***DECONCENTRATION POLICY***

*[This is an excerpt from the Authority's Admissions and Occupancy Policy.]*

*It is the PHA's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. If needed, the Authority will skip families on the waiting list to reach other families with a lower or higher income.*

*The Authority will affirmatively market its housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income applicants will not be steered toward higher income developments.*

*Prior to the beginning of each fiscal year, the PHA will analyze the income levels of families residing in each of its developments, the income levels of census tracts in which the developments are located, and the income levels of the families on the waiting list. Based on this analysis, the PHA will determine the level of marketing strategies and deconcentration incentives to implement.*
