BRIEF STATEMENT OF FIVE-YEAR PLAN GOAL ACCOMPLISHMENTS

During the past year, the Wilmington Housing Authority filled all vacant positions and staffed new positions added to the organizational structure. Utilizing staff assigned to the Vacancy Reduction Task Force and the maintenance staff a total of 184 vacant units were turned. The adjusted vacancy rate was decreased from 4.39% to 3.25%. Rents uncollected were reduced from 15 to 7%. In the area of work order control, the Authority planned to centralize work orders, purge files, hire work order clerks and continue timely servicing of both emergency and routing work orders. All files were purged and an office was set up for the hiring of two work order clerks. However, hiring was delayed pending the installation of new computer systems at the main maintenance warehouse. The Authority has continued to address all emergency work orders within 24 hours, we continue to work on addressing the backlog of both routine and HQS work orders. We have implemented a "Zoned Maintenance" strategy and it is projected that all delinquent work orders will be caught up within a six month period.

All managers that had not previously received their PHM Certification were given the opportunity to take the PHM Training and Certification course. All but one manager is now certified.

New computer systems have been installed at the central office location; the installation at the remote offices is scheduled for completion by July 2001.

The RAB is on a regular monthly meeting schedule with all areas represented including Section 8.
