ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

The Norfolk Housing Authority has prepared this Agency Plan in compliance with Section 511 of the Quality Housing and Work Responsibility Act of 1998 and the ensuing HUD requirements.

We have adopted the following mission statement to guide the activities of the Norfolk Housing Authority.

The mission of the Norfolk Housing Authority is to promote adequate, affordable housing, economic opportunity, and a suitable living environment for the families we serve, without discrimination.

We have also adopted the following goals and objectives for the next five years.

Goal One: Manage the Norfolk Housing Authority's existing tenant-based programs in an efficient and effective manner thereby qualifying as at least a standard performer under SEMAP.

Objectives:

1. HUD shall recognize the Norfolk Housing Authority as a high performer by December 31, 2004.
2. The Norfolk Housing Authority shall promote a motivating work environment with a capable and efficient team of employees to operate as a customer-friendly and fiscally prudent leader in the affordable housing industry.

Goal Two: Expand the range and quality of housing choices available to participants in the Norfolk Housing Authority's tenant-based assistance program.

Objectives:

1. The Norfolk Housing Authority shall encourage the Family Self-Sufficiency

participants to use the FSS program as a stepping stone to become homeowners by December 31, 2004.

2. The Norfolk Housing Authority shall achieve and sustain a utilization rate of 95% by December 31, 2004, in its tenant-based program.
3. The Norfolk Housing Authority shall continue to attract new landlords who want to participate in the program by December 31, 2004.

Goal Three: Manage the Norfolk Housing Authority in a manner that results in full compliance with applicable statutes and regulations as defined by program audit findings.

Objectives:

1. Staff will attend training and workshops to keep current on Federal regulations.
2. Staff will utilize NAHRO and the internet for up-to-date information regarding the industry.

Goal Four: The Norfolk Housing Authority shall ensure equal treatment of all applicants, residents, tenant-based participants, employees, and vendors.

Objectives:

1. The Norfolk Housing Authority shall encourage mixing of the Section 8 population as much as possible throughout the community with respect to ethnicity, race, and income.

Our Annual Plan is based on the premise that if we accomplish our goals and objectives we will be working towards the achievement of our mission.

The plans, statements, budget summary, policies, etc. set forth in the Annual Plan all lead towards the accomplishment of our goals and objectives. Taken as a whole, they outline a comprehensive approach towards our goals and objectives and are consistent with the Consolidated Plan. Here are just a few highlights of our Annual Plan:

- We are retaining the calculation of the participant's contribution at greatest of 30% of adjusted income, 10% of monthly income, or shelter rent.
- We are not adding any income exclusions to the statutory ones in the calculation of adjusted income because we cannot afford to do so at a time when the Federal government is under-funding housing opportunities.
- We have determined that any income increase of \$100 dollars per month or more shall be reported within 10 days of the increase. Any increase less than \$100 dollars per month need not be reported.
- We have determined to use the published FMRs as our payment standard. We anticipate re-examining this issue for next year's Agency Plan when the future course of the program

is clearer.

- We have established a minimum rent of \$25.

In summary, we are on course to improve the condition of affordable housing in Norfolk

C. Strategy for Addressing Needs

The Quality Housing and Work Responsibility Act of 1998 requires that housing authorities set forth in our Annual Plan a Needs Assessment of the housing needs of our jurisdiction and our waiting list. Also, we are required to state how we intend to address these needs.

Attached is the information contained in the Housing Needs Section of our Consolidated Plan. It shows there is a significant need for additional affordable housing resources in our community. Since the Consolidated Plan was put together, a meat packing industry has closed and there is now an 11% vacancy rate of apartment units throughout the community. This information was provided by a June 1999 vacancy survey performed by the Norfolk Housing Authority. Also, per the requirements, we have attached data and tables that provide an analysis of our waiting list.

The information was analyzed in the following manner. We have gathered data from our waiting list, the Nebraska Department of Economic Development Consolidated Plan of 1995, the Nebraska Fair Housing Strategy of 1997, the City of Norfolk Housing Market Analysis of 1995, and Norfolk Housing Authority rental vacancy surveys conducted semi-annually, with the most recent survey conducted in June 1999. Then we looked at this information from the perspective of the required groups and for the factors set forth in the Interim Rule. Finally, we consulted with the creators of the Nebraska Department of Economic Development Consolidated Plan to ensure that they agree with our analysis. The Norfolk Housing Authority used this analysis to prepare our five-year goals and objectives. It reflects our priorities that we have set forth in our Mission statement.

Our agency is part of the entire effort undertaken by the City to address our jurisdiction's affordable housing needs. While we cannot ourselves meet the entire need identified here, in accordance with our goals included in this Plan, we will try to address some of the identified needs by using appropriate resources to maintain and preserve our existing stock. When appropriate and feasible, we will apply for additional grants and loans from federal, state and local sources, including private sources to help add to the affordable housing available in our community. We intend to work with our local partners, the City of Norfolk and the Community Housing Development Organization (CHDO) to try to meet these identified needs.

This year, we expect to receive \$674,518 for our existing programs, which includes Section 8 rental assistance and Family Self-Sufficiency grants. We will continue to use those resources to house people. We do not intend to apply for additional funding due to a short waiting list. Priorities and guidelines for programs often change from year to year and our decisions to pursue certain opportunities and resources may also change over the coming year if there are program changes beyond our control.

The following is a discussion of statistics indicated about the types and amounts of housing needs in Norfolk. The research methodology used to estimate and project affordable housing demand involved the application of ratios of households with problems evident in 1990 to projected 1995 to 1999 household estimates. According to the Nebraska Department of Economic Development Consolidated Plan, the City of Norfolk Housing Market Analysis of 1995, and the June 1999 Norfolk Housing Authority rental vacancy survey, households with problems are:

- (1) persons and families living in overcrowded conditions (greater than 1.01 persons/room); or
- (2) persons and families cost burdened (paying more than 30 percent of income for housing including utilities). Severely cost burdened means that the person or family is paying more than 50% of their income for housing including utilities.
- (3) Extremely low income families have increasing difficulty finding affordable, quality housing.

Norfolk is a first-class city in northeast Nebraska that had a population of 21,476 as of the 1990 US Census Data. As of 1990, the population was made up of 20,614 white, 269 Hispanic, 239 Black, 150 American Indian, 78 Asian and 126 other races. The estimated population today is 23,500.

When a severe housing shortage was created by Beef America's expansion in the late 1980s and early 1990s, the city responded with a series of housing studies. The most recent study is March 1995. At the time of the 1995 study, it was determined that Norfolk had a critical housing shortage both for rental units and in home ownership. In July 1998, Beef America closed, resulting in people moving away from the community. The Housing Development Division, of which the Housing Authority is a part, performs semi-annual apartment rental vacancy studies in June and December. The most recent study, June 1999 indicates an 11.02 percent vacancy rate, up from 8.2 percent in December 1998. The closing of the Beef America plant reduced the shortage, but a recent announcement of the re-opening of the plant in the spring of 2000, with much fewer employees, could bring about a tighter housing market.

The Norfolk Housing Authority is a Division of the City of Norfolk, and this Division includes the management of the Housing Development Division. In this capacity, the Housing Development Division is involved in a partnership with the Community Housing Development Organization (CHDO) in building 36 homes for low to moderate income persons. This Division is also responsible for management of a 56 unit apartment complex recently purchased by the Housing Authority with administrative fees. The apartment complex works primarily with low to moderate income renters. In addition, the Division

oversees a newly acquired CDBG grant to rehabilitate approximately 27 homes for low to moderate income home owners. While it would appear in this plan that the Housing Authority is only involved in the Section 8 rental assistance and Family Self-Sufficiency program, actually much more housing activity is occurring within the Housing Division.

The 1995 Housing Study indicates there are a total of 8,877 households, of which 5,074 (57%) are owner occupied, and 3,338 (38%) are renter occupied. It is estimated the 2000 census will reflect 10,526 households, of which 5,758 (54.7%) are owner occupied, and 4,071 (39%) will be renter occupied.

Fifty-three percent of all households are low to moderate income in Norfolk.

A total of 1,866 additional housing units are needed in Norfolk between 1990 and 2000. A total of 1,328 units were built from 1990 through 1998 (767 single-family, 561 multi-family units). The past two years have been tremendous growth in new single-unit and multiple-unit housing developments. Today there are 5,761 owner occupied units in Norfolk. This is an increase of 687 units since 1990. However, to meet the projected needs by 2000, another 538 more units must be constructed in the next year. Rental units have increased by 66 in 1998 alone.

The waiting list for the Housing Authority is short, with the average wait approximately 4-6 weeks. There are 14 households on the Section 8 waiting list.

A concern of the Housing Authority is its ability to assist clients in finding affordable housing to meet federal requirements. Rental rates and housing quality standards are often a barrier.

Finding larger units, especially for our Hispanic community is also a barrier.

- Attached at Attachment (File name)
- Provided below:

The Norfolk Housing Authority has engaged in an extensive process of seeking resident and public comments on our Agency Plan. In the course of compiling the Plan we engaged in the following process.

After sending a letter to everyone in the Section 8 program, we randomly selected three individuals who were interested in compiling the agency plan. We held a meeting with them and got their comments and concerns about the plan. We also invited them to the public hearing on September 10, 1999.

Attached are copies of the advertisement we ran and sign-in sheets from the public hearing.

As a result of this effort, we received the following comments and responded to them in the following manner.

Why are landlords so resistant to participating in the Section 8 program? For instance, the new Amberwood Apartments claim to be family oriented. When calling around looking for units, she had a hard time finding landlord willing to work with this program.

How does the Housing Authority get new units built? Talk to developers?

Can you put together a sheet that the clients can give to landlords about the program?

Low income are good people. Successful children come out of low income families. We're not low life just because we are low income.

There aren't enough 3 bedroom apartments in town for families that don't want to rent a house.

Can landlords raise the rent anytime they want to?

The HUD Rental assistance check is more dependable than a check from a person off the street.

When talking to landlords about the Section 8 program, what should be said to landlords about how the program works?

In response to the comments above, our Authority will put together information so that the client can provide more information to the landlords while searching for units. Also, the Authority will work with landlords to see if more 3 bedroom apartment units can be built.

3. In what manner did the PHA address those comments? (select all that apply)

- Considered comments, but determined that no changes to the PHA Plan were necessary.
- The PHA changed portions of the PHA Plan in response to comments
List changes below:
- Other: (list below)
