ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The following major goals/objectives were identified with the help of intensive citizen/tenant input, through a survey and public hearings and coordination with jurisdictions served by Eastern Carolina's Section 8 Housing program. The Annual Plan will show how Eastern Carolina Human Services agency will meet the housing needs of a specific target population, and provide supportive services in the jurisdiction as well. Through the survey conducted by the program staff, sixty four percent of the respondents sited more affordable housing as a need with a number 3 rating or above to make it a priority. In coordinating with other public service agencies a need was identified for transitional housing, for Onslow and Duplin counties, for persons who are victims of domestic violence. In the agency administrative plan, persons who are identified as victims of domestic violence will be assigned a preference so that they may move ahead on the Section 8 waiting list. The plan also identifies the need for more public service agency cooperation and coordination in the provision of services to clients. Eastern Carolina Human Services agency expects to receive \$2,310,729.00 in Housing and Urban Development funds. The funds will be spent on eligible housing activities. The Section 8 existing and choice voucher program continue to be the main thrust of the agency housing programs. However, it is the intent of the agency to develop activities that will primarily serve extremely and low income families through home ownership.

Attachment A: Policy for Deconcentration: Eastern Carolina Human Services agency Section 8 Housing program will monitor the leasing of units by tenants to carefully scrutinize the location of tenant selected units. Family incomes and areas they select to lease in will be analyzed to insure that deconcentration is being achieved. The staff will track the selection of units, that are leased through the use of a map of both counties. If it is determined that areas have high concentrations of Section 8 low income tenants, the Director will begin a extensive marketing of the Section 8 program, by contacting the Real Estate community and the Landlords Association to provide a general information sheet and a manual explaining the rental assistance program. By utilizing these two entities, this will ensure that the owners who control a substantial number of rental units, will be aware of the rental program. The Director will develop working relationship with the Board of Realtors to determine who the owners are that control units outside of areas targeted as low income areas. A list will be developed of owners that are willing to rent to Section 8 Housing families will offer them units outside the low income areas. The list will be provided to families at briefing sessions. The Section 8 Housing staff will meet with owners annually to inform them of changes and incentives in the Section 8 rental assistance program. The staff will also use the meeting to become more familiar with the owners /Landlords and further the program goal of deconcentration by encouraging them to make their higher end rental units available to the Section 8 tenants.
