ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

This is the Five-year Plan and Annual Plan for the Housing Authority of the City of Hale Center. The Housing Authority's fiscal year begins January 1, 2000. The Five-year plan is for fiscal years 2000 through 2004, and the Annual Plan is for fiscal year 2000.

The Housing Authority of the City of Hale Center administers 44 units of Public Housing, which are scattered among three sites. One site is completely dedicated to the Elderly/Disabled. The second site is split into two sections, with one-half dedicated to the Elderly/Disabled, and the other half for families. The third and largest site is a family site. The chart below gives the number of units by household type and bedroom size.

Elderly/Disabled		Family		
1-BR	2-BR	1-BR	2-BR	3-BR
16	2*	2	16*	8

* - Includes 1 Handicap Accessible Unit

A Board of Commissioners, consisting of five members appointed by the Mayor, oversees the agency. This includes a Resident Commissioner. The agency was established in 1965.

The Board adopted The Housing Authority's mission, stated above, on January 21, 2000. When the Board adopted this statement, it knew that there were many ways that the Authority could improve the way it provides adequate and affordable housing. Among these improvements are renovation and modernization of dwellings, and a concentrated effort to improve all management functions (especially Maintenance), with a goal of achieving High Performer status (over the next five years, will not be attainable this year). The mission statement also requires the Housing Authority to extend its' role beyond housing assistance and develop programs which provide economic self-sufficiency to the families it serves. Finally, the mission statement charges the authority to affirmatively further fair housing and deliver the programs in a way that all those served are treated equally with dignity and respect.

The Housing Authority plans to expand the supply of assisted housing by reducing the number of vacancy days at its' developments. The Housing Authority will reduce the vacancy rate by 25

percent; thus providing housing assistance to a greater number of low income families. The Housing Authority will achieve this goal by reducing make-ready and Lease-up times.

The Housing Authority further intends to increase the number of working families residing in Public Housing units. Currently, only 36% of non-elderly families work at least 32 hours per week, and 12% of non-elderly families work part time hours equal to 10 hours or less. The Housing Authority plans to increase the number of non-elderly working families by 25% over the next five years. The Housing Authority will accomplish this through a combination of flat rents, working preferences, travel allowances, and by providing and/or attracting supportive services to improve recipients' employability.

To increase existing housing choices, our small Housing Authority will work closely with the other PHAs in the surrounding communities that may have additional opportunities and /or vacancies.

The Housing Authority has two primary sources of funding: operating, and capital. Public Housing funding is currently under revision, and therefore, the Housing Authority's future funding amounts could be substantially altered. The figures in this plan do not reflect any impact from the upcoming changes in funding formulas, since the impact is unknown at this time. At the end of fiscal year 1999, operating reserves for this Housing Authority are estimated to be \$88,794.11. The budget for fiscal year 2000 plans for an estimated \$4993 of the operating reserve to be expended. However, the amount of operating subsidy is unknown and estimated at this time, and if it is higher than expected, the Housing Authority may be able to retain the current reserve level. In the following four years, the Housing Authority expects to retain and add to these reserve levels.

C. Strategy for Addressing Needs

Our PHA will address our needs by decreasing the time units are off-line, and by improving the perception of our "Target Site". Also, new management (3/99) has encountered a huge fraud problem, which decreased the number of units available to ELIGIBLE families, and families willing to obey the rules of the program. We have addressed this problem by adopting a zero-tolerance policy with regards to fraud.

(1) Strategies

Need: Shortage of affordable housing for all eligible populations

Strategy 1. Maximize the number of affordable units available to the PHA within its current resources by:

Select all that apply

- Employ effective maintenance and management policies to minimize the number of public housing units off-line
- Reduce turnover time for vacated public housing units. Reduce total Make-Ready times to 3 days or less, and Lease-Up times to 30 days or less.
- Reduce time to renovate public housing units
- Seek replacement of public housing units lost to the inventory through mixed finance development
- Seek replacement of public housing units lost to the inventory through section 8 replacement housing resources
- Maintain or increase section 8 lease-up rates by establishing payment standards that will enable families to rent throughout the jurisdiction
- Undertake measures to ensure access to affordable housing among families assisted by the PHA, regardless of unit size required
- Maintain or increase section 8 lease-up rates by marketing the program to owners, particularly those outside of areas of minority and poverty concentration
- Maintain or increase section 8 lease-up rates by effectively screening Section 8 applicants to increase owner acceptance of program
