### **C. Strategy for Addressing Needs**

Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list **IN THE UPCOMING YEAR**, and the Agency's reasons for choosing this strategy.

**(1) Strategies**

**Need: Shortage of affordable housing for all eligible populations**

**Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:**

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
- Participate in the Consolidated Plan development process to ensure coordination with broader community strategies
- Other (list below)

**Strategy 2: Increase the number of affordable housing units by:**

Select all that apply

- Apply for additional section 8 units should they become available
- Leverage affordable housing resources in the community through the creation of mixed - finance housing
- Pursue housing resources other than public housing or Section 8 tenant-based assistance.
- Other: (list below)

**Need: Specific Family Types: Families at or below 30% of median**

### **THE FOLLOWING IS AN EXCERPT FROM THE POLICIES FOR DECONCENTRATION AS THEY ARE WRITTEN AND KEPT ON FILE AT THE MISSION HOUSING AUTHORITY**

#### **SECTION X           ADMISSION REQUIREMENTS - PRE & POST 1981**

The 1937 Housing Act and Amendments contains certain provisions pertaining to the admission of low-income and very low-income applicants to dwelling units available for occupancy before and after October 1, 1981. These requirements, which PHA's must comply with, are as follows:

##### **1. Units built prior to October 1, 1981**

Section 16(a) of the Housing Act of 1937 provides that not more than twenty-five percent (25) of the dwelling units that were available for occupancy under Annual Contributions Contracts (ACC) and Section 8 Housing Assistance Payments Contracts taking effect before October 1, 1981, and that are leased on or after that date, shall be available

for leasing by low-income families other than very low-income families. HUD reserves the right to limit the admission of low-income families other than very low-income families to these units.

The 25% figure applies nationwide. Since it is unlikely that the 25% figure will be reached nationwide, HUD has implemented these provisions for A "older" developments by placing restrictions on the number of low-income families who are not very low-income families.

The PHA will comply with HUD prescribed reporting requirements that will permit HUD to maintain reasonably current data as to the number of dwelling units assisted in the Public Housing and Indian Housing programs, in which developments for which initial occupancy began before October 1, 1981, and the number of families occupying such units which were admitted on or after July 1, 1984, and were not very low-income families at that time.

## 2. Units built after October 1, 1981

Section 16(b) of the Housing Act of 1937, as amended, provides that not more than five percent (5%) of the dwelling units that initially became available for occupancy under public housing ACC and Section 8 Housing Assistance Payments Contracts on or after October 1, 1981, shall be available for leasing by low-income families other than very low-income families.

No low-income family other than very low-income families shall, after July 1, 1984, be approved for admission to any unit in a public housing or Indian housing development for which initial occupancy began on or after October 1, 1981, except with prior approval of HUD.

The Cranston-Gonzalez National Affordable Housing Act of 1990 provides that no more than twenty-five (25%) of the units in any development shall be available for occupancy by low-income families other than very low-income families. However, the limitation does not apply to any developments in which low-income families other than very low-income families occupied more than 25% of the units within the development prior to November 28, 1990. Also, the statute provides an exception for units available to prevent displacement. (Reference; 42 U.S.C.A. 1437n(b)(1).

Consequently, the PHA will not permit the admission of any low-income families to its "new" developments unless HUD approves an exception.

A request by the Authority for approval of Admission of Low- Income families other than Very Low-Income families must state the basis for requesting the exception and provide supporting data.

Bases for exceptions that may be considered by HUD are:

- a. Need for a broader range of residents to obtain full occupancy.
- b. Local commitment to attain occupancy by families with a broad range of incomes.
- c. Need for higher incomes to sustain homeownership eligibility in a homeownership development.
- d. Need to avoid displacing low-income families from a development acquired by the Authority for Rehabilitation.
