## C. Criteria for Substantial Deviation and Significant Amendments

### 1. Amendment and Deviation Definitions

24 CFR Part 903.7(r)

PHAs are required to define and adopt their own standards of substantial deviation from the 5-year Plan and Significant Amendment to the Annual Plan. The definition of significant amendment is important because it defines when the PHA will subject a change to the policies or activities described in the Annual Plan to full public hearing and HUD review before implementation.

**A. Substantial Deviation from the 5-year Plan:** The adoption of all annual PHA Plans will be deemed to be substantial deviations from the 5-year Plan and will be subject to full public hearings and HUD review prior to implementation.

**B. Significant Amendment or Modification to the Annual Plan:** Any changes in the Summit Housing Authority's "Admission & Occupancy Policy" will be deemed to be a significant amendment to the Authority's 5 Year Plan and will be subject to a full public hearing and HUD review prior to implementation. In addition, any QHWRA implementations that requires a public hearing will be deemed to be substantial modification to the 5 Year Plan and will be subject to a full public hearing and HUD review.

## **Required Attachment G: Brief Statement of Progress in Meeting 5-Year Plan Mission and Goals**

The Summit Housing Authority Board has been actively engaged in addressing unmet and emerging housing needs and community development objectives. The Authority's staff has identified a growing need for supportive services for our elderly residents; and has successfully sought state funding for supportive services. We are presently in the process of implementing this program. We have agreed to assist the City of Summit with the administration of the City's state-mandated affordable housing program; and we are working closely with the City of Summit on its Master Plan Update and on the city's Strategic Plan. Due to the availability of Capital Grant funding, there is substantial work underway to maintain the high quality of our assisted housing.

The Authority has adopted a policy to better address the needs of households on its family housing waiting list by financially assisting "over-housed" elderly residents in their transfer to our elderly housing; and thereby shortening the waiting list for our family housing units.

The Authority employed a consulting engineering firm to study the optimum replacement cycles for its mechanical equipment and building systems; and to review alternative mechanical systems for its total electric NJ17-3 elderly building. In addition, the Authority separately employed a design firm to address long-standing waterproofing and masonry problems at that senior housing building. While bids came in substantially over-budget; that project is presently in redesign and will shortly be re-bid.

In the area of resident safety, the Authority has improved the fire annunciator equipment at its elderly housing; and increased the frequency of the independent testing of its fire alarm equipment to better ensure the safety of this vulnerable population. The Authority is assisting the City of Summit and its emergency management officials in improving the city's local emergency response.

In the area of technology, the authority is presently exploring the possibility of upgrading its computer software to integrate its occupancy and rent recordkeeping; and thereby improve the administrative efficiency of its operations.
