A. DECONCENTRATION PLAN

The Northeast Missouri market area contains Adair, Clark, Knox, Scotland and Schuyler counties and is located in the northeast corner of the state. The largest city, Kirksville, is in the county of Adair.

Population in this area, per the 1990 census indicates that over 98 percent of the population are White, the remaining 2 percent of the population are ethnic minority. The per capita income is \$12,588, while median family income is \$23,180 in 1990.

Eligibility, admission to and occupancy of low-income Public Housing are governed by requirements of the Department of Housing and Urban Development, with some latitude for local policies and procedures. Memphis Housing Authority and Scotland County Housing Agency will not discriminate with respect to any housing accommodations, facilities, services, financial aid or other benefits involved in its federally funded public housing programs; the PHA, its officials, administrators, agents servants, employees, successors, all persons exercising governance over the PHA, and all persons in active concert or participation with any of them, agree to refrain from any acts which, on the grounds of race, color, creed, age, sex, handicap, familial status or national origin.

The Scotland County PHA and Memphis Housing Authority maintain a waiting list for applicants interested in the various public housing programs. All admissions to public housing shall be made on the basis of application for admission and shall constitute the basic record of each family applying for admission. All supplemental materials pertaining to eligibility shall also be considered a part of the application record and carefully recorded. This includes verification of income and family composition and such other data as may be required. The PHA does not provide emergency housing and cannot modify the other assignments otherwise prescribed because of emergency considerations.

The PHA shall make every effort possible to provide for de-concentration of poverty and income mixing in its communities by bringing higher income residents into lower income units and lower income residents into higher income units.

To this extent the Memphis Housing Authority shall insure that not less than 40% of all new admissions shall be families whose income at the time of their admission does not exceed 30% of the area median income, as determined by the Secretary of HUD with adjustments for smaller and larger families.

The PHA does not intend to utilize and/or impose any specific income or racial quotas nor will the PHA offer incentives for eligible families to occupy units predominately occupied by families having either lower or higher incomes.

Date and time of application will select applicants, once the resident has provided all eligibility information and is determined eligible.

With the Section 8 Rental Assistance Program, this PHA will explain to the family the advantages of moving to an area outside of a high-poverty census tract. The PHA will emphasize that such areas generally have better schools, a lower crime-rate, better public services and more shopping and other amenities. The PHA will also note that preliminary data from local moving-to-opportunity programs appear to substantiate that children of families moving from a high-poverty area reach higher levels of school achievement.

Since Northeast Missouri is considered to be a high-poverty census tract, the PHA will explain portability to all applicants.
