ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

The Niobrara Housing Authority Agency Plan's main goal is to make the housing units more compatible in the community, and to make the Housing Authority affordable housing of choice for the very low-income residents of our community.

In accordance with Quality Housing Work Responsibility Act, Interim Rule, our Housing Authority is hereby presenting an Annual Plan to guide our work during the upcoming fiscal year and clearly communicate to the public the principles that guide our work. Below are the highlights of the Annual Plan:

- The housing needs assessment for our jurisdiction suggests a primary need to ensure that the existing housing remain affordable to the elderly, low-moderate income and special needs population. Accordingly, our strategies to meet these needs are reflected in the Annual Plan
- Financially, the housing authority is anticipating a Year 2000 budget of \$78,345.

Sources consist of:

- 60.0% (\$47,027) - Government Grants;
- 37.0% (\$29,088) - Estimated rental income;
- 3.0% (\$ 2,230) - Estimated non-government income (mostly investment interest).

The income shall be invested as follows:

About half of the budget is invested in program administration, taxes, and such miscellaneous; about one third is invested in capital improvement of the existing housing; the rest is applied toward routine maintenance of units, reserves for non routine works and general requirements.

- Programs of the housing authority cover a large number of aspects, as described in the Agency Plan. The important changes that we have made in compliance with the QHWRA include:
 - Admission Preferences shall be granted to elderly, disabled, or handicapped (1); victims of domestic abuse and substandard housing (3); and all other low- and moderate-income families and individuals.
 - Income-based rents are set at the higher of 30% of adjusted monthly income, 10% of unadjusted monthly income, the ceiling rent, minimum rent, or flat rate rent. (less HUD mandatory deductions and exclusions. Minimum Rent of \$50; ceiling rents of \$325 per 1 BR units and \$350 per 2 BR units. Flat rents: \$275 per 1 BR unit, \$300 per 2 BR unit. Rates are based on market fluctuation and provided they cover our operation expenses.
 - Capital improvement plan was determined based on input from residents, the Board of Commissioners, and the general public. For detailed tasks, please refer to the Plan.

We hope that you will benefit by reading this agency plan.

Suggestions on how to improve our service, and general comments would be appreciated.

Sincerely,

Diane Crosley
Executive Director

Disclaimer

In accordance with QHWRA and the principles of the agency plan, the housing authority will submit to HUD details of cases in which its discretionary policies, decisions, and practices have resulted or are expected to result in a 'substantial deviation' from, or require significant amendments/modifications of, the Annual and/or Five Year Plans. 'Substantial deviation or significant amendments and modifications' refer to changes in the agency's core purpose (mission and goals) and key operating principles (including, but not limited to, strategies and policies) that were articulated in the most recent Annual and Five Year Plans. All changes must be approved by the Board of Commissioners.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

The village of Niobrara is located in Northeast Nebraska. The 1990 Village population was 188 households or 393 persons. This is a small proportion of the County population (4.9% of households and 4.9% of the persons) and the Census Tract (16% of households and 12.6% of the persons). Although the Niobrara Housing Authority predominantly serves the Village residents, its potential market area extends beyond the Village boundaries. As the population in rural Knox County ages, it is expected that some elderly who will no longer be able to farm their land will choose to retire in Niobrara.

Based on the above expectation and the fact that a great deal of HUD related Census Data is available at the Census Tract level, the housing needs assessment covers Census Tract #311079761. We shall refer to this area as the Niobrara Market Area. Further, needs assessment is based on 1990 Census data and 1995-2000 State Consolidated Plan. Due to constraints under which the needs assessment was conducted (QHWRA Agency Plan) the study did not cover a field study to verify components such as housing conditions, vacancies, and new construction. By implication, the Study assumes no drastic changes in the housing market during the post-census years. Below is a summary of the major demographic characteristics of the market area.

Population

In 1990, the Niobrara Market Area had a population of 3,123 persons and 1,178 households. This population was old compared to the State urban areas and the national average. As presented above, the proportion of elderly is high – 31.6% of persons and 46.3% of households are 65+ years old. For a comparison, the elderly population in Nebraska large Cities ranges between 9% to 15% of the total population. Given national and state demographic trends (aging of ‘baby boomers’, increase in life expectancy) it is safe to assume that the existing population will continue to age. Nevertheless, the relative size of the elderly is a function of the size of the total population. Growth in total population can result in a smaller proportion of the elderly.

Race and Ethnicity

The 1990 Market Area was homogeneous. The Niobrara Indian reservation consisted of about 15% of the population, with 85% ‘white’. Currently, the Indian reservation operates as a separate system that is not likely to be impacted by the Niobrara housing market.

Housing Units

1990 housing stock consisted of 1,613 units, of which 1,199 (74%) were occupied. Vacancy rate was at 26%, which is considered high. Typically, such high vacancy rate indicates poor housing conditions, population loss, or other components of limited economic base. There is not sufficient information to explain the (1990) vacancy rate. About 65% of the housing units in the Market Area and 72% in Niobrara Village are owner occupied. No major construction activities during the past 5 years (1995-1999) was identified for this study.

Housing Conditions

There is no available information concerning the condition of the housing units in the Niobrara Market Area. 1990 Census data shows that there are 63 housing units in the Market Area with incomplete plumbing. None of these units are located in Niobrara Village. Further, the median year housing structure was built was 1970. This could be an indication of some construction activities, especially compared to many other rural villages where the average year is 1939.

Geographic Distribution & Concentration

Neither Niobrara Village nor the Niobrara Market Area experience concentration of low-moderate income population and/or ethnic groups in one area. The case of the Indian reservation is not applicable to the present Agency Plan.

Income Distribution

The 1990 population was relatively poor, with about 17% of total households (197 HH) having income that is below 30% the HUD Adjusted Family Median Income (HAMFI) (very-low income), and 14.9% households (176 HH) with income at 31%-50% of the HAMFI . Low-income rate was especially prevalent among the elderly, with about 70% low-moderate income households. The Median Household Income (MHI) was in 1990 at \$18,654 and the Median Family Income (MFI) was \$22,055.

In light of the current crisis in the farm economy, it is reasonable to assume that the number of households experiencing financial distress has not drastically changed.

Accurate information concerning Niobrara is not available. However, Census data points that the village population is slightly better off compared to the Census Tract.

Elderly and Special Needs

The elderly population is especially poor -- 62% of 1990 total households with income below 30% of MHI were elderly.

The only known housing for the elderly in Niobrara are the units managed by the Niobrara Housing Authority. No plans to develop care facilities for the elderly and other special needs were identified. This means that all elderly who require some assistance in performing daily activities are forced out of the area to special care senior housing (assisted living) or nursing homes.

Housing Affordability

The table on the following page lists the 1990 households with low income that experienced housing cost burden above 30% of their income. According to the data, the lower the income, the higher the probability to experience housing cost burden. Further, very low income households are more likely to rent their home and experience cost burden. As previously noted, the elderly experienced housing cost burden at a relatively high rate compared to the younger population. Unlike other regions in Nebraska, however, renters do not experience cost burden that is substantially higher than homeowners.

Given our special interest in the Niobrara Housing Authority, available data suggests that about 20% of very low to moderate income households experienced housing cost burden. This rate is low compared to the average Nebraska community, in which at least one third of low-moderate income renter households experience cost burden. Of the above, only 8 low-moderate income renter households (23%) experienced cost burden, which is low compared to other NE communities. About 19% of elderly households with low-moderate income experience cost over burden. This is a very low rate compared to other Nebraska communities, where this rate can reach 60%. In particular, only 3 elderly households who rent their homes experience cost burden. This is most likely a result of available of affordable housing (managed by the Niobrara Housing Authority).

B. Housing Needs of Families on the Public Housing and Section 8 Tenant- Based Assistance Waiting Lists

The Niobrara Housing Authority does not currently have a waiting list. We've had a waiting list for only two weeks since the 1980's. The reason being that we are a small community, and applications typically are not filled out until an apartment has become available. Not having a waiting list makes it impossible to complete this section of the Agency Plan.

C. Strategy for Addressing Needs

The Niobrara Housing Authority shall continue to modernize the Housing Authority, and shall encourage interested parties to apply for an apartment before a vacancy occurs by advertising in the local papers.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration

- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other

The Niobrara Housing Authority shall promote a motivating work environment with a capable and efficient team of employees to operate as a customer-friendly and fiscally prudent leader in the affordable housing industry.

Strategy 2: Increase the number of affordable housing units by:

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

Need: Specific Family Types: Families at or below 30% of median

Strategy 1: Target available assistance to families at or below 30 % of AMI

- Exceed HUD federal targeting requirements for families at or below 30% of AMI in public housing
- Exceed HUD federal targeting requirements for families at or below 30% of AMI in tenant-based section 8 assistance
- Employ admissions preferences aimed at families with economic hardships
- Adopt rent policies to support and encourage work
- Other: (list below)

Need: Specific Family Types: Families at or below 50% of median

Other Housing Needs & Strategies: (list needs and strategies below)

We do not see a need to add to our community's housing. Our main goal is to improve on the housing that exist as resources become available. Whenever possible, we will respond to HUD NOFAs (Notices of Funding Availability) to improve the affordable housing in Niobrara.

We expect to receive CIAP funds this year. If we are granted CIAP monies, we will purchase a computer, fax, and internet access. This will enhance our work productivity. Monies not used to bring the office up to date will be used to implement our objectives outlined in this agency plan. Priorities and guidelines for programs often change from year to year and our decisions to pursue certain opportunities and resources may also change over the coming year if there are program changes beyond our control. Should changes prove necessary, we shall record them in the next Annual Agency Plan.

For additional information, please refer to the Needs Assessment.
