**C. Strategy for Addressing Needs**

Provide a brief description of the PHA’s strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency’s reasons for choosing this strategy.

GMHA worked with the Housing Coalition of Greene County to design our priorities for the waiting list to respond to the needs in the community. Housing needs were prioritized so that the most housing needy would be highest on the waiting list. This is similar to what has been done in the past, except we now have more discretion. The priorities should work well for our community.

## **B. Other Information Required by HUD**

### **Substantial Deviation and Significant Amendment or Modification**

Substantial deviations or significant amendments or modifications are defined as discretionary changes in the plans or policies of the housing authority that fundamentally change the mission, goals, or objectives, or plans of the agency and which require formal approval of the Board of Commissioners.

### **Deconcentration Policy**

It is Greene Metropolitan Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we will skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Greene Metropolitan Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting lists. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

Use this section to provide any additional information requested by HUD.
