### **Executive Summary**

In compliance with Section 511 of the Quality Housing and Work Responsibility Act (QHWRA) of 1998 and ensuing HUD requirements, the Morgan City Housing Authority (PHA) has prepared this Agency Plan for submission to the U.S. Department of Housing and Urban Development. The PHA Agency Plan is in the form of a standard plan for agencies with over 250 units as provided for in the QHWRA.

Morgan City is the hub of the Louisiana offshore oil industry and is the largest city in St. Mary Parish with a population of approx 15,000 persons. Approximately 5% of the population of the City live in one of the four public housing developments. The City is located near the gulf on the Intracoastal Waterway and is equidistant from the Cities of New Orleans, Baton Rouge, and Lafayette. The PHA has four locations in the City, two of which are on the outskirts. The larger of the developments is Brownell Homes with 206 units, on a relatively small site comprised of duplexes, four-plexes and eight-plexes. The development is somewhat isolated from the City and is located near a wooded area on a well traveled highway, with access to the Interstate system to Houston and New Orleans. Jacquet Homes is a 50 unit development constructed in a minority section of town. Dixie and Shannon are two older developments; one located at the edge of an all black neighborhood, and Shannon which is located in a mixed neighborhood.

A primary goal of the PHA is to provide and maintain quality affordable housing in a professional and fiscally prudent manner free from discrimination. The Annual Plan was developed with that primary goal in mind, and a number of the provisions that have been formulated reflect that and other objectives that will have to be accomplished to achieve the stated mission of the housing authority.

The PHA has adopted a policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward that end, the PHA will skip families on the waiting list to reach other families with a lower or higher income. This policy will be implemented in a uniform and non-discriminating manner.

The PHA has instituted several rental options designed to increase flexibility and encourage movement from welfare to work and expanded employment of the residents. The Morgan City Housing Authority (PHA) operates 335 units of Public Housing at four sites where it has been determined that rents for certain units will vary at some sites. The PHA will phase in rent for qualified residents that transition from welfare to work according to Section 508 of QHWRA. There will be no increase in their rent for the first year, it will increase 50% of the normal increase in the second year, and will fully phase in for the third year. The PHA will retain the calculation of rent payment at greater of 30% of adjusted monthly income or 10% of monthly income, and will retained the existing ceiling rent policy and amounts. The PHA will institute a new system of Flat Rents that were established at the higher of the ceiling rent or at a

percentage of the net FMR's (FMR less an allowance for utilities) as published by HUD for St Mary Parish Section 8 Agencies.

Executive Summary Page 2

In an effort to assist families with special housing needs the PHA has adopted a schedule of preferences that otherwise eligible families can claim to improve their chances of getting housed. In general families may claim a preference if the head of household is elderly or disabled, or currently working and has been employed for at least the last six months, and or if within the last six months, the family has been the victim(s) of emergency displacement as a result of natural disaster, domestic violence, and other specific situations.

The Morgan City Housing Authority (PHA) was awarded \$72,850 under the PHDEP Drug Elimination Grant Program for 1999. The grant will provide funds under the 1999 Public Housing Drug Elimination Program (PHDEP) to continue the current programs of additional police surveillance (in the form of a bicycle and auto patrol), the elementary and junior high school tutoring program that has been expanded to include LEAP tutoring. We also will coordinate our efforts with the Berwick and Morgan City Housing Authorities for a family training and job readiness workshop program to assist the residents in their Welfare-to-work efforts. The HA also continues to enforce its One Strike Policy and has had several evictions occur under the policy.

The PHA has set out to be in compliance with the Quality Housing and Work Responsibility Act of 1998 requirement that housing authorities set forth in their Annual Plan a Capital Improvement Plan. As part of its Annual Plan the PHA has prepared an Annual and Five Year Action Plan. The current needs greatly exceed the resources available to meet these needs.

The PHA also is in the process of developing and implementing an Operations Improvement Plan which focuses on improvements to the operations and financial management systems of the agency. Of prime concern is the viable management of the agency considering the continued higher than desired vacancy rate and small waiting list of families seeking housing.

The plans, statements, budget summary, and policies set forth in the Annual Plan all lead to the accomplishment of the PHA goals and objectives. Taken as a whole, they outline a comprehensive approach toward achievement of the stated mission of the Morgan City Housing Authority. The plan has been developed with input and participation of the residents and is consistent with the State Consolidated Plan and Comprehensive Housing Affordability Strategy.

The PHA welcomes resident and public input on its Agency Plan.

## **Housing Needs and PHA Strategy**

### **A. General:**

The Quality Housing and Work Responsibility Act of 1998 requires that Morgan City Housing Authority (PHA) set forth in their Annual Plan a assessment of the housing needs of its jurisdiction and its waiting list. Also, the housing authority is required to state how it intends to address the needs identified.

Attached is the information contained in the Housing Needs Section of the State Consolidated Plan and Comprehensive Housing Affordability Strategy (CHAS) as it relates to St Mary Parish. It shows there is a significant need for additional affordable housing resources in the area. The data is provided in the form of a table. Also, attached is a table that provides an analysis of the PHA waiting list. The information was analyzed as indicated below.

### **B. Assessment of Housing Needs:**

It is concluded from information presented in the State CHAS (Fig. B-2 thru B-8) that there are 4,144 very low income households in St Mary Parish, and 1,489 of those households are living in overcrowded conditions. Table 1C of the CHAS indicates that of the extremely low income families (at or below 30% AMI) a full 75% of families have some sort of housing problems – with nearly 60% paying over 50% of their income in rent. Figures A-2 & 3 of the CHAS indicate that overcrowded households in the low and very low income categories comprises over 85% of the total – causing a significant need for additional housing.

From data presented in the CHAS on housing needs it is concluded that of the 4,024 units needed, over 45% are needed by extremely low income families, and nearly 20% are needed by low-moderate income families with incomes of from 50 – 80% of AMI. Of the total it is estimated that 19% of applicants are elderly families, although only four elderly families have applied to the housing authority, and nearly 60% of those in need are black families.

An analysis of the PHA waiting list provides a similar picture for the immediate community. All of the applicants for housing from PHA are extremely low-income families (at or below 30% AMI). No current applications are from low-income families, and none are from low-moderate income families. Families with children comprise seventy six percent (76%) of the applicants, and eight percent (8%) are families with disabilities.

The average annual turnover rate is less than ten percent (9.8%) annually, however the housing authority has extensive vacancies in one of its developments but applicants have historically turned down offers to rent units at that site and continue to do so. At the turnover rate it will take a while to house all families presently on the waiting list is they insist on living at sites other than Brownell Homes. The majority of requests for housing are for two and three bedroom units.

The PHA used this analysis to prepare the five-year goals and objectives. It reflects the PHA priorities that have been set forth in its Mission Statement.

## Housing Strategies Page 2

While the PHA cannot meet the entire need identified here, in accordance with the goals included in this Plan, the PHA will try to address some of the identified needs by using appropriate resources to maintain and preserve its existing stock. When appropriate and feasible, it will apply for additional grants from federal, state and local sources, including private sources where appropriate to help add to the affordable housing available in our community.

### **C. Strategies**

A. Strategies that will be used to maximize the number of units available will include but not be limited to the following:

1. Employ effective maintenance and management polices to minimize the number of public housing units off-line.
2. Maintain a waiting list of applicants that will fill vacant units.
3. Develop new marketing strategies and incentives to encourage applicants to take a rental unit in Brownell Homes Development.
3. Reduce turnover time for vacated public housing units.
4. Reduce time to renovate public housing units.
5. Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required.
6. Investigate housing resources other than public housing funding.

B. Strategies to focus on assistance to lower income families:

1. Adopt rent policies to support and encourage work.
2. Employ admissions preferences aimed at families who are working.

C. Strategies to focus on elderly and disabled families:

1. Implement modifications near elderly and handicap units to improve visitability.
2. Continue security measures such as additional police patrol and crime prevention programs.

The PHA reiterates that it wishes that it could meet all the needs that exist in its jurisdiction, but it is not optimistic about achieving that objective. The problem is the lack of resources to address the extensive range of housing needs. Neither the PHA nor the Federal Government has the resources necessary to accomplish that objective. The only practical thing to do is to apply for the grant opportunities made available by the U.S. Department of Housing and Urban

Development over the course of the next year. Whenever possible we will respond to HUD NOFAs (Notices of Funding Availability) to increase the amount of affordable housing at PHA.

### **Deconcentration Policy - Section “T” of ACOP**

1. It is Morgan City Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Morgan City Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, the PHA will analyze the income levels of families residing in each of its developments, the income levels of census tracts in which its developments are located, and the income levels of the families on the waiting list. Based on this analysis, the PHA will determine the level of marketing strategies and deconcentration incentives to implement.

#### **2. Deconcentration Incentives**

The Morgan City Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.

## Community Service Requirement

The Morgan City Housing Authority (PHA) has modified its Admission and Continued Occupancy Policy and added a Section H which includes the statutory provisions for continued occupancy that require each adult family member who is not employed and otherwise exempt, must comply with the Community Service Requirement (CSR) of QHWRA, which states that such persons must contribute eight hours per month of community service (not including political activities) within the community in which the public housing development is located. Participation in an economic self-sufficiency program is considered fulfillment of this requirement.

When required to contribute community service, it is the residents’ responsibility to find a place to serve the hours of community service, and to provide documentation that the service was performed. The housing authority has canvassed its rent rolls to determine which of its existing resident families that the HA believes has one or more members who fall under the CSR. Those persons that are responsible to participate in the CSR program are asked to come into the office to have the requirements explained to them and to provide them with the reporting form. Newly admitted families have the program explained to them at orientation. Those residents that fall into the CSR category may be assigned to one staff member to track their progress in meeting their responsibilities.

The CSR resident family must bring in the completed form on a monthly basis and present the form at the time of payment of rent. If the HA has a reason to question the truthfulness of the information provided on the form it will take steps to confirm the information.

Areas that have been identified as acceptable for CSR service include but are not limited to the following:

Lakewood Hospital	St Mary Guest Home	CAA Headstart Centers
Council on Aging Center	City Recreation Dept	Church Child Summer Programs
St Mary Outreach	Schools	St Mary Comm Action Agency
Welfare to Work Training Programs		Qualified Training Programs

If a resident cannot find an opportunity to volunteer with one of the above agencies, then the residents will be assigned to work at one of the HA’s resident programs as a volunteer basis.

Programs that the MCHA conducts that can accommodate a limited number of volunteers:

Afterschool Tutoring Program	GED Tutoring Program	Summer Enrichment Program
Mentoring Program	Resident’s Work Program	Vacant Apt. Cleaning Team

The MCHA will notify any family found to be in noncompliance of the CSR program:

- 1) That they are in non-compliance with their CSR Requirements,
- 2) That the determination is subject to the grievance procedure; and

3) That, unless the family member(s) enter into an agreement to comply, the lease will not be renewed or will be terminated.
