Comments of the Community Development Citizens Advisory Committee acting in their role as a Resident Advisory Board to the Section 8 Program

The Section 8 Administrator made a presentation to the Committee regarding the Section 8 Agency Plan. The following questions were received by members in attendance at the hearing of the Committee and by Committee Members. The answers are those of the Section 8 Administrator.

There was a question on income eligibility. In the past all applicants had to be within 50% of median income for the area. The regulations require income targeting. 75% of new admissions to the program must have incomes within 30% of median income. For example, in the past a family of two would need to have income below \$31,950.00 to qualify for admission under the previous regulations. Under the new regulations to qualify for income targeting that same family would have to have income below \$19,200. The next question regarded tenants who were being recertified. What affect what the new regulations have on the tenant if their income were to increase after admission? The new regulations only apply during initial admission to the program.

If a person qualifies under the category of rent burden, are they moved up on the list? The Agency Plan states that the highest criteria goes to those clients who have rent burden, substandard housing or involuntary displacement. For example, if a White Plains resident who is elderly and is paying more than 50% of their gross income for rent and utilities, they would be moved to the top of the list in a date time sequence.

Is it true that clients have had to turn back vouchers because people have not found apartments? During the last two years the City's lease up rate has dropped to approximately 65%. For this reason for every 100 vouchers issued there are 65 lease ups. How many vouchers are available? We have funding for approximately fifty families. Currently the waiting list consists of 1,100 families. How much time would an applicant have to wait for assistance? That depends on fund availability and how many families respond to requests for information?

If a person is already on the program do they have to reapply? No.

Do people have to look for their own apartments? Yes. How many Section 8

apartments are available in the City of White Plains? Based on past experience, 3-4 bedrooms zero chance of finding an apartment in this bedroom range, 2 bedroom apartments slight chance of finding an apartment, 1 bedroom apartment much better chance. Westchester County also has a Section 8 Program. If they issue a one or two bedroom voucher and the person wants to look for housing in the City of White Plains, Westchester County can lease up that family in White Plains without notifying our program. Therefore, we are in competition with the County and Shelter Plus for available apartments.

If the housing stock is so limited, why do they consider families who are nonresidents? We are required to by law. How do you find apartments? There are a limited number of landlords who chose to participate in the program. Would lead contamination qualify for involuntary displacement? No, the owner would be required to correct the problem.

The Section 8 Administrator made the following comments to the Committee. The program currently assists 330 families, priority being given to families that qualify for the former federal preferences, and that live or work in the City of White Plains. The City also has to determine the payment standards, this determines the level of subsidy. The City uses 100% of the Fair Market Rent, this can range anywhere between 90 and 110%. This can be reviewed and changed annually.

The Section 8 Family Self Sufficiency Program is briefly described in the Agency Plan, currently there are twenty three active participants. The coordinator at Family Services is presently working with two additional participants which will result in twenty five active participants. To date, one family has graduated from the program, the client is now able to pay her full rent and has received funds from her Escrow Account. The clients in our program receive counseling to become self sufficient through educational advancement and job opportunities. The coordinator who is employed to work with the families develops a Five Year Plan with each client. The Plan also states that the City of White Plains Section 8 Program will be applying for additional funding.

There are issues in the Administrative Plan which require the community to make a decision on where the old regulations specified what a community may do. The time limit on a housing voucher is now set by the community. It was set by HUD. We are recommending the same time limit, 120 days. Whether nonresidents are required to live in the community for one year before being allowed to move is determined by the community. In prior regulations the community required nonresidents to live in our community for one year prior to moving.
