In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

Waiting list for programs

B. Housing Needs of Families on the Public Housing and Section 8 Tenant- Based Assistance Waiting Lists

State the housing needs of the families on the PHA’s waiting list/s. **Complete one table for each type of PHA-wide waiting list administered by the PHA.** PHAs may provide separate tables for site-based or sub-jurisdictional public housing waiting lists at their option.

The Fond du Lac area has an extremely low unemployment rate and there is a low demand or need for subsidized units at this time. Current tax credits and low income developments should be preserved, if possible. The Housing Authority estimates that 20% to 30% of the units (57 to 85 residents) at Rosalind, Westnor and Grand Court Apartments will turnover per year for the next 5 years. The primary reason these one bedroom units are turning over is due to the age of the residents. The other privately owned one bedroom Section 8 New Construction developments have no waiting lists and are experiencing increasing turnover due to the age of their residents. The State and local home care programs are keeping more elderly in their own homes. In the past, these elderly families would have moved in to an elderly apartment complex.
