C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

The Quality Housing and Work Responsibility Act of 1998 requires that housing authorities set forth in our Annual Plan a Needs Assessment of the housing needs of our jurisdiction and our waiting list. Also, we are required to state how we intend to address these needs.

Attached is the information contained in the Housing Needs Section of our Consolidated Plan. It shows there is a need for additional affordable housing resources in our community. Also, per the requirements, we have attached data and tables that provide an analysis of our waiting list.

The information was analyzed in the following manner. I gathered data from our waiting list and from a CHAS Table that I took off the internet.

The Sauk Centre Housing Authority used this analysis to prepare our five-year goals and objectives. It reflects our priorities that we have set forth in our Mission Statement.

Finally, we are required to state how we intend to address our community's housing needs to the maximum extent practical. While we wish we could meet the needs that exist in our jurisdiction, we are not optimistic about achieving this objective. The problem is that we lack the resources to address our housing needs. Neither the Sauk Centre Housing Authority nor the Federal Government has the resources necessary to accomplish our objective. The only practical thing we can do is to apply for the grant opportunities made available by the U. S. Department of Housing and Urban Development over the course of the next year. Whenever possible we will respond to HUD NOFA's (Notices of Funding Availability) to increase the amount of affordable housing in Sauk Centre.

This year, we expect to receive \$1,53,952 for our existing programs. We will continue to use those resources to house people. The agency is now focusing on modernization funds for its public housing project. Priorities and guidelines for programs often change from year to year

and our decision to pursue certain opportunities and resources may also change over the coming year if there are program changes beyond our control..

4. PHA Rent Determination Policies

[24 CFR Part 903.7 9 (d)]

The Sauk Centre Housing operates only a Public housing Program. We have decided to set the following rent policies for the Public Housing Program.

1. We are retaining the calculation of rent payment at greater of 30% of adjusted monthly income, 10% of monthly, or shelter rent.
2. We are not adding any income exclusions to the statutory ones in the calculation of adjusted income because we cannot afford to do so at a time when the Federal government is under-funding public housing operations.
3. We are phasing in rent for qualified residents that transition from welfare to work according to section 508 of QWHRA. There will be no increase in their rent for the first year, it will increase 50% of the normal increase in the second year, and will fully phase in for the third year. Due to lack of demand, we are not establishing individual savings accounts for these qualified residents.
4. We have established a minimum rent of \$50.00.

Admissions Policy for Deconcentration

Deconcentration Policy

It is the Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

Deconcentration Incentives

The Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.
