### COMMUNITY SERVICE PROGRAM PLANS

The Housing Authority of the City of Camilla has for the past four years been a major participant in the Workforce Development Center in Camilla, has been a coordinator for the City in the project and has paid one case worker from a Drug Elimination Grant. The Workforce Development Center is a one stop shop for persons going to work and helps move persons into work status, especially persons on TANF and persons who are high risk and have inadequate education and training. We have an agreement with that agency to supply them with the names of those persons who will be required to participate in community service. Since this agency already has persons coordinating community service projects for those persons not yet able to find jobs, they have agreed to take persons referred from us, include them in their community service projects, keep up with the attendance and participation of these persons and send the information to us on a prescribed regular interval. We will then determine what is required on an individual basis, who is participating and who needs attention and a second chance to participate and make up loss time according to the regulations. This community service runs a range from clerical to maintenance and there is an attempt to place persons in areas they might like to pursue. There is a written contract with the firm where the community service is taking place.

Camilla Housing Authority also has units in Meigs and Norman Park which are in other counties and residents there are not eligible to participate in the Workforce Development Center in Mitchell County. The plans are to require these persons to do community service in the community where they live and the Housing Authority will use its own grounds workers to supervise the community service one or two days a month in these locations.

## PET POLICY

Camilla Housing Authority has adopted a pet policy that allows each household to own up to two pets under certain conditions. There conditions include written pre-approval of the Housing Authority, a refundable deposit of \$200, proof that the pet has been inoculated as prescribed by the state and/or local ordinances and has been neutered if a dog or cat over six months old. Proof consists of verification by a licensed veterinarian. Pets are limited to dogs, cats, birds, fish. Dogs are limited to 30 pounds in weight. Cats must have water proof liter boxes that are maintained.

Owner is responsible to see that pets do not disturb neighbors, are not vicious and a threat to neighbors and/or maintenance and other housing authority employees, do not cause insect infestation in the house, are not allowed outside without leash according to local ordinances, and owners must clean up any pet waste in the house or yards. Visiting pets are allowed for up to two weeks and must meet same guidelines. No pets can be kept and used for commercial purposes. Pets may not be left unattended in an apartment for more than 48 hours.

Should any pet cause harm to any persons, pet will be removed in 24 hours. If pet owner does not abide by rules and regulations he/she must remove pet from development within 10 days. Failure to do so will be grounds for termination. Grievance procedures apply.

## PROGRESS REPORT

Camilla Housing Authority has submitted an application for the release of 4.83 acres of excess land on GA.96-14. Application has been completed and should be submitted to Washington shortly. We are anticipating the approval of this submission and will use the land for building lots for low

and moderate income persons. Building lots are in great demand and are very scarce.

A non profit has been formed as proposed last year. The non profit has received a sizable donation of land part of which is suitable as building lots. Some of the lots have been sold to Habitat for Humanity after the February tornado. Additional funds are being sought for infrastructure.

DCA has come out with a new program that allows housing authorities and non profits to use the money for building single family and duplex structures as rental units in small numbers. This is very suitable for rural areas and fits our needs. We will apply for some monies for several units to be built on the land donated to the non profit.

We have been collaborating with the City of Camilla and other agencies on housing needs. The City of Camilla has appointed the housing authority non profit as the recipient of the above mentioned lots and we worked together with the City for infrastructure development on 20 lots paid for with a grant the City received after the tornado and then finished with some of the monies the non profit received from the sale of the lots.

We are approximately three quarters of the way completed with the installation of central heat in 258 units of public housing. We have also bid the complete renovation including installation of central heat and air conditioning in the last 100 units of the PHA which would not have central heat and air.

We have looked at and contemplated the possibility of converting some public housing to home ownership. At present we have plans to shortly submit a 5H application that will start with building several new units each year to be converted to homeownership probably through a lease purchase program.

We are continuing to work with Workforce Development Center and DFACS to increase number of persons joining the workforce. Since we are in the middle of reexaminations we cannot give any statistics at this time.

PHA advisory scores have improved since last year but are still in standard range.
