Progress in Meeting 5 Year Plan Mission & Goals

The Englewood Housing Authority has always been progressive in pursuing and promoting adequate and affordable housing and economic opportunity along with a living environment free from discrimination, however the federal governments regulations changes within the past year have rocked the subsidy program to its foundations.

Its extraordinarily interesting that HUD has picked the very time that the new housing voucher choice program promoting excessive tenant rent payments for the (sometimes elderly and infirm) tenants who have been leasing in place for many years to evaluate housing authorities on their progress in promoting adequate housing. Unfortunately, the problem is not the Housing Authority's failure to inspect and have landlords maintain much housing but rather to keep our current tenants from being forced to relocate to inferior lower cost housing in order to survive. At the same time, HUD has denied our application for additional vouchers while our waiting list and needs assessment continues to grow.

Further, HUD has emphasized improved customer satisfaction while implementing a PHAS inspection system that encourages pha's to expend all operating funds on items which we feel are exaggerated at best and not a priority at worst while trying at the same time to keep all of our tenants happy on an extremely limited budget. Don't forget on top of this, HUD has added countless computer access staff time in writing, completing and being rated on endless reports leaving us little or no

time to focus on FSS counseling needs and other important programs.

We believe this unrealistic, poorly thought out and unfairly rated system is designed to make previously high performing, award winning pha's fail.

I believed that the philosophy of government was to assist those in need to the best of our ability while encouraging them to become more self-sufficient.

How can we accomplish these goals effectively while being constrained by focusing all our attention on performance reports which do not necessarily measure. Correctly, what the Housing Authority is really doing? I believe unless and until HUD removes the private contractors from attempting to evaluate a system of which they have no familiarity and no basis in the day to day exhaustive operations of efficiently and effectively addressing all of the tenants needs.

We have been a forerunner in becoming the first assisted living in public housing program, our grounds are immaculate, we keep our building exceptionally clean and take great pains to spend extra time with our tenants and their concerns, yet we get a low PHAS score for items such as the wall on the edge of our property (owned by the Railroad Co. Who refuses to do anything and over whom we have no control); sidewalk shifting (which is corrected almost yearly, due to extreme weather conditions, etc.)

In all I would say we are doing an outstanding job of meeting our goals and mission given the severe constraints HUD seems to have deliberately placed in our way. I suggest someone in Washington needs to listen to the phas and their resients and Section 8 tenants and their needs and concerns rather than using a sterile fixed unrealistic "grading" system to measure performance, and in the meantime, God help our tenants and the population we serve!

COMMENTS FROM TENANTS

The main priority of both Tibbs and Westmoor Garden tenants is window replacement. For Tibbs the windows are difficult to open and close for Seniors and therefore impossible to clean and difficult ventilation.

For Westmoor tenants, the original windows were put in backwards therefore, they cannot be cleaned.

BCCAP has promised new windows for two years however if we do not receive them in 2001 we will have to proceed ourselves, since this has reached a crisis situation for the tenants.

Westmoor tenants also spoke about security concerns as did Tibbs tenants, however we are attempting to address them without Drug Elimination grants.

Finally, the Section 8 Existing and Westmoor Gardens tenants wanted more activities for youth. Although we currently have a computer lab and an afterschool program as well as a fun night for middle school children once a month, they felt more activities were needed.
