The housing authority will if by our choices prevent a concentration of poverty families and/or a

concentration of higher families in any one development, as long as it does not interfere with other rules and regulations. The specific objective of the housing authority to house if possible no less than 40% of its public housing properties with families that have income at a 30% of the area median income. Also, the H.A. will take actions when possible that no individual development has a concentration of higher income families in one or more of the developments. To insure that the H.A. does not concentrate families with higher income levels, with more than 60% of its units in any one-development with families whose income exceeds 30% of the area median income. The housing authority will track the status of family income by development, on a monthly basis by utilizing income reports generated by the housing authority's computer system.

We also, bait the lawn for crickets with a granular bait not harmful to people. If at any time we begin to see that this is not working we will alternate with another type of bait, and stress to the resident about cleanliness.
