The Verdigre housing authority has prepared this agency plan in compliance with Quality Housing Work Responsibility Act of 1998, Section 511.

The Verdigre housing authority consists of 17 one and two bedroom apartments. The authority is managed by an Executive Director with maintenance provided by one other person. The staff receives guidance from a five-member Board of Commissioners and a Resident Advisor.

The plans, statements, budget summary, policies, etc. set forth in the 5-year and Annual Plan all lead toward the accomplishment of our goals and objectives and are consistent with the State Consolidated Plan. Here are a few highlights of our Annual Plan:

- We have adopted local preferences for applicants who are elderly, disabled, or meet the low-income requirement.
- We have adopted an aggressive screening policy to ensure to the best of our ability that new admissions will be good neighbors, while being equal opportunity residential and work setting.
- We have established a minimum rent of \$50.00
- We have established a flat rent for all our units.
- We shall strive to increase tenant awareness of assistance programs.

We feel that through the accomplishment of our goals and objectives, we will achieve our mission statement.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

GENERAL COMMENTS

Based on HUD requirement, the housing needs assessment addresses the rental market only. As a result, the information presented below draws a partial picture of the housing market in Verdigre and housing needs of its residents. In particular, the assessment does not reflect the housing needs of some elderly homeowners. These families and individuals live on a very limited budget and/or with physical limitations that make it almost impossible to perform major maintenance work, thereby setting the scene for potentially under-maintained houses. Additionally, it is evident that some elderly homeowners would be better off in a senior (independent or assisted) living setting rather than living in their own homes where they are more likely to be lonely and vulnerable. Anecdotal evidence suggests that elderly homeowners currently choose to stay at home for as long as they can, even if this choice endangers their life. Among the reasons is the lack of any type of residential setting with support services in the community. Therefore, moving into a more age appropriate residence means leaving town.

As mentioned, however, these homeowners are not directly discussed in this analysis. Even if discussion addressed elderly homeowners, their true needs might not surface through 'cost burden' filter since many have paid off their mortgage and/or enjoy homestead exemption.

METHODOLOGICAL REMARKS

A number of constraints affected the results of the housing needs assessment:

- Geographic Unit of Reference: HUD generated and manipulated databases (CHAS, 2020 software) relevant to the housing needs assessment are mostly available at the county level (and, in some cases, census tracts). Other sources of data (Census Bureau updates, U.S. Dep. of Commerce, Nebraska Consolidated Plan) also tend to treat the County as the smallest unit of reference. Therefore, Verdigre specific needs were determined based on the relative size of its population in Knox County, Census-based income distribution among age groups, and adjusted according to current information available locally.
- Market Area: Based on HUD requirement, the focus of this study is the housing authority jurisdiction. However, from a planning perspective, a more effective analysis should have covered a larger market that captures the farms surrounding Verdigre.
- Current Information: The most comprehensive data available for the housing needs assessment is based on 1990 Census. Some estimations are conducted annually by the Census Bureau, the U.S. Department of Commerce, and other government agencies. However, these estimations are insufficient to determine current local income distribution, immigration, and age structure.
- Nebraska Reference: The existing Nebraska State Consolidated Plan, which provides the framework of reference for this needs assessment, is applicable to the years

1990-2000. The State of Nebraska is currently in the process of creating a new consolidated plan, which should be available in the summer of 2000.

- **Target Population:** In assessing the housing needs, we have considered income, housing tenure, and cost burden. Known (CHAS) problems with housing structure are only available for the County and could not be adjusted to the jurisdiction. As mentioned, the needs assessment does not account for needs of [some] elderly for more age appropriate housing in cases where needs do not surface through the above criteria (renters cost overburden and known problems).

BACKGROUND - GENERAL CONDITIONS

Population: Verdigre is located in Knox County. Its 1990 and 1998 population consisted of about 6% of County population. Both the County and Verdigre are estimated (Census Bureau) to have lost population from 1990 to 1998. As expected, the population loss in Verdigre (8%) was greater than in the County (4%). Although accurate information is not available, the overall trend in Rural Nebraska suggests that the greatest loss of population occurs among the young (20-40 years old) age groups and the very old.

The population is aging. About 43% of 1990 population was 65 years and older (compared to an average 14% in Nebraska). These elderly consisted of nearly 12% of the County elderly population (compared to total 6% among all age groups).

Housing Stock: The housing stock is rather old. The structure of nearly 40% of the 1990 housing units are 60 years and older; additional 14% are now 40-60 years old.

The majority (74%) of housing units is owner occupied. About 37% of homeowners were elderly, which is a high percentage given that the elderly consist of only 11% of the total population. The relative number of elderly renters is also high (51.5%). Data concerning the way in which the local housing market evolved is not available.

NEEDS ASSESSMENT

Needs Results: As shown in the table below, the number of households in need for affordable housing is low given the large number of households with low-moderate income. This is clearly a result of the availability of affordable housing through the housing authority. It is also a result of the relatively large homeowners market, which, as noted, is beyond the current analysis.

Although needs for the elderly are estimated, the reasons for the needs are not very well reflected through HUD's pre-determined categories of problem areas.

→ Housing needs are presented on the following page:

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the “Overall” Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being “no impact” and 5 being “severe impact.” Use N/A to indicate that no information is available upon which the PHA can make this assessment.

Other Housing Needs & Strategies: (list needs and strategies below)

List needs, priorities, strategies

NEED 1: Affordable housing for the elderly

Strategy 3.1: Explore the options of extending our services to the County population using marketing and outreach methods.

(2) Reasons for Selecting Strategies

Of the factors listed below, select all that influenced the PHA’s selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board

After a thorough examination of our existing and potential market, as well as the characteristics of our residents and the Agency's track record, the Housing Authority determined that the above strategies are most appropriate for meeting our mission and goals, and support the community. These strategies reflect the results of working through our long term plan in consultation with our residents, Board, community representatives, and other housing authorities serving small communities in Rural Nebraska.

For other funds, indicate the use for those funds as one of the following categories: public housing operations, public housing capital improvements, public housing safety/security, public housing supportive services, Section 8 tenant-based assistance, Section 8 supportive services or other.
