DECONCENTRATION POLICY

This policy establishes guidelines for avoiding concentration of very-low income families in certain projects.

1. **GENERAL:** The PHA hereby institutes these guidelines and procedures for deconcentration of very-low income families. It is the goal of the PHA to have a fair mix of families with varying incomes in each of the sites operated by the PHA. This goal will be achieved by income mixing and offering incentives to higher income families.
2. **PROCEDURES:**
 - A. **Income Mixing:** To ensure that there is no concentration of only very-low income families or higher income families in any one site, the following guidelines have been established:
 1. In each fiscal year, at least 40% of families admitted to public housing will have incomes that do not exceed 30% of the median income for Clay County.
 2. Skipping of families on the waiting list is permissible in order to specifically reach another family with a lower or higher income. Families will only be skipped if the vacancy in question requires a lower or higher income renter to ensure a fair mix of incomes in the project.
 - B. **Incentives:** In order to make public housing a more viable choice for higher income families who may otherwise be uninterested or unable to afford to remain in public housing, the following incentives have been established:
 1. This PHA has one recognized local preference: working families.
 2. In order to make public housing more affordable for working persons, and to enable higher income families to remain in public housing, the PHA has adopted the Family Choice of rent determination, which allows a family to opt for the Flat Rent. Flat Rent is a rental amount set by the PHA based on market conditions, cost to operate the unit, size of the unit, and any amenities offered. A family's income does not affect the amount of rent charged under this option.

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The West Point Housing Authority along with service providers will implement long term drug prevention strategies. Girl and Boy Scout Troops on site, economic self-sufficiency programs (computer training) for adults with day care provided in order to remove the child care barrier, early computer training for youth (Compu-child), seminars for staff and residents, a well stocked Human Resource Library and an enhanced Resident Newsletter will be the tools used to achieve our goal. The effects of these programs will remain long after the grant period has ended. Close monitoring through activity reports from service providers and staff which detail participation and achievements will be enough documentation for the 99 PHDEP evaluator to give an accurate report on the overall success of the programs.
