C. Strategy for Addressing Needs

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

The Housing Authority of McColl is part of the entire housing effort for the community. While we alone cannot meet every need, we will address some of the identified needs by using appropriate resources to maintain/upgrade/replace our existing stock. We will continue to provide housing assistance to meet the housing needs throughout our jurisdiction through rental of public housing. When appropriate and feasible, we will apply for additional grants and loans from federal, state, and local sources, including private sources to help add to the affordable housing available in our community. We intend to continue to work with our local partners to try to meet these identified needs.

Attachment “A”, Admissions Policy for Deconcentration (This is included in our current ACOP and the following is an excerpt from it.)

10.4 DECONCENTRATION POLICY

It is Housing Authority's policy to provide for deconcentration of poverty and encourage income mixing by bringing higher income families into lower income developments and lower income families into higher income developments. Toward this end, we may skip families on the waiting list to reach other families with a lower or higher income. We will accomplish this in a uniform and non-discriminating manner.

The Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered toward lower income developments and higher income people will not be steered toward higher income developments.

Prior to the beginning of each fiscal year, we will analyze the income levels of families residing in each of our developments, the income levels of census tracts in which our developments are located, and the income levels of the families on the waiting list. Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

10.5 Deconcentration Incentives

The Housing Authority may offer one or more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development.

Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and nondiscriminatory manner.
