**ii. Executive Summary of the Annual PHA Plan**

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Lynch Housing Authority administers 12 Public Housing units for the elderly, handicapped, and disabled. Based on housing needs assessment and the comments from our village, the housing authority is currently not planning to pursue additional developments.

Lynch housing authority is overseen by five-member Board that is appointed by the Mayor and the Village of Lynch. During the past years, Lynch Housing Authority has invested in not only providing affordable quality shelter to our residents, but also in ensuring that the agency remains stable to support individuals and families with no other viable residential options in the community. As an integral part of our community, we experience the effects of the crisis in the farming economy and the movement of the young to larger towns. The on going problem with vacancies is clearly a reflection of current conditions in the community.

Rents are based on 30% of income less deductions, our minimum rent is \$50, and ceiling rent is at \$285. While clearly affordable, the housing authority still hopes to be able to help existing residents. With residents that are gradually aging and a struggling community, our current challenge is related to supportive services to the aging population. Indeed, among our goals is to seek ways to provide assistance as needed. Needless to mention that the lack of supportive services forces the elderly in our community to nursing home and other solutions located outside our community.

### **Disclaimer**

In accordance with QHWRA and the principles of the agency plan, the housing authority will submit to HUD details of cases in which its discretionary policies, decisions, and practices have resulted or are expected to result in a 'substantial deviation' from, or require significant amendments/modifications of, the Annual and/or Five Year Plans. 'Substantial deviation or significant amendments and modifications' are defined as changes in the agency's core purpose (mission and goals) and key operating principles (including, but not limited to, strategies and policies) that were articulated in the most recent Annual and Five Year Plans. All changes must be approved by the Board of Commissioners.

# **1. Statement of Housing Needs**

[24 CFR Part 903.7 9 (a)]

## **GENERAL COMMENT**

Based on HUD requirement, the housing needs assessment addresses the rental market only. As a result, the information presented below draws a partial picture of the housing market and housing needs in Lynch. In particular, the needs assessment does not reflect the housing needs of some elderly homeowners. These families and individuals tend to live in old houses. However, shortage of money or physical limitations make it nearly impossible to perform major maintenance work, thereby setting the scene for potentially under-maintained houses. Additionally, it is evident that some elderly homeowners would be better off in a senior (independent or assisted) living setting rather than living in their own homes where they are more likely to be lonely and vulnerable. As mentioned, however, these homeowners are not directly discussed in this analysis. Even if discussion addressed elderly homeowners, their true needs might not surface through 'cost burden' filter since many have paid off their mortgage and/or enjoy homestead exemption.

## **METHODOLOGICAL REMARKS**

A number of constraints affected the results of the housing needs assessment:

- Geographic Unit of Reference: HUD generated and manipulated data bases (CHAS, 2020 software) relevant to the housing needs assessment is mostly available at the county level. When Counties consist of more than one Census Tract, Census Tract data is inconsistent with total county data (discrepancies between CHAS and 2020). Other sources of data (Census Bureau updates, U.S. Dep. of Commerce, Nebraska Consolidated Plan) also tend to treat the County as the smallest unit of reference. Therefore, Lynch specific needs were determined based on the relative size of its population in Boone County and adjusted according to current information available locally.
- Current Information: The most comprehensive data available for the housing needs assessment is based on 1990 Census. Some estimations are conducted annually by the Census Bureau, the U.S. Department of Commerce, and other government agencies. However, these estimations are insufficient to determine current local income distribution, immigration, and breakdown of the age structure of the elderly (65 years and older).
- Nebraska Reference: The existing Nebraska State Consolidated Plan, with which this needs assessment should be in compliance, is applicable to the years 1990-2000. The State of Nebraska is currently in the process of creating a new consolidated plan, which should be available in the summer of 2000.
  - υ Given the above constraints, the needs assessment presented in this agency plan is based on 1990 data.
  - υ The recent years' crisis in Nebraska farm economy means that the needs assessment for Lynch should be reviewed with caution. Anecdotal information suggests that current population is economically stressed. Accordingly, it is

possible that current number of families experiencing housing cost over burden is higher than in 1990. Anecdotal information (and mere demographics) suggests that the population is aging. However, there is no data to indicate whether the elderly age in the village or move to towns with assisted living. Lack of information also makes it impossible to estimate the migration trend among the younger population. As a generalization, a lower mobility is expected among the poor middle age population and the young elderly (65-74) who still reside and work in their farm. However, there are no accurate numbers to substantiate the above observations, thereby contribute to a more accurate needs assessment.

- Target Population: In assessing the housing needs, we have accounted for income, housing tenure, cost burden, and known (CHAS) problems with housing structure. The needs assessment does not account for needs of [some] elderly for more age appropriate housing in cases where needs do not surface through the above criteria. In other words, elderly individuals and families who enjoy homestead exemption, have paid off their mortgage, and reside in a reasonably maintained house were not considered as having a problem. As noted above, there is evidence that some elderly can benefit from living in a congregate living setting (outside their home) were they can feel safe and less lonely.
- Needs Results: As shown in the table below, there seems to a be a low need for affordable rental units. These results reflect the fact that most of the critical needs are addressed by the housing authority, and the overall small number of households in Lynch. At the same time, these needs seem to reflect a general reluctance of local residents (especially elderly) to move into the public housing (image), lack of community support and competition in the market.

**BACKGROUND - GENERAL CONDITIONS**

**Population:** Lynch is located in Boyd County. Its 1990 and 1998 population consisted of about 8-9% of County population. Both the County and Lynch are estimated (Census Bureau) to have experienced a substantial population loss 1990 to 1998 (28% and 19% respectively). Although accurate information is not available, the overall trend in Rural Nebraska suggests that the greatest loss of population is in the young (20-40 years old) age groups. Analysis of the devastating impact of the population loss is beyond the scope of this context.

The population is aging and was aging before the recent years' trend. About one fifth of 1990 population was 65 years and older (compared to an average 14% in Nebraska). These elderly consisted of nearly 13% of the County elderly population, which is a large proportion compared to the relative size of the total population.

Source: Census Bureau

**Housing Stock:** The housing stock is rather old. The structure of over two thirds of the 1990 housing units were 60 years and older; additional 19% are now 40-60 years old.

The majority (83%) of 1990 housing units was owner occupied. About one third of homeowners were (and probably still are) elderly. Consistent with general 'rule of thumb' the number of elderly renters is relatively low (22%). However, one should note that homeownership is not necessarily the most desired living setting for the aged. Anecdotal information suggests that a great deal of elderly are at their 70s and frail. The conditions at the housing authority, with its 14 elderly units, clearly reflect the conditions in the town. The majority of residents are 70-80 years old, with a growing need for assistance to manage their life. Although residents prefer to remain in their current unit, lack of support services gradually forces them out of public housing. Due to lack of assistance elsewhere in Lynch, residents are also forced to move into assisted living outside the town. While out-of-town assistance is the only option, local elderly refuse to move to public housing as an intermediately solution. Consequently, the housing authority is struggling with a shrinking demand base and a growing

vacancy problem. It is estimated that vacancies will remain a problem for as long as residents do not have easy access to support services.

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. ### C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

#### (1) Strategies

**Need: Shortage of affordable housing for all eligible populations**

**Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:**

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units

- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

**Strategy 2: Increase the number of affordable housing units by:**

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

**Need: Specific Family Types: Families at or below 30% of median**

**Strategy 1: Target available assistance to families at or below 30 % of AMI**

Select all that apply

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

**Need: Specific Family Types: Families at or below 50% of median**

**Strategy 1: Target available assistance to families at or below 50% of AMI**

Select all that apply

- Employ admissions preferences aimed at families who are working
- Adopt rent policies to support and encourage work
- Other: (list below)

**Need: Specific Family Types: The Elderly**

**Strategy 1: Target available assistance to the elderly:**

Select all that apply

- Seek designation of public housing for the elderly
- Apply for special-purpose vouchers targeted to the elderly, should they become available
- Other: (list below) Seek ways to provide supportive services to aging population.

**Need: Specific Family Types: Families with Disabilities**

**Strategy 1: Target available assistance to Families with Disabilities:**

Select all that apply

- Seek designation of public housing for families with disabilities
- Carry out the modifications needed in public housing based on the section 504 Needs Assessment for Public Housing
- Apply for special-purpose vouchers targeted to families with disabilities, should they become available
- Affirmatively market to local non-profit agencies that assist families with disabilities
- Other: (list below)

**Need: Specific Family Types: Races or ethnicities with disproportionate housing needs**

**Strategy 1: Increase awareness of PHA resources among families of races and ethnicities with disproportionate needs:**

Select if applicable

- Affirmatively market to races/ethnicities shown to have disproportionate housing needs
- Other: (list below)

**Strategy 2: Conduct activities to affirmatively further fair housing**

Select all that apply

- Counsel section 8 tenants as to location of units outside of areas of poverty or minority concentration and assist them to locate those units
- Market the section 8 program to owners outside of areas of poverty /minority concentrations
- Other: (list below)

**Other Housing Needs & Strategies: (list needs and strategies below)**

**(2) Reasons for Selecting Strategies**

Of the factors listed below, select all that influenced the PHA's selection of the strategies it will pursue:

- Funding constraints
- Staffing constraints
- Limited availability of sites for assisted housing
- Extent to which particular housing needs are met by other organizations in the community
- Evidence of housing needs as demonstrated in the Consolidated Plan and other information available to the PHA
- Influence of the housing market on PHA programs
- Community priorities regarding housing assistance
- Results of consultation with local or state government
- Results of consultation with residents and the Resident Advisory Board
- Results of consultation with advocacy groups
