HALC UTILITY ALLOWANCE SCHEDULE

Public Housing

Effective Date - January 1

Notices and postings must be done in accordance with the lease and 24 CFR Subpart E 965.502 (c). Notice must be posted and given to each tenant at least 60 days prior to the effective date, and tenants must be given a 30 day comment period expiring not less than 30 days before the effective date. Occupancy needs to know the proposed allowances at least 60 days prior to effective date. Once the allowances have been established, copy to all Departments.

Section 8

Effective Date - January 1

No notices or postings are required. Occupancy needs to know the proposed allowances at least 60 days prior to the effective date. Once the allowances have been established, copy to all Departments.

Leland Manor

Effective Date - September 1

Utility data and recommendation must be submitted to Farmers Home by June 1. After approval from Farmers Home, notices must be given in accordance with Multiple Housing Management Handbook 1930-c. Notice must be posted and given to each tenant at least 60 days prior to the effective date, and tenants must be given a 20 day comment period following the date of notice. Occupancy needs to know the proposed allowances at least 60 days prior to effective date. Once the allowances have been established, copy to all Departments.

Fornof Manor

Effective Date - January 1

Utility data and recommendations must be submitted to IHDA by September 30. No notices or postings are required by IHDA. Occupancy needs to know the proposed allowances at least 60 days prior to effective date. Once the allowances have been established, copy to all Departments.

Utility allowances must be re-evaluated annually for all of these programs. If no changes are required, the postings and notices are not required; however, the rest of the steps must still be completed. If changes in the allowances would result in a rent increase, an additional 30 day notice has to be given to the tenant by Occupancy. This could have an effect on the posting date. If it looks like ~~he~~ allowances would be reduced, you will need to work with Occupancy on the posting dates. Regulations have been changing constantly, so be sure and check for any changes each year prior to doing the allowances.

ADMISSIONS POLICY FOR DECONCENTRATION

The HALC will provide for deconcentration of poverty and income mixing by giving preference to higher income tenants for low-income projects and preference to lower income tenants for high-income projects.

To monitor deconcentration objectives, tenant incomes will be analyzed annually. Using the average family size and average income, the project will be compared to other projects in the locality. If the projects are not comparable and the project is determined to be extremely low income, preference will be given to waiting list applicants whose income meets very low or low income guidelines. For incomparable projects determined to be very low income, preference will be given to applicants whose income meets extremely low income guidelines. Incomparable projects determined to be low income will result in preference given to applicants whose income meets extremely low or very low income guidelines. Scattered site projects will not be affected by deconcentration requirements.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The Housing Authority for LaSalle County proposes to continue to operate an intervention program for youth and adults. Resident empowerment, involvement and ownership of responsibility is crucial to the success of the drug elimination program.

Our goal and comprehensive strategy is to provide programs, prevent crime and violence, strengthen families, encourage self-sufficiency, welfare reform, and provide a safe environment for families living in public housing developments.

The Resident Services Specialist and three Housing Managers monitor and evaluate all activities and report to the Director of Housing Management who ensures they are on target with the Drug Elimination Implementation Plan

The Grant funds will be used to continue with prevention/intervention programs for youth and adults, to provide additional law enforcement patrols, and additional security lighting. They will also be used for computer learning centers and to enhance the GED classes and the After School Programs.

PROGRESS IN MEETING THE 5-YEAR PLAN MISSION AND GOALS

Over the past year, the Authority has received ownership of a Section 515 Senior Development to add to its current housing stock. It has completed total modernization of two more of its Family Developments and started complete modernization on its last three remaining Family Developments. It has signed a new Intergovernmental Agreement with an adjoining County to increase the number of Housing Choice Vouchers administered within that County. Worked with residents in two of the larger Family Developments to form new Resident Councils that were inactive in the past. Published a Section 8 Landlord Newsletter to keep landlords up to date on regulation changes and seek potential voucher landlords. Made changes to the Public Housing Admission and Occupancy Plan and the Section 8 Administrative Plan to attract new and retain current higher income families. In cooperation with the Illinois Department of Human Services, set up three WIC sites located within three Family Developments throughout the County. In cooperation with Starved Rock Associates for Vocational and Technical Education, set up a County wide career program for 7th and 8th grade Public Housing students.

IMPLEMENTATION OF PUBLIC HOUSING RESIDENT COMMUNITY SERVICE REQUIREMENTS

The Community Service Policy has been written, posted for resident comment, approved by the Authority's Board of Commissioners, and made part of the Admissions and Occupancy Plan. Leases are currently being rewritten and will be ready for the implementation date of 7/1/01. The Authority will review current files and notify residents of their status 30 days prior to implementation date. Applicants will be informed during the application process. The authority will re-verify status at annual re-examination. The Authority has already signed an agreement with the local TANF agency to assist in verifications. The Authority will administer the program itself. Allowable activities shall include, but are not limited to: improving the physical environment of the resident's developments; selected office related services in PHA Developments or Administrative offices; volunteer services in local schools, daycare centers, hospitals, nursing homes, youth or senior organizations, etc.; neighborhood group special projects; participation in programs that develop and strengthen resident self-responsibility; participation in an educational or vocational training program; raising children under the age of 6 at home where spouse is working.

ASSESSMENT OF SITE-BASED WAITING LIST DEVELOPMENT DEMOGRAPHIC CHANGES

The Authority is a County wide agency in a very large geographic area. The Authority has Developments in 10 cities with as much as 70 miles between some cities. There are individual Elderly and Family Developments in each city with most cities having only one Family and one Elderly Development. There is no public transportation between cities anywhere in the County. Most applicants want to live in the city where they already live, work, or their children attend schools. This was the reason the Authority adopted site-based waiting lists. The Authority has seen virtually no tenant composition changes in any of the Developments and very little changes in the make up of the waiting list since the adoption of the site-based waiting lists.
