### **ADMISSIONS POLICY FOR DECONCENTRATION**

**INTRODUCTION:** In an ongoing effort for the Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

**INCOME MIX TARGETING:** To meet the requirements of the Act and subsequent HUD regulations, at least 40 percent of families admitted in any fiscal year to public housing by the Housing Authority must have incomes that do not exceed 30% of the area median.

**PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES:** The Housing Authority will not, in meeting its deconcentration goals, violate the admissions requirement set forth by the QHWRA of 1998 (see preceding paragraph). The Housing Authority will review the income and occupancy characteristics of the housing projects and the buildings of each project annually to ensure that a low-income concentration does not occur or, that steps are taken to reduce any concentration of poverty already in existence.

**DECONCENTRATION:** The Housing Authority will make every effort to deconcentrate families of certain income characteristics within the Authority developments. To achieve this, the Housing Authority will, if needed, offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in projects predominantly occupied by eligible families having higher incomes. Incentives offered by the Housing Authority will allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the Housing Authority will not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list.

Selection will be made based on a combination of application date and time, and an income target mix. A family may be “skipped over” to offer a vacancy to the first qualifying family with a targeted income. This Authority will define a “higher-income family” as one earning more than the calculated average for that development, and a “lower-income family” as one earning less than the calculated average.

The Housing Authority will track the income mix within each project as an effort to avoid a concentration of higher or lower income families in any one building or development. From the tables below, there is a concentration of Very-Low income families in the Authority developments.

The HUD FY 99 Income Limits and Fair Market Rent Data show the thirty, fifty and eighty percents of the Median Income per number in a household are as follows:

# Person	30% of Extremely Low (\$)	50% Very Low (\$)	80% Low (\$)	Poverty Levels
1	7100	11850	19000	8350
2	8150	13550	21700	11250
3	9150	15250	24400	14150
4	10150	16950	27100	17050
5	11000	18300	29300	19950
6	11800	19650	31450	22850
7	12600	21000	33650	25750
8	13400	22350	35800	28650

On 2/24/2000, the Authority had 80 of its 80 public housing units filled as follows:

% of median	# families	%
0-30	68	85.0
31-50	11	13.8
51-80	1	1.3

Project	<30% of Median		<50% of Median		<80% of Median		Total Units and Vacancies	
	#	%	#	%	#	%	# Units	#Vacant
TX332-001	68	85.0	79	<b>98.8</b>	80	100	80	0
Waiting List	19	63.0	26	<b>86.7</b>	30	100	NA	NA

\*Public Housing and Section 8 Waiting Lists are combined

On 2/24/00, the Authority had 30 families on its waiting list. Of the total, 19 (63%) had incomes under 30% of the median, 7 (or 23%) had incomes above 30% but below 50% of the median, and 4 (13%) had incomes above 50% but less than 80% of the median income. At **\$23,200**, the Area Median Income is very high when compared to the average income in the development. The Authority's only development is divided between 5 sites that are scattered throughout the city, and as such, presents a lesser problem for concentration of poverty than if grouped together. The following is a breakdown of those sites:

Site	Census Tract/Poverty Level	Description
O	9502/50.4%	10 units – Elderly
Y	9501/24.5%	8 units – Elderly
H	9502/50.4%	25 Multi-family units
Z	9501/24.5%	29 Multi-family units
K	9502/50.4%	5 Multi-family units

The **Average Income** for the development is **\$6,488**.

The above analysis shows that over **98%** of its families earn less than 50% of the Area Median Income (AMI); **86%** for the waiting list. Obviously there is a concentration of poverty in this development. Sites O, H, and K are located in a census tract that has a poverty level of 50%. It will be necessary for the PHA to employ “skipping” to meet deconcentration and income mixing requirements. Therefore, an applicant with an income of less than **\$6,488** will be skipped over for an applicant with an income higher than **\$6,488** until such time as deconcentration is accomplished, or it becomes necessary to **maintain** the overriding goal of admissions set by the QHWRA of 1998. That is, at least forty (40) percent of all new leases will be to families that earn an amount equal to or less than thirty (30) percent of median income, according to family size (see table above). By directive, PHA may fall below this goal in sites O, H, & K if necessary, but not below 30 percent. It may also be necessary to employ other incentives to meet deconcentration goals. The PHA will periodically review these procedures and calculations to determine if any changes are required.
