[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

These are rapidly changing times. The Housing Authority of the City of Holton is working together to provide adequate housing for the elderly and families and attaining sound communities through the process of development, preservation, and rehabilitation. The HA takes pride in its HA and wants it's Tenant's to do the same. The HA will be involved this year in some Big projects which will assist in attaining this goal. They consist of building a Storage Building. Many dwelling items will be available at the time something needs to be replaced or fixed in a tenants apartment. It will also hold many of the items needed to do upkeep of the HA grounds during the summer and winter months including a new Grasshopper mower and gas weed eater. The relacement and installation of a couple boilers will assist the HA in upgrading its heating system, which has been installed for a long time (30 years) and we had a lot of problems this past winter We also are in need of having our trees trimmed up. The trees were planted thirty years ago when this was a pasture and have only been lightly trimmed. They have become a real problem in many areas and could cause a lot of damage if we have high wind or ice.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR** and the Agency's reasons for choosing this strategy.

The majority of applications are families or elderly, and the lack of suitable housing for the elderly and families may be limiting growth in those age groups. The HA strategy is to decrease the time it takes to get units back on line when there is a vacancy so when families or elderly are needing housing it is available quickly. This will also increase our income so we can continue to provide adequate housing for these applicants.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction

- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional section 8 units should they become available

The biggest need is a storage building for our HA. The previous Director had a unit off line for many, many years so it could be used for storage of equipment, supplies, maintenance tools and supplies required to do maintenance and turaround of the units. There is very little room to use as storage. This had been OK'd many years ago in writing by HUD. This had been used as a storage unit until the winter of 1999/2000 when the HA was told that this unit was to go back on line by HUD. The HA has had to rent a storage building, and pay rent on a monthly basis for this building. This allowed us to do turnaround on a unit, and prepare it for occupancy as we were instructed to do. The Housing Authority is prepared to begin with contractor on this project as soon as possible.

The contractor could get this storage building completed before inclement weather.

The HA need a new roof on the Community Building.

The HA also needs two boiler to be prepared for the upcoming winter. Many boilers have been repaired with parts and pieces to get them through the winter of 1999/2000. It has been recommended that we be prepared for this winter because of the difficulties we had last winter.

The HA's Grasshopper/lawn mower-snow remover is in need of being replaced. It is used on a yearly basis for either lawn mowing or snow removal. We depend on this piece of equipment to do a lot for us in all seasons.

Trees at the HA are very tall and in need of being trimmed so tenants do not run into many of the branches that are almost to the ground in many areas and fall everywhere when we get storms with the good ole' Kansas winds. We also need to prepare for winter weather so we do not lose these trees or big branches. We need to prevent these tree branches from falling on the units or the tenants cars. We need to get this done while the weather is good.
