ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Newburyport Housing Authority (NHA) is dedicated to providing decent, safe and sanitary affordable housing opportunities within the City of Newburyport, Massachusetts. In order to achieve our goal the NHA has identified the following initiatives to be undertaken in this next budget year.

The NHA will continue to broaden its use on non-operating sources (HOME, CIAP, Private Grants and Intergovernmental Partnerships) to implement capital improvements at its properties, offer additional rental assistance, residents social services and develop plans for the acquisition or development of additional affordable housing units. The NHA continues to enjoy a strong financial condition and has had no management or other audit findings for many years.

The NHA has developed new policies that will continue to promote broad-based income ranges among Public Housing Authority Residents and Section 8 Participants while ensuring that we comply with the HUD mandated set-asides for household below 30% of median income. We have also eliminated the former "Federal Preferences" and initiated new preferences that will place minority applicants on the same playing field as local residents to promote affirmative action that will result in more diverse housing communities. The NHA will continue strong screening procedures that will ensure that only persons who have not exhibited behavior that will endanger the health and safety of other residents will be assisted in Public Housing and continue its "One Strike and Your Out" policy for existing tenants. Public Housing Residents will also be given the choice of paying a rent based either on

traditional income calculations or a flat rent that are comparable to the fair market value of the NHA's units based on an ongoing Market Study.

The NHA will also continue to develop housing programs for under served populations including persons with disabilities, families fleeing domestic violence and low income households seeking homeownership. We will pursue additional funding of additional Section 8 Vouchers and allocate HOME funds to meet the needs of under served populations and commit to broadening housing choice for persons with disabilities. The NHA will also investigate leverage financing against our Federal Elderly Housing Program to develop additional affordable housing.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

The NHA has reviewed the North Shore HOME Consortium's most recent Consolidated Plan and finds that the City of Newburyport's needs are well represented within that document.

The City of Newburyport has experienced rapid gentrification since the early 1970's which have transformed it from a "working class" to a "bedroom" community. Although the City's economic growth has improved the quality of life for many residents, residents of low income have become victims of the "Boom".

Based on the 1990 Census data, 19% of households within Newburyport fall below the area median income. Average rents have increased approximately 30% since 1996 and caused the majority of low income families to face severe financial hardship (Paying in excess of 50% of their monthly income for housing cost). The current average home price of \$250,000 prohibits home ownership opportunities for any low income household. Under served populations (elderly, disabled, single-parent households) appear to be suffering the brunt of the current housing climate.

Persons with disabilities face additional obstacles in obtaining affordable housing. The City's housing stock is old (60% was built prior to 1939) and the only affordable accessible units are located in the City's four (4) elderly housing complexes. No major rental housing has been built in the city since the early 1970's, meaning that very few accessible units are in the pipeline within the immediate future. In addition, the few accessible units that have been developed offer limited choices to families with disabled household members. The NHA's ability to provide housing assistance to persons with HIV/Aids has been further impeded by the lack of turnover on our Section 8 and Massachusetts Alternative Housing Voucher Programs.

The NHA is experiencing a growing number of applications from elderly applicants who are facing soaring rents. In many cases the elderly applicant's unit has been purchased by a new owner who increase rent up to 50%. Consequently, the elder falls behind in their rent and is either evicted for non-payment, or goes without food and other basic necessities to maintain their housing until they are offered a subsidized unit.

Single-parent households simply cannot afford to remain in the community with our current rental market. Based on an average two bedroom rent of \$1,100, a family would need gross earnings in excess of \$43,000 to adequately provide for their families. Approximately one-third of our Section 8 and State-Aided Family Housing Applicants are forced to move to a more affordable community prior to receiving housing assistance.

The number of households fleeing domestic violence has reached epidemic proportions within our community. The local women's crisis center has an ongoing caseload of

approximately 100 families. Current program turnover, has not allowed the NHA to assist these families in crisis.

The gentrification of our city has also prohibited low-income minority households from locating in our community. We have examined the HOME Consortiums “Analysis for Impediments to Fair Housing’ and must concur that past HUD approved “Local Preferences” may have negatively impacted minority placement on our federal programs. As a remedial action, the NHA has elected to offer a preference to all minority household that will place them on an equal placement level with local applicants.

C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

The NHA plans to maximize its program resources to decrease vacancy time in Public Housing and use its full allocation of Section 8 Contract Authority. In addition to the following strategies, we will recommend to the City of Newburyport that its HOME allocation be used to help under served populations through use of Tenant Based Rental Assistance and creation of additional affordable housing units. HOME funds may also be used for first time homebuyer opportunities through deferred soft second mortgages to low income households.

The NHA has also implemented preference to all minority applicants that will give them equal standing with local applicants. This preference will be continued to be offered until the NHA is satisfied that we have minority presence within our programs that adequately reflects the greater metropolitan region.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

Strategy 2: Increase the number of affordable housing units by:

Select all that apply

- Apply for additional section 8 units should they become available
