As stated in the Executive Summary , the implementation of the **Quality Housing and Work Responsibility Act (1998 Act)** effective October 21, 1998, all public housing authorities must meet established goals and objectives. The Five-Year Agency Plan of the Cape May Housing Authority encompasses the goals and objectives of the Authority to be carried out over a five-year period; i. e., October 1, 2001 to September 30, 2005. Any substantial deviation from the Mission Statement and/or goals and Objectives presented in this Five-Year Plan that cause changes in the services provided to residents or significant changes to the Agency’s financial situation will be documented in subsequent Agency Plans.

The Goals and Objectives adopted by the Housing Authority of the City of Cape May are as follows:

GOAL #1: The Cape May Housing Authority’s mission is to manage its existing public housing program in an efficient and effective manner thereby qualifying as at least a “standard performer” under the Public Housing Assessment System.

- Objectives:**
1. The Authority anticipates retaining the status of “high performer” for two years out of the first five-year period presented in this Agency Plan.
 2. The Authority anticipates maintaining a waiting list of sufficient size so that the Authority can fill its public housing units within 15 days of their becoming vacant.
 3. The Housing Authority’s mission is to continue to maintain its rent collection at 95% or above over the next five years.
 4. The Housing Authority’s mission is to continue to sustain its occupancy rate of nothing less than 95% over the next five years.

 3. In order to improve the quality of individual dwelling units, the Authority anticipates painting 13 apartments a year over the next five-year period. The restriction of painting 13 units per year is due to the restriction of funds and the necessity of ensuring prudent fiscal management.

1. The Authority will continue to enforce a strong “One Strike and You’re Out” Policy.
 2. The Authority will continue to maintain and update its “Defiant Trespassers List” on a semi-annual basis.

 2. The Authority anticipates-to the extent possible with the availability of applicants with the appropriate income-being able to continue to maintain an equal balance and variety of incomes of residents below 30% of the Area Median Income, thereby reducing the possibility of taking further action regarding deconcentration.

ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

Overview

The focus of the 2020 Management Reform Plan is to prepare HUD to move into the 21st Century as a modernized and revitalized Department with restored public trust and adequate performance-based systems for its programs, operations and employees. Likewise, through the implementation of the 1998 Act, PHAs are required to assess management and operational practices and develop a plan that will ensure that the PHAs meet established goals and objectives. The Agency Plan combines the Five-Year Plan and the Annual Plan.

Purpose and Structure of the Agency Plan

The purpose of the Agency Plan is to empower and equip the PHA to exercise optimum flexibility in meeting local housing needs within the community while also meeting its own needs. The Agency Plan contains a FY-2001-FY-2005 Five-Year Plan that includes the Authority's mission and long range goals and objectives. The FY-2001 Annual Plan addresses the Authority's immediate operations, current policies, program participants, programs and services, and the PHA's strategy for handling operational concerns, resident concerns and needs, and programs and services for the upcoming fiscal year. The Agency Plan outlines the PHA's efforts in meeting the needs of the low, very-low and extremely-low income population in its community and effectively serves as a management, operational and accountability tool for the PHA.

Preliminary planning sessions were conducted with the Authority's residents, Resident Advisory Board, community leaders and organizations, and State and local authorities during the development of the Agency Plan to ensure that the needs of the residents and community are addressed in the Agency Plan. The Agency Plan is consistent with the Consolidated Plan/CHAS.

Status in Meeting Goals and Objectives

This is the Authority's first submission of the Agency Plan. Progress towards meeting goals and objectives will be monitored by the Executive Director and Board of Commissioners. Progress will be documented in this section of the Plan in future years.

Deviation from Five Year Plan

Any substantial deviation from the Mission Statement and/or Goals and Objectives presented in the Five-Year Plan that cause changes in the services provided to residents or significant changes to the Agency’s financial situation will be documented in subsequent Agency Plans.

DECONCENTRATION POLICY

Introduction

The Quality Housing and Work Responsibility Act of 1998 (QHWRA) requires that the Authority adopt policies and procedures governing the deconcentration of very low-income families and income mixing as required by section 10(a)(3)(B) of the 1937 Housing Act. To implement this requirement, the Authority will compare the relative incomes of each development occupied predominantly by families with children. A development with more than 50% of its occupants being families with children shall be considered to fall under this policy.

The goal of this policy is to create mixed-income communities and lessen the concentration of very low-income families within the Authority's public housing developments through admissions practices designed to bring in higher income tenants to lower income developments and lower income tenants into higher income developments.

The Deconcentration Policy is intended to work in conjunction with the Authority's annual income targeting requirements. The Policy requires that 40% of all new admissions to public housing developments during a fiscal year must be residents whose household income, at the time of admission, is equal to or lower than 30% of the Area Median Income. This "income targeting" requirement is separate from the Deconcentration Policy, which is comparative in nature.

Definitions

The following definitions are provided in order to clearly and define the affected developments and families under this Deconcentration Policy.

PHA-Wide Average Household Income: The average annual household income of all residents of all developments with more than 50% of its occupants being families with children.

Development Average Household Income: The average annual household income of all residents of a specific development with more than 50% of its occupants being families with children.

Higher Income Development: A development where the Development Average Household Income is greater than 120% of the PHA-Wide Average Household Income.

Lower Income Development: A development where the Development Average Household Income is less than 80% of the PHA-Wide Average Household Income.

Higher Income Family: A family whose annual household income is greater than 120% of the PHA-Wide Average Household Income.

Lower Income Family: A family whose annual household income is less than 80% of the PHA-Wide Average Household Income.

Testing

In order to achieve and maintain deconcentration, the Authority will calculate the PHA-Wide Average Household Income for all developments with 50% or more of its occupants being families with children on at least an annual basis. At the same time, the Authority will calculate the Development Average Household Income for each development with 50% or more of its occupants being families with children. The results shall be documented as follows:

- a) If the Development Average Household Income for a particular development is greater than 120% of the PHA-Wide Average Household Income, then that development shall be identified as a High-Income Development.
- b) If the Development Average Household Income for a particular development is less than 80% of the PHA-Wide Average Household Income, then that development shall be identified as a Low-Income Development.

Testing can be run more frequently to determine the effectiveness of various initiatives employed to achieve deconcentration.

Corrective Action

Once a development has been identified as a High-Income Development or a Low-Income Development, the Authority will define and communicate specific procedures to be employed with the goal of achieving deconcentration. It is the goal of the Authority to generally increase the level of income for residents of public housing, create more stratified developments, and obtain agency self sufficiency, therefore; the Deconcentration Policy shall not be employed to be counterproductive to that goal. In addition, the policy will, under no circumstances, be employed though steering or in any way reducing the choice in residence of the individual family.

In order to correct a concentrated development, the Authority will, to the greatest extent possible, provide incentives to promote a Lower-Income Family to select a Higher-Income Development and to promote a Higher-Income Family to select a Lower-Income Development.

Procedures to be employed in the development of a corrective action plan may include:

- a) Incentives to select particular developments.
- b) Payment Plans for deposits.
- c) Flexibility in move-in dates.

Since it is impossible to design a policy that will address every scenario, the Authority will, upon the identification of a need to deconcentrate, develop a specific Action Plan that will be included in the Annual Plan update.

**Resident Advisory Board
Comments and Suggestions**

Summary

The Department of Housing and Urban Development requires each housing authority to respond to the comments and suggestions made by its Resident Advisory Board to that authority's Five-Year Agency Plan. On March 7, 2000, the management of the Cape May Housing Authority met with its Resident Advisory Board to review the CMHA Five-Year Agency Plan. The following is a summary of the comments and/or suggestions as well as the response given by the Authority:

Comment:

Four Resident Advisory Board members expressed approval of the Authority's Five-Year Agency Plan and considered the implementation of the Agency Plan to be beneficial to the Cape May Housing Authority. Several RAB members expressed the hope that the Agency Plan would be followed as written.

Response:

The Authority was pleased that the RAB members approved of the Agency Plan. A great deal of effort went into making the Agency Plan easy to read and comprehensive while retaining the integrity of the material. The Authority intends to operate according to its Five-Year Agency Plan and remain fully compliant in all aspects of the Agency Plan.

Comment:

Several of the RAB members expressed approval of the Resident Advisory Board and stated that the initiation of the RAB has shown that HUD is concerned for the rights and needs of the residents. Another RAB member believed that an adversarial relationship between the Authority and the residents is non-productive. However, by being a RAB member, residents will be more aware of what is transpiring at the Authority.

Response:

The Cape May Housing Authority intends to work closely with the RAB members and plans to provide financial support to the RAB in the sum of \$500 annually. These funds will be provided to the RAB to support the operation of that board. In addition, the Authority is providing paper supplies and other products necessary for the RAB to operate. Also, the Authority will give the RAB a computer and printer to assist the members in the publication of their newsletter to enhance the RAB's ability to communicate to the general tenant population.

Comment:

One RAB member requested that the Authority install a sign in the parking lot posting a five-mile an hour speed limit that will provide additional safety for the children playing during the summer months.

Response:

The Housing Authority agreed to install the sign as requested by the RAB members.

Comment:

Another RAB member told the Authority that letters should be sent to residents, who fail to maintain their apartments in a neat and orderly fashion. His concern is that the apartment complexes might become littered with various types of refuse.

Response:

The Authority agreed that it is important for each resident to maintain his/her unit in a neat, clean, and sanitary condition. The

Authority added that it will continue to complete annual inspections. Proper housekeeping standards will be strictly enforced.

Comment:

Two of the RAB members supported the Grievance Policy and procedures presented in the Five-Year Agency Plan. These residents believe it to be important to initiate the Grievance Policy as it is written.

Response:

The Authority was in full agreement with the Resident Advisory Board members. The solicitor also supported this initiative.

Comment:

As part of the meeting, several residents requested to know what the Authority planned to do to increase safety and services to upgrade the RASS scores.

Response:

The Authority shall take the following actions:

1. Continue to apply for DEP funds
2. Continue to maintain a close working relationship with the local police department
3. Upgrade lighting as funds permit
4. Approach the Resident Council to develop a "silent crime watch"
5. Continue a strong "One Strike and You're Out" policy
6. Continue to carefully screen applicants
7. Review the Defiant Trespassing List on a semi-annual basis
8. Post "Drug-Free Zone/Community" signs

Housing Needs Identified in the Comprehensive Plan for Cape May County, New Jersey when developing this Five-year Agency Plan

The first Cape May County Comprehensive Plan, adopted in 1962, lacked a specific section devoted to housing issues. Housing was addressed in general terms only under the land use section of the Plan and no analysis of countywide housing or housing needs were presented. The 1976 and 1978 versions of the Plan discussed housing policies, referring to the housing needs of low and moderate income persons. The reason for this discussion was the 1975 New Jersey Supreme Court ruling, commonly referred to as the Mt. Laurel decision. This decision stated that developing municipalities have a constitutional obligation to provide realistic opportunity for the construction of low and moderate-income housing. The decision eventually led to the adoption of the New Jersey Fair Housing Act in 1985 which, in turn, led to the formation of

the New Jersey Council on Affordable Housing. As a result, the 1985 Cape May County Comprehensive Plan was the first to address this municipal responsibility and establish County policies in this regard.

The Policy is as follows:

Each municipality should determine the range of housing programs to be utilized in fulfilling their low and moderate income housing obligations as determined by the New Jersey Council on Affordable Housing. Whenever possible, the County Planning Board will assist municipalities, upon request, in exploring the various alternatives that could enable them to meet this need. At a minimum, municipalities should provide for the following in order to meet their low and moderate income housing responsibility:

- Review of development ordinances to eliminate excessive cost generating items;
- Provide incentives or bonus zoning techniques for provision of low and moderate cost housing;
- Seek Federal and State funding for housing rehabilitation programs to aid low and moderate income families in meeting housing code requirements and;
- Encourage rehabilitation of older homes having good architectural and structural qualities.
