ATTACHMENT A

DE-CONCENTRATION POLICY:

The objective of the MHA is to ensure that families are housed in a manner that will prevent a concentration of poverty families and/or a concentration of higher income families in any one development. The specific objective of MHA is that no less than 40% of families admitted to public housing must have incomes at or below 30% of the area median income by public housing development. MHA will take actions to achieve goals that no individual development has a concentration of higher income families. To ensure that MHA does not concentrate families with higher or lower income levels in any one development MHA will track the status of family income, by development, on a monthly basis utilizing reports generated by the MHA computer system.

To accomplish the de-concentration goals, the MHA will take the following actions:

1. At the beginning of each fiscal year, the MHA will establish a numerical goal for admission of families whose income are at or below 30% of the area median income. The target annual goal will be calculated by taking 40% of the total number of move ins from the previous year.
2. The MHA will limit the number of admissions to any one development to ensure that not less than 40% of admissions are families with incomes at or below 30% of the area median income.
3. The MHA will skip applicants on the waiting list or skip developments to accomplish these goals. However, "MHA will no hold units vacant to accomplish these goals".
