 (1998 Act)** October 21, 1998. The 1998 Act, attached to the FFY-1999 Appropriations Bill, dramatically and permanently amends the laws governing the administration of the public housing and Section 8 programs.*

The focus of the 2020 Management Reform Plan is to prepare HUD to move into the 21<sup>st</sup> Century as a modernized and revitalized Department with restored public trust and adequate performance-based systems for its programs, operations and employees. Likewise, through the implementation of the 1998 Act, PHAs are required to assess management and operational practices and develop a plan that will ensure that the PHAs meet established goals and objectives. The Agency Plan combines the Five-Year Plan and the Annual Plan.

***Purpose and Structure of the Agency Plan***

The purpose of the Agency Plan is to empower and equip the PHA to exercise optimum flexibility in meeting local housing needs within the community while also meeting its own needs. The Agency Plan contains a FY-2001-FY-2005 Five-Year Plan that includes the Authority's mission and long range goals and objectives. The FY-2001 Annual Plan addresses the Authority's immediate operations, current policies, program participants, programs and services, and the PHA's strategy for handling operational concerns, resident concerns and needs, and programs and services for the upcoming fiscal year. The Agency Plan outlines the PHA's efforts in meeting the needs of the low, very-low and extremely-low income population in its community and effectively serves as a management, operational and accountability tool for the PHA.

Preliminary planning sessions were conducted with the Authority's residents, Resident Advisory Board, community leaders and organizations, and State and local authorities during the development of the Agency Plan to ensure that the needs of the residents and community are addressed in the Agency Plan. The Agency Plan is consistent with the Consolidated Plan/CHAS.

## DECONCENTRATION POLICY

### Introduction

The Quality Housing and Work Responsibility Act of 1998 (QHWRA) requires that the Authority adopt policies and procedures governing the deconcentration of very low-income families and income mixing as required by section 10(a)(3)(B) of the 1937 Housing Act. To implement this requirement, the Authority will compare the relative incomes of each development occupied predominantly by families with children. A development with more than 50% of its occupants being families with children shall be considered to fall under this policy.

The goal of this policy is to create mixed-income communities and lessen the concentration of very low-income families within the Authority's public housing developments through admissions practices designed to bring in higher income tenants to lower income developments and lower income tenants into higher income developments.

The Deconcentration Policy is intended to work in conjunction with the Authority's annual income targeting requirements. The Policy requires that 40% of all new admissions to public housing developments during a fiscal year must be residents whose household income, at the time of admission, is equal to or lower than 30% of the Area Median Income. This "income targeting" requirement is separate from the Deconcentration Policy, which is comparative in nature.

### Definitions

The following definitions are provided in order to clearly and define the affected developments and families under this Deconcentration Policy.

*PHA-Wide Average Household Income:* The average annual household income of all residents of all developments with more than 50% of its occupants being families with children.

*Development Average Household Income:* The average annual household income of all residents of a specific development with more than 50% of its occupants being families with children.

*Higher Income Development:* A development where the Development Average Household Income is greater than 120% of the PHA-Wide Average Household Income.

*Lower Income Development:* A development where the Development Average Household Income is less than 80% of the PHA-Wide Average Household Income.

*Higher Income Family:* A family whose annual household income is greater than 120% of the PHA-Wide Average Household Income.

*Lower Income Family:* A family whose annual household income is less than 80% of the PHA-Wide Average Household Income.

### Testing

In order to achieve and maintain deconcentration, the Authority will calculate the PHA-Wide Average Household Income for all developments with 50% or more of its occupants being families with children on at least an annual basis. At the same time, the Authority will calculate the Development Average Household Income for each development with 50% or more of its occupants being families with children. The results shall be documented as follows:

- a) If the Development Average Household Income for a particular development is greater than 120% of the PHA-Wide Average Household Income, then that development shall be identified as a High-Income Development.

## Table Library

- b) If the Development Average Household Income for a particular development is less than 80% of the PHA-Wide Average Household Income, then that development shall be identified as a Low-Income Development.

*Testing can be run more frequently to determine the effectiveness of various initiatives employed to achieve deconcentration.*

**Corrective Action**

Once a development has been identified as a High-Income Development or a Low-Income Development, the Authority will define and communicate specific procedures to be employed with the goal of achieving deconcentration. It is the goal of the Authority to generally increase the level of income for residents of public housing, create more stratified developments, and obtain agency self sufficiency, therefore; the Deconcentration Policy shall not be employed to be counterproductive to that goal. In addition, the policy will, under no circumstances, be employed though steering or in any way reducing the choice in residence of the individual family.

*In order to correct a concentrated development, the Authority will, to the greatest extent possible, provide incentives to promote a Lower-Income Family to select a Higher-Income Development and to promote a Higher-Income Family to select a Lower-Income Development.*

Procedures to be employed in the development of a corrective action plan may include:

- a) Incentives to select particular developments.
- b) Payment Plans for deposits.
- c) Flexibility in move-in dates.

Since it is impossible to design a policy that will address every scenario, the Authority will, upon the identification of a need to deconcentrate, develop a specific Action Plan that will be included in the Annual Plan update.

## Section 2: PHDEP Plan Goals and Budget

### A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The Warner Robins Housing Authority plans on adding on two full-time police officers for patrolling above baseline on and around the properties. They will monitor the success of the program with the statistics the city police will provide and compare them to one-year prior. The Housing Authority wants to prevent the children from getting involved with drug usage and the crimes that stem from drug use. They will offer drug education programs and recreational activities to direct the children away from drugs, and have a positive influence. They will monitor the success of the programs by the number of participants and the change in the participant’s attitudes.
