Deconcentration Policy - Section “T” of ACOP

It is Patterson Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Patterson Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, the PHA will analyze the income levels of families residing in each of its developments, the income levels of census tracts in which its developments are located, and the income levels of the families on the waiting list. Based on this analysis, the PHA will determine the level of marketing strategies and deconcentration incentives to implement.

The Patterson Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

Executive Summary

In compliance with Section 511 of the Quality Housing and Work Responsibility Act (QHWRA) of 1998 and ensuing HUD requirements, the Patterson Housing Authority (PHA) has prepared this Agency Plan for submission to the U.S. Department of Housing and Urban Development. The PHA Agency Plan is in the form of a streamline plan for small agencies as provided for in the QHWRA.

Patterson is located across the Atchafalaya River from Morgan City and is considered part of the hub of the offshore oil industry. It is the oldest settlement in St. Mary Parish with a population of approx 4,375 persons. Approximately 6.3% of the households in the Town live in public housing. The Town is located near the gulf on the Intracoastal Waterway and is equidistant from the Cities of New Orleans, Baton Rouge, and Lafayette. The Housing Authority (HA) has a total of 106 units in six locations in the City, several of which are only a few units on scattered sites. The larger developments contain 25+ units on two sites, all of which are duplexes. The larger developments are located in mixed population neighborhoods.

A primary goal of the PHA is to provide and maintain quality affordable housing in a professional and fiscally prudent manner free from discrimination. The Annual Plan was developed with that primary goal in mind, and a number of the provisions that have been formulated reflect that and other objectives that will have to be accomplished to achieve the stated mission of the housing authority.

The PHA has adopted a policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward that end, the PHA will skip families on the waiting list to reach other families with a lower or higher income. This policy will be implemented in a uniform and non-discriminating manner.

The PHA has instituted several rental options designed to increase flexibility and encourage movement from welfare to work and expanded employment of the residents. The PHA will phase in rent for qualified residents that transition from welfare to work according to Section 508 of QHWRA. There will be no increase in their rent for the first year, it will increase 50% of the normal increase in the second year, and will fully phase in for the third year. The PHA will retain the calculation of rent payment at greater of 30% of adjusted monthly income or 10% of monthly income, and will retained the existing ceiling rent policy and amounts. The PHA will institute a new system of Flat Rents that were established at the higher of the ceiling rent or 80% of the net FMR's (FMR less an allowance for utilities) as published by HUD for St Mary Parish Section 8 Agencies.

Patterson Housing Authority

Executive Summary (Con't)

In an effort to assist families with special housing needs the PHA has adopted a schedule of preferences that otherwise eligible families can claim to improve their chances of getting housed. In general families may claim a preference if the head of household is elderly or disabled, or currently working and has been employed for at least the last six months, or is currently enrolled as a full-time student, at a nearby university or vocational institution. Families may also claim a preference if there are four more minor children that will be living in the household, and or if within the last six months, the family has been the victim(s) of emergency displacement as a result of natural disaster, domestic violence, and other specific situations.

The Patterson Housing Authority (PHA) received a \$25,000 grant under the PHDEP Drug Elimination Grant Program for 1999, and is submitting herewith an application in the amount of \$33,100 under the PHDEP Drug Elimination Grant Program for 2000. This application requests funds under the 2000 Public Housing Drug Elimination Program (PHDEP) to continue the current programs of additional police surveillance (in the form of a bicycle and auto patrol), the elementary and junior high school tutoring program that has been expanded to include LEAP tutoring. We also will coordinate our efforts with the Berwick and Morgan City Housing Authorities for a family training and job readiness workshop program to assist the residents in their Welfare-to-work efforts. The HA also continues to enforce its One Strike Policy and has had several evictions occur under the policy.

The PHA has set out to be in compliance with the Quality Housing and Work Responsibility Act of 1998 requirement that housing authorities set forth in their Annual Plan a Capital Improvement Plan. As part of its Annual Plan the PHA has prepared an Annual and Five Year Action Plan. The current needs greatly exceed the resources available to meet these needs.

The plans, statements, budget summary, and policies set forth in the Annual Plan all lead to the accomplishment of the PHA goals and objectives. Taken as a whole, they outline a comprehensive approach toward achievement of the stated mission of the Patterson Housing Authority. The plan has been developed with input and participation of the residents and is consistent with the State Consolidated Plan and Comprehensive Housing Affordability Strategy.

The PHA welcomes resident and public input on its Agency Plan.

Housing Needs and PHA Strategy

A. General:

The Quality Housing and Work Responsibility Act of 1998 requires that Patterson Housing Authority (PHA) set forth in their Annual Plan a assessment of the housing needs of its jurisdiction and its waiting list. Also, the housing authority is required to state how it intends to address the needs identified.

Attached is the information contained in the Housing Needs Section of the State Consolidated Plan and Comprehensive Housing Affordability Strategy (CHAS) as it relates to Ascension Parish. It shows there is a significant need for additional affordable housing resources in the area. The data is provided in the form of a table. Also, attached is a table that provides an analysis of the PHA waiting list. The information was analyzed as indicated below.

B. Assessment of Housing Needs:

It is concluded from information presented in the State CHAS (Fig. B-2 thru B-8) that there are 4,144 very low income households in St Mary Parish, and 1,489 of those households are living in overcrowded conditions. Table 1C of the CHAS indicates that of the extremely low income families (at or below 30% AMI) a full 75% of families have some sort of housing problems – with nearly 60% paying over 50% of their income in rent. Figures A-2 & 3 of the CHAS indicate that overcrowded households in the low and very low income categories comprises over 85% of the total – causing a significant need for additional housing.

From data presented in the CHAS on housing needs it is concluded that of the 4,024 units needed, over 45% are needed by extremely low income families, and nearly 20% are needed by low-moderate income families with incomes of from 50 – 80% of AMI. Of the total it is estimated that 19% of applicants are elderly families, although no elderly families have applied to the housing authority, and nearly 60% of those in need are black families.

An analysis of the PHA waiting list provides a similar picture for the immediate community. Over eighty-eight percent (88.1%) of applicants for housing from PHA are extremely low-income families (at or below 30% AMI). Nearly twelve percent (11.9%) of applicants are from low-income families, and none are from low-moderate income families. Families with children comprise one hundred percent (100%) of the applicants, and nearly fourteen percent (14.3%) are families with disabilities.

The average annual turnover rate is less than ten percent (9.8%) annually. At that rate it will take four years to house all families presently on the waiting list. The majority of requests for housing are for three bedroom units (35.7%) followed by requests for one bedroom units (38.1%).

The PHA used this analysis to prepare the five-year goals and objectives. It reflects the PHA priorities that have been set forth in its Mission Statement.

While the PHA cannot meet the entire need identified here, in accordance with the goals included in this Plan, the PHA will try to address some of the identified needs by using appropriate resources to maintain and preserve its existing stock. When appropriate and feasible, it will apply for additional grants from federal, state and local sources, including private sources where appropriate to help add to the affordable housing available in our community.

Housing Needs and PHA Strategy (Con't)

C. Strategies

A. Strategies that will be used to maximize the number of units available will include but not be limited to the following:

1. Employ effective maintenance and management polices to minimize the number of public housing units off-line.
2. Reduce turnover time for vacated public housing units.
3. Reduce time to renovate public housing units.
4. Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required.
5. Investigate housing resources other than public housing funding.

B. Strategies to focus on assistance to lower income families:

1. Adopt rent policies to support and encourage work.
2. Employ admissions preferences aimed at families who are working.

C. Strategies to focus on elderly and disabled families:

1. Implement modifications near elderly and handicap units to improve visitability.
2. Continue security measures such as additional police patrol and crime prevention programs.

The PHA reiterates that it wishes that it could meet all the needs that exist in its jurisdiction, but it is not optimistic about achieving that objective. The problem is the lack of resources to address the extensive range of housing needs. Neither the PHA nor the Federal Government has the resources necessary to accomplish that objective. The only practical thing to do is to apply for the grant opportunities made available by the U.S. Department of Housing and Urban Development over the course of the next year. Whenever possible we will respond to HUD NOFAs (Notices of Funding Availability) to increase the amount of affordable housing at PHA.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

Under the 2000 PHDEP Program the Patterson Housing Authority proposes to continue with a fifth phase of its plan to address the crime problem using a three-part strategy contingent on available funds. All of the elements of the strategy are included for funding under the 2000 Public Housing Drug Elimination Program (PHDEP). The activities are primarily a continuation of the current programs of additional police surveillance (in the form of a bicycle and auto patrol), a session of a drug prevention program in the form of a junior high school tutoring program that has been expanded to include LEAP tutoring, and the continuation of a family training and job readiness workshop program to assist the residents in their Welfare-to-work efforts. The HA also continues to enforce its One Strike Policy and has had several evictions occur under the policy.
