## Section 2: PHDEP Plan Goals and Budget

### A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The Housing Authority of the Town of Greenwich proposes a comprehensive program which is designed to meet several objectives: combating drug related crime in the vicinity of the targeted public housing developments, improving physical security, offering a variety of educational and vocational courses which will lead to increased employment opportunities for residents, programs directed towards youth and the elderly which will address their respective needs, and drug prevention and intervention programs for residents of all ages.

Specific goals include: reduced drug related criminal activity in or around our public housing development properties; a reduction in drug abuse; increased economic development opportunities for residents; educational, recreational, vocational and social opportunities for residents, particularly youth and the elderly, as an alternative to drug use; and programs that offer residents increased opportunities for participation within the community.

Based on the experience of administering the Drug Elimination Program since 1989, the Housing Authority will subcontract with several service providers with whom there have been successful partnerships throughout past programs. Service providers will be required to submit semi-annual monitoring reports. The Housing Authority will use these reports, along with meetings with resident participants, to evaluate the success of the program.
