ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Housing Authority of St. John the Baptist Parish has prepared this Annual PHA Plan in compliance with Section 511 of the Quality Housing and Work Responsibility Act of 1998 and the ensuing HUD requirements.

The purpose of the Annual Plan is to provide a framework for local accountability and an easily identifiable source by which public housing residents and other members of the public may locate basic PHA policies, rules and requirements related to the operations, programs and services of the agency.

The Mission Statement and the Goals and Objectives were based on information obtained in the State of Louisiana Consolidated Plan. Utilizing these goals and objectives, the St. John Parish Housing Authority is now striving to assure that the PHA is managed and maintained effectively and efficiently, and that our residents receive the best customer service.

The PHA adopted a revised Admissions and Continued Occupancy Policy in July 2000 to be in compliance with QHWRA. A new Board of Commissioners has been seated, with five members on the Board as of August 2001. This Board is aware of it's role as a policy making body.

The most important challenges to be met by the Housing Authority of St. John the Baptist Parish during FY 2002 include:

- Review and revise all policies and procedures in order to provide clear information to residents and the community that will be supported by the Board of Commissioners;
- Establish new policies needed;
- Continue to reduce crime at the sites, caused both by residents and neighboring communities, by increasing cooperation with the St. John Parish Sheriff's Department;
- Provide safe and secure housing to lease abiding residents through aggressive lease enforcement for non-lease abiders;
- Improve the public housing stock of vacant occupied units through the Capital Fund, thereby reducing the number of vacant units and improving the quality of life for all residents.
- Train maintenance staff in acceptable maintenance standards and improving the quality of all units and the customer service provided;
- Train administrative staff in HUD regulations and revised HASJBP policies and procedures, thereby decreasing and/or eliminating the back log of HUD required actions, i.e. financial reporting, response to audit findings, etc.
- Improve the Authority's PHAS score to a level above its current troubled score.

This Annual Plan exemplifies the Authority's commitment to meet the housing needs of the full range of low-income residents. The HASJBP, in partnership with agencies from all levels of government, the business community, non-profit community groups, and residents, will use this Plan to improve the Authority's performance, and improving the residents quality of life.

1. Statement of Housing Needs

[24 CFR Part 903.7 9 (a)]

The PHA has analyzed the housing needs of low-income and very low-income families who reside in the PHA's jurisdiction. Included in the analysis are housing needs of extremely low-income families, elderly families and families with disabilities, and households of various races and ethnic groups residing in the jurisdiction. The housing needs of each of these groups have been identified separately. The identification of housing needs took into account issues of affordability, supply, quality, accessibility, size of units and location.

The PHA is not located in a city or county with its own Consolidated Plan. However, the State's Consolidated Plan accurately describes the housing needs of the jurisdiction. Applicable portions of the State's Consolidated Plan are attached.

A. Housing Needs of Families in the Jurisdiction/s Served by the PHA

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the

following table. In the “Overall” Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being “no impact” and 5 being “severe impact.” Use N/A to indicate that no information is available upon which the PHA can make this assessment.

**DE-CONCENTRATION AND INCOME TARGETING POLICY
FOR THE
HOUSING AUTHORITY ST. JOHN THE BAPTIST
PARISH, LaPLACE, LA**

DECONCENTRATION AND INCOME TARGETING POLICY
(of the Public Housing Admissions and Occupancy Policy)

Sub-Title A, Section 513 of the Quality Housing and Work Responsibility Act of 1998 (QHWRA), establishes two interrelated requirements for implementation by Public Housing Authorities: (1) Economic De-concentration of public housing developments and (2) Income Targeting to assure that families in the “extremely low” income category are proportionately represented in public housing and that pockets of poverty are reduced or eliminated. Under the de-concentration requirement, PHAs are to implement a program, which provides that families with lowest incomes will be offered units in housing developments where family incomes are the highest and high-income families will be offered units in developments where family incomes are the lowest. In order to implement these new requirements the PHA must promote these provisions as policies and revise their Admission and Occupancy policies and procedures to comply.

Therefore, the Housing Authority of St. John the Baptist Parish hereby affirms its commitment to implementation of the two requirements by adopting the following policies:

1. Economic De-concentration:

Admission and Occupancy policies are revised to include the PHA’s policy of promoting economic de-concentration of its housing developments by offering low-income families, selected in accordance with applicable preferences and priorities, units in developments where family incomes are highest. Conversely, families with higher incomes will be offered units in developments with the lowest average family incomes.

Implementation of this program will require the PHA to: (1) determine and compare the relative tenant incomes of each development and the incomes of families in the census tracts in which the developments are located, and (2) consider what policies, measures or incentives are necessary to bring high-income families into low-income developments (or into developments in low-income census tracts) and low-income families into high-income developments (or into developments in high-income census tracts).

In addition, an assessment of the average family income for each development is necessary. Families will be provided with an explanation of the policy during the application/screening process and/or the occupancy orientation sessions and given opportunities to discuss the options available to them. The families will also be informed that should they choose not to accept the first unit offered under this system, their refusal will not be cause to drop their name to the bottom of the list.

Implementation may include one or more of the following options:

- < Skipping families on the waiting list based on income;
- < Establishing preferences for working families;
- < Establish preferences for families in job training programs;
- < Establish preferences for families in education or training programs;
- < Marketing campaign geared toward targeting income groups for specific developments;
- < Additional supportive services;
- < Additional amenities for all units;
- < Ceiling rents;
- < Flat rents for developments and unit sizes;
- < Different tenant rent percentages per development;
- < Different tenant rent percentages per bedroom size;
- < Saturday and evening office hours;
- < Security Deposit waivers;
- < Revised transfer policies;
- < Site-based waiting lists;
- < Mass Media advertising/Public service announcements; and
- < Giveaways.

2. Income Targeting

As public housing dwelling units become available for occupancy, responsible PHA employees will offer units to applicants on the waiting list. In accordance with the Quality Housing and Work Responsibility Act of 1998, the PHA encourages occupancy of its developments by a broad range of families with incomes up to eighty percent (80%) of the median income for the jurisdiction in which the PHA operates. At a minimum, 40% of all new admissions to public housing **on an annual basis** will be families with incomes at or below thirty percent (30%) (extremely low-income) of the area median income. The offer of assistance will be made without discrimination because of race, color, religion, sex, national origin, age, handicap or familial status.

The PHA may employ a system of income ranges in order to maintain a public housing resident body composed of families with a range of incomes and rent paying abilities representative of the range of incomes among low-income families in the PHA's area of operation, and will take into account the average rent that should be received to maintain financial solvency. The selection procedures are designed so that selection of new public housing residents will bring the actual distribution of rents closer to the projected distribution of rents.

In order to implement the income targeting program, the following policy is adopted:

- The PHA may select, based on date and time of application and preferences, two (2) families in the extremely low-income category and two (2) families from the lower/very low-income category alternately until the forty percent (40%) admission requirement of extremely low-income families is achieved (2 plus 2 policy).
- After the minimum level is reached, all selections may be made based solely on date, time and preferences. Any applicants passed over as a result of implementing this 2 plus 2 policy will retain their place on the waiting list and will be offered a unit in order of their placement on the waiting list.
- To the maximum extent possible, the offers will also be made to effect the PHA's policy of economic de-concentration.
- For the initial year of implementation, a pro-rated percentage of the new admissions will be calculated from April 1, 1999 through the end of the fiscal year. Following the initial implementation period, the forty percent (40%) requirement will be calculated based on new admissions for the fiscal year.
- The PHA reserves the option, at any time, to reduce the targeting requirement for public housing by no more than ten percent (10%), if it increases the target figure for its Section 8 program from the required level of seventy-five percent (75%) of annual new admissions to no more than eighty-five percent (85%) of its annual new admissions.
